**UNAUDITED INTERIM FINANCIAL REPORT
FOR THE PERIOD ENDED 30 SEPTEMBER 2018**

PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134

A1. BASIS OF PREPARATION

The unaudited interim financial report has been prepared in accordance with the reporting requirements as set out in Malaysian Financial Reporting Standards No.134 – “Interim Financial Reporting”, paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad and the requirements of the Companies Act 2016 in Malaysia, where applicable.

The unaudited interim financial report should be read in conjunction with the audited financial statements for the financial year ended 31 December 2017 and the attached explanatory notes. These explanatory notes provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2017.

The significant accounting policies and methods of computation applied in the unaudited interim financial report are consistent with those adopted in the most recent annual financial statements for the financial year ended 31 December 2017 except for the newly issued Malaysian Financial Reporting Standards (“MFRS”), IC Interpretations and amendments to published standards which is to be applied by all Entities Other Than Private Entities that is effective for the financial periods beginning on or after 1 January 2018.

The new standards, amendments to published standards and IC Interpretation effective for financial year beginning on 1 January 2018 that are applicable and adopted by the Group as follows:

MFRS 9	Financial Instruments
MFRS 15	Revenue from Contracts with Customers
Amendments to MFRS 2	Classification and Measurement of Share-based Payment Transactions
Amendments to MFRS 140	Transfer of Investment Property
IC Interpretation 22	Foreign Currency Transactions and Advance Consideration
Annual Improvements to MFRS 2014 – 2016 cycle	Amendments to MFRS 1 First-time Adoption of Malaysian Financial Reporting Standards and Amendments to MFRS 128 Investment in Associates and Joint Ventures

The adoption of the above new accounting standards, amendment to published standards and IC Interpretation did not have any material impact to the Group for the financial year ending 31 December 2018 upon their initial application. The Group has adopted these standards retrospectively from 1 January 2018, with the practical expedients as permitted under the relevant standards.

**UNAUDITED INTERIM FINANCIAL REPORT
FOR THE PERIOD ENDED 30 SEPTEMBER 2018**

PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134 (Cont'd)

A1. BASIS OF PREPARATION (Cont'd)

The above adoption will also result in a change in the accounting policies to the Group with the changes arising from these adoptions are as described below:

MFRS 9 Financial Instruments

MFRS 9 retains but simplifies the mixed measurement model in MFRS 139 on the classification and measurement of financial assets and financial liabilities and on hedge accounting. MFRS 9 also introduces the expected credit loss ("ECL") model on impairment that replaces the incurred loss impairment model used in MFRS 139 which applies to financial assets measured at amortised costs, contract assets under MFRS 15, lease receivables, loan commitments and certain financial guarantee contracts and debt instruments measured at fair value through other comprehensive income ("FVOCI"), but not to equity investments.

On the date of initial application, MFRS 9 did not affect the classification and measurement on the financial assets and financial liabilities. The impact on the application of the ECL model on receivables, deposits and contract assets of the Group is not material and thus, the incremental impact on the impairment provisions were charged out in the Consolidated Statement of Comprehensive Income in the current period.

MFRS 15 Revenue from Contracts with Customers

MFRS 15 replaces MFRS 118 Revenue and MFRS 111 Construction Contracts and related interpretations. The standard deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers focusing on the identification and satisfaction of the performance obligations.

On revenue recognition, the standard specifies that the revenue is recognised when a customer obtains control of goods or services and thus has the ability to direct the use of and obtain the benefits from the goods or service via a five-step process model, moving from the transfer of risks and rewards principles.

PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134 (Cont'd)

A1. BASIS OF PREPARATION (Cont'd)

MFRS 15 Revenue from Contracts with Customers (Cont'd)

In the assessment undertaken by the Group to evaluate the impact of adopting this new standard, the Group has identified the following areas that were affected:

- The initial application of MFRS 15 on the new guidance on revenue recognition did not have a material impact on the method and timing of the Group's revenue recognition; and
- Assets recorded in the Consolidated Statement of Financial Position as "Accrued Revenue" as at 31 December 2017 and included in "Trade and Other Receivables" and "Deferred Costs" were reclassified as "Contract Assets". "Deferred Revenue" were reclassified as "Contract Liabilities". Accordingly, the above items were reclassified in the Consolidated Statement of Cash Flows (Note B17).

