Its PBT also grew to RM209.9 million, up 17.51% from RM178.6 million recorded in the previous year corresponding YTD. The division's improvement in revenues were a result of higher average selling prices (ASP +7%) arising from the increase in raw material prices, and higher volume sold (Vol. +6%) compared to FY2016. The improvement in PBT for the Gloves division were driven by continued strong demand growth for its glove products on the back of the increase in volume sold with the production plants continuing to operate at full capacity, improvement in manufacturing efficiency, increased automation and effective cost controls, despite the higher raw material prices (NR + 30.0%, NBR +14.1%).

The TRPs division recorded revenues of RM162.0 million for the FY2017 period as compared with RM160.6 million in FY2016, an increase of 0.87%. The division's revenues remained relatively unchanged. The PBT was RM16.2 million, a decrease of 47.03% as compared to RM30.6 million in FY2016. PBT was lower mainly due to the market remained challenging and a surge in raw material prices (SMR10 + 24.4%). There was also a provision for doubtful debts amounting to RM2.066 million expensed in the current quarter.

For FY2017, the Cleanroom division recorded higher revenues of RM76.4 million from RM64.8 million, while PBT also increased to RM2.9 million from RM2.7 million compared to FY2016.

### Explanatory Notes

#### 14.3 Current Year Prospects

The glove industry's prospects remain robust with continued strong demand for the Group's glove products. With the existing production plants running at full capacity, the latest Plant 16 located along Jalan Meru which has been completed and will be contributing to group earnings in 2018, will underpin the Group's growth going forward.

Additionally, construction works for Plant 17 and 18, also along Jalan Meru have commenced and expected to be completed by 2018. These 2 new plants would be capable of producing up to 4.5 billion pieces of nitrile gloves per annum once completed.

Moving further forward, the earmarked Bestari Jaya land which measures approximately 56 acres and the latest industrial land acquisition in Kuala Langat of approximately 98 acres is testament to the Group's objective of long-term sustainable growth.

For the Group's Technical Rubber Products, although challenging and subject to rubber price fluctuations, the Group views this division as stable and is optimistic of the performance for the division.

The year 2017 was characterised by the sharp rise in raw material prices as well as the increased competitive environment. Against this challenging backdrop, the Group has nevertheless continued to pursue its growth strategies. With the Group's expansion plans and continued strong demand for gloves, coupled with the on-going transformation program and improvement in operating efficiency, Management is optimistic of the performance for FY2018.
