#### Comparison of Current Year To Date ("9M17") with Preceding Year To Date ("9M16")

For the 9 months of FY2017, the Group recorded revenues of RM1,479.7 million, a 20.3% increase as compared with 9M16 of RM1,230.1 million. Profit before tax (PBT) also registered higher at RM170.6 million for 9M17, representing an increase of 7.3% compared with RM159.0 million for the previous year corresponding period. The improved year-to-date performance was mainly attributable to the improved performance in the Gloves division as compared with the corresponding YTD of the previous financial year.

The Gloves division's revenue for the 9M17 was up 23.3% to RM1,302.1 million from RM1,055.9 million in 9M16. Its PBT also posted an increase to RM156.3 million, up 15.3% from RM135.5 million recorded in the previous year corresponding YTD. The division's YTD improvement in PBT were driven by continued strong demand growth for its glove products on the back of the increase in volume sold, improvement in manufacturing efficiency and effective cost controls, despite higher raw material prices (NR +48.1%, NBR +17.6%), with the production plants essentially operating at full capacity.

For 9M17, the TRPs division recorded revenues of RM119.8 million as compared with RM122.3 million in 9M16, a marginal decrease of 2.1%. PBT was also lower by 45.7% to RM11.8 million from RM21.7 million, resulting from the sharp increase in natural rubber prices (SMR20 +44.5%) and chemical costs. As infrastructure products are on a project-basis with a longer timeframe, with sales prices locked-in at contract commencement while raw materials are purchased on a rolling-basis and subject to price fluctuations, the infrastructure segment is consequently exposed to greater time-lag and variations in cost structure. The automotive segment remained more stable.

For 9M17, the Cleanroom division recorded higher revenues of RM56.1 million from RM49.1 million, while PBT also increased to RM2.3 million from RM1.4 million compared to the previous year corresponding YTD.

#### 14.1 Review of Results (continued)

## Comparison of Current Quarter ("3Q17") with Previous Year Corresponding Quarter ("3Q16")

On a year-on-year basis, the Group recorded higher revenues of RM489.2 million in the current 3Q17 quarter as compared with RM414.0 million in 3Q16, an increase of 18.2%, while PBT was RM58.2 million compared with RM42.6 million in 3Q16, an increase of 36.6% from the previous year corresponding quarter. The improved year-on-year performance was mainly attributable to the improved performance in the Gloves divisions as compared with the corresponding quarter of the previous financial year.

The Gloves division recorded revenues of RM425.9 million, a 19.7% increase compared with RM355.8 million in the previous year corresponding quarter, while PBT improved significantly by 53.1% to RM53.6 million in the current quarter as compared with RM35.0 million in the same quarter of the previous year. The improvement in PBT was achieved on the back of the increase in volume sold, efficiency gains in the manufacturing process as well as effective cost controls as compared with 3Q16, despite the higher raw material costs (NR +21%, NBR +0.5%).

The TRPs division's revenue and PBT were 5.7% and 48.4% lower respectively in the current quarter as compared with its previous year corresponding period. The results were mainly attributable to the lower sales contribution from infrastructure products as a result of the completion of certain contracts which are on a project-basis as well as the sharp increase in raw material prices (SMR20 +23.3%). As infrastructure products are on a project-basis with a longer timeframe, with sales prices locked-in at contract commencement while raw materials are purchased on a rolling-basis and subject to price fluctuations, the infrastructure segment is consequently exposed to greater time-lag and variations in cost structure. The automotive segment remained more stable.

The Cleanroom division recorded higher revenues of RM24.8 million from RM17.1 million in 3Q16, while PBT also increased to RM0.79 million from RM0.56 million in the same quarter of the previous year.

# Changes in Results Against Preceding Quarter Comparison of Current Quarter ("3Q17") with immediate Preceding Quarter ("2Q17")

On a sequential basis, revenue remained relatively unchanged recording a marginal decrease of 0.27%, with PBT increasing by 3.76% contributed by an improvement in all three segments.

On a quarter-on-quarter basis, the Glove division's revenues and PBT were inline, on the back of continued strong demand for gloves. Sales volumes remained robust, with the production plants essentially operating at full capacity. Despite the marginal decrease in revenues of 3.8% due to the lower average selling prices arising from the lower raw material costs (NR -12.5%, NBR -12.2%), PBT increased by 1.9% vis a vis the preceding quarter driven by the increase in volume sold, improvement in manufacturing efficiency and automation, and effective cost controls.

The TRPs division recorded revenues of RM37.9 million in the current quarter, an increase of 12.5% compared with the RM33.7 million recorded in the immediate preceding quarter, while PBT came in at RM3.63 million compared with RM2.79 million in 2Q17, an increase of 30.1% quarter-on-quarter. The improved contributions were mainly attributable to higher sales deliveries.

The Cleanroom division recorded higher revenues of RM24.8 million from RM13.1 million in 2Q17, while PBT also increased to RM0.79 million from RM0.66 million in the immediate preceding quarter.

## 14.3 Current Year Prospects

The demand for gloves remains robust, with the Group's production plants running at full capacity. The Group's latest Plant 16 located along Jalan Meru, was initially expected to be completed in July 2017. However, there was a slight delay due to machine installation and water supply issues. Two of the eight production lines were completed in October which are now under production-trial, with the rest six lines going to be completed by Dec. We expect contributions from this plant for this year to be minimal, with full contributions to start from Jan 2018 onwards. Plant 16 which has an installed capacity of 3 billion pieces per annum, will focus on the Group's patented Low Derma Technology gloves. This latest state-of-the-art plant incorporates many of the latest technologies, including high-speed dipping technology with a high-degree of automation to reduce the dependence on manpower. Construction works for Plant 17 and 18, also along Jalan Meru have commenced and expected to be completed by 2018. These 2 new plants would be capable of producing up to 4.5 billion pieces (1.5 and 3.0 billion pieces respectively) of nitrile gloves per annum once completed.

Research & development remains one of the cornerstones of Kossan's success. The construction of the Group's integrated Research and Development cum Training Centre ("RDTC") is completed in the 4<sup>th</sup> quarter of 2017. The RDTC will house the Group's world class research, lab and testing facilities for new innovations and quality improvements. It will also serve as the nerve centre for research into engineering and robotic implementations as well as automation systems for existing and new manufacturing plants.

With the strong demand of gloves and improvement in production efficiency, Management is optimistic of the performance for the remaining quarter of the year.