The initial application of MFRS 15 did not have any material impact to the Group other than as noted in the paragraph above.

**UNAUDITED INTERIM FINANCIAL REPORT
FOR THE PERIOD ENDED 30 SEPTEMBER 2018**

PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134 (Cont'd)

A1. BASIS OF PREPARATION (Cont'd)

The Group has not early adopted the following accounting standards, IC interpretation and amendments to published standards that have been issued by the Malaysian Accounting Standards Board ("MASB") as these are effective for the financial period beginning on or after 1 January 2019 or where the effective date has been deferred to a date to be determined by the MASB is as follows:

MFRS 16	Leases (effective 1 January 2019)
Amendments to MFRS 9	Prepayment Features with Negative Compensation (effective 1 January 2019)
Amendments to MFRS 128	Long-term Interests in Associates and Joint Ventures (effective 1 January 2019)
IC Interpretation 23	Uncertainty over Income Tax Treatments (effective 1 January 2019)
Annual Improvements to MFRS Standards 2015 – 2017 cycle	Amendments to MFRS 3 Business Combinations, Amendments to MFRS 11 Joint Arrangements, Amendments to MFRS 112 Income Taxes, Amendments to MFRS 123 Borrowing Costs (effective 1 January 2019)
Amendments to MFRS 119	Plan Amendment, Curtailment or Settlement (effective 1 January 2019)
Amendments to MFRS 10 and MFRS 128	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (effective date is deferred to a date to be determined by MASB)

The initial application of the aforementioned accounting standards, amendments to published standards and IC Interpretations are not expected to have any material impact to the financial statements of the Group except as mentioned below:

MFRS 16 Leases

Under MFRS 16, a lease is a contract (or part of a contract) that conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

MFRS 16 eliminates the classification of leases by the lessee as either finance leases (on balance sheet) or operating leases (off balance sheet). MFRS 16 requires a lessee to recognise a "right-of-use" of the underlying asset and a lease liability reflecting future lease payments for most leases.

The right-of-use asset is depreciated in accordance with the principle in MFRS 116 "Property, Plant and Equipment" and the lease liability is accreted over time with interest expense recognised in profit or loss.

For lessors, MFRS 16 retains most of the requirements in MFRS 117. Lessors continue to classify all leases as either operating leases or finance leases and account for them differently.

The adoption of MFRS 16 will result in a change in accounting policy. Based on the assessments undertaken to date, the Group expects no material financial impact upon the adoption of the MFRS 16.

A2. COMMENTS ABOUT SEASONAL OR CYCLICAL FACTORS

The Group's operations are not affected by any significant seasonal or cyclical factors in the financial year under review. It should be noted that the Group operates predominantly in the oil and gas sector in Malaysia. Accordingly, the level of the Group's business activities is closely co-related with that of the oil and gas operators and contractors in Malaysia. Any significant change in their level of activities will likewise have an impact on the Group.

A3. UNUSUAL ITEMS DUE TO THEIR NATURE, SIZE, OR INCIDENCE

There were no significant unusual items affecting the assets, liabilities, equity, net income or cash flows during the financial year-to-date other than the high tax expense and tax penalty incurred due to the additional taxes raised by the tax authority for prior years of assessment from 2010 to 2015 on the Company following the completion of a tax review as disclosed in Note B5.

A4. SIGNIFICANT ESTIMATES AND CHANGES IN ESTIMATES

There were no material changes to estimates that have had any material effect on the financial year-to-date results.

A5. EQUITY AND DEBT SECURITIES

On 12 March 2018, the Company issued and listed 297,200 ordinary shares in the Company at an issuance price of RM1.567 per share to eligible employees under the Third Tranche of the First Grant under Restricted Share Incentive Plan of the Group's Long Term Incentive Plan ("LTIP").

On 30 March 2018, the Company issued and listed 450,100 ordinary shares in the Company at an issuance price of RM1.100 per share to eligible employees under the Second Tranche of the Second Grant under Restricted Share Incentive Plan of the Group's LTIP.

On 21 June 2018, the Company issued and listed 183,100 ordinary shares in the Company at an issuance price of RM1.022 per share to eligible employees under the Second Tranche of the Special Grant under Restricted Share Incentive Plan of the Group's LTIP.

Other than as disclosed above, the Group did not undertake any other issuances, cancellations, repurchases, resale and repayments of debt and equity securities during the financial year-to-date.

A6. FINANCIAL RISK MANAGEMENT POLICIES

The Group's activities expose it to a variety of financial risks and these include market risk, credit risk and liquidity risk. To mitigate these risks, the Group operates within defined policies and guidelines as approved by the Board.

The information on the forward foreign currency exchange contracts that remained outstanding at 30 September 2018 is set out in Note A7.

The carrying amounts of monetary assets and monetary liabilities denominated in currencies other than Ringgit Malaysia were as follows:

Profit attributable to equity holders of the Company	9,117	10,802	(1,685)	(15.6)

Crude oil prices continued to strengthen on the back of supply concerns, trading within a range of US\$70 to US\$80 per barrel as compared to around US\$50 per barrel a year ago.

Given the firmer oil price, the demand for services and oil and gas assets from upstream oil and gas contractors gathered momentum with roll-outs of local contracts especially on maintenance and services related jobs. Nevertheless, despite the rise in oil price, spending budgets remained tight depressing margins.

In the current quarter, the Group posted an increase in revenue of RM7.7 million against the corresponding quarter on the back of new revenue generated from the Maintenance, Construction and Modification ("MCM") project alongside a higher revenue contribution from Oilfield Services segment but offset by the softer revenue from Power and Machinery segment. Notwithstanding a higher revenue recorded, the Group's profit attributable to equity holders of the Company declined by RM1.7 million as a result of lower operating results from all reportable segments and unfavourable foreign exchange movement on MYR against USD which resulted in a net loss of RM1.1 million against a net gain of RM0.4 million in the corresponding quarter.

Share of results of joint venture was contributed from the overhaul and repairs of gas turbines.

Share of results of associates were higher by RM1.5 million mainly that the corresponding quarterly result was affected by the impairment charge on assets of Malaysia Mud and Chemicals Sdn. Bhd. ("2MC") in which our share was RM1.0 million.

(A) Performance of the current quarter against the corresponding quarter (Cont'd)

	Q3'18 RM'000	Q3'17 RM'000	Variance RM'000	Variance %
<u>Power and Machinery</u>

Profit before tax	9,960	13,162	(3,202)	(24.3)

The Power and Machinery segment's revenue contracted by RM32.3 million against the corresponding quarter affected mainly by softer demand for valves and flow regulators and a lower volume of turbine related work orders for exchange engines and ancillary parts and services, offset by higher orders for retrofit projects.

The segment result was lower by RM3.2 million impacted by the lower revenue reported and unfavourable foreign exchange movement in which a net foreign exchange loss of RM1.0 million was recorded in the current quarter compared with a net foreign exchange gain of RM0.3 million in the corresponding quarter.

	Q3'18 RM'000	Q3'17 RM'000	Variance RM'000	Variance %
<u>Oilfield Services</u>				
Revenue	35,333	32,882	2,451	7.5

Profit before tax	3,577	5,451	(1,874)	(34.4)

The Oilfield Services segment revenue grew by RM2.5 million to RM35.3 million compared against the corresponding quarter of RM32.9 million mainly attributable to the higher revenue from slickline services of RM5.0 million offset by lower work orders from wellhead maintenance activities of RM1.7 million and lower sales on oilfield chemicals of RM0.7 million.

Notwithstanding the higher revenue earned in the current period, the segment result retreated by RM1.9 million due to downward pressure on margins but mitigated by reduced finance costs due to lower borrowings.

Profit before tax	175	1,768	(1,593)	(90.1)

The Integrated Corrosion Solution segment revenue lifted by RM37.5 million compared to the corresponding quarter revenue of RM12.0 million due to the additional revenue generated from the MCM services contract but offset by the reduced contribution from Pan Malaysia Blasting Contract which expired in November 2017. Whilst the MCM contract generated top line revenue, the segment result contracted by RM1.6 million due to loss of RM1.0 million attributed to operating costs of the sponge jet blasting business in anticipation of securing fresh contracts, mitigated by a profit of RM1.2 million arising from the MCM contract.

Profit after tax	22,028	23,443	(1,415)	(6.0)
Profit attributable to equity holders of the Company	19,692	18,819	873	4.6

The Group's profit attributable to equity holders of the Company increased by RM0.9 million supported by higher results from both Power and Machinery and Oilfield Services segments coupled with a favorable foreign exchange movement of which a lower net foreign exchange loss of RM0.4 million was reported as opposed to a loss of RM5.6 million in the corresponding period. This was offset by the lower results registered by Integrated Corrosion Solution segment and higher tax charge following the completion of the tax review by the tax authorities as disclosed in Note B5.

Share of results of joint venture was contributed from the overhaul and repairs of gas turbines.

Share of results of associates were higher by RM1.6 million. The lower share of results of associates in the corresponding period was affected by an impairment change on 2MC's operating assets.

B1. PERFORMANCE REVIEW (Cont'd)

(B) Performance of the current year-to-date against the corresponding year-to-date (Cont'd)

	Cumulative quarters ended		Variance RM'000	Variance %
	Q3'18 RM'000	Q3'17 RM'000		
<u>Power and Machinery</u>				
Revenue	234,985	245,607	(10,622)	(4.3)

Profit before interest and tax	24,462	22,535	1,927	8.6
Profit before tax	26,215	23,826	2,389	10.0

The Power and Machinery segment revenue was lower by RM10.6 million as compared to the corresponding period due to weak work orders for turbine parts, repairs, maintenance, valve and flow regulators mitigated by higher work orders for exchange engines and commission earned on oil and gas projects.

Despite lower revenue reported, the segment result improved by RM2.4 million as a result of lower net foreign exchange loss in the current period of RM0.4 million compared to RM5.9 million in the corresponding period.

	Cumulative quarters ended		Variance RM'000	Variance %
	Q3'18 RM'000	Q3'17 RM'000

Profit before interest and tax	15,625	13,344	2,281	17.1
Profit before tax	13,984	10,594	3,390	32.0

The Oilfield Services segment revenue was better by RM5.4 million against the corresponding period driven by the higher revenue contribution from slickline activities offset by lower work orders on well intervention and enhancement services and oilfield chemicals.

The segment results was lifted by RM3.4 million in tandem with the higher revenue reported in the current period coupled with the reduction in finance costs.

(Loss)/Profit before tax	(6,379)	2,658	(9,037)	(340.0)

The Integrated Corrosion Solution segment revenue of RM94.0 million recorded in the current period compares favourably with the revenue of RM29.7 million in the comparative period. The increase was driven primarily from the newly secured MCM contract.

Notwithstanding the increase in top line metric, the segment incurred a pre-tax loss of RM6.4 million compared with a profit of RM2.7 million in the corresponding period. The asymmetry was due to costs attributed to maintaining the sponge jet blasting business in anticipation of securing fresh contracts under bidding. As noted in A13(i) the segment secured two new contracts in the Quarter.

(C) Consolidated Statement of Financial Position

Group total assets as at 30 September 2018 stood at RM609.2 million against RM609.7 million at the end of the previous financial year, representing a decline of RM0.5 million. This was mainly due to the lower holdings on cash and bank balances by RM41.6 million and lower carrying value of fixed assets, offset by an increase in contract assets by RM38.2 million and trade and other receivables by RM9.9 million.

Meanwhile, Group total liabilities declined by RM3.4 million mainly due to net repayment made on borrowings of RM13.9 million and lower contract liabilities of RM1.4 million offset by the higher trade and other payables of RM11.4 million.

(D) Consolidated Statement of Cash Flows

The Group's cash and bank balances was lower at RM99.8 million compared with RM141.4 million as at 31 December 2017. The change was due to net cash used in operations of RM4.3 million mainly on account of higher working capital requirements, net repayment on borrowings of RM13.9 million and dividends paid totalling RM19.5 million.

B3. PROSPECTS

Crude oil prices remained firm advancing on the back of supply concerns. This development led to a noticeable increase in activity levels by customers which impacted the Group's top line. However, downward pressures on margins continue to be an ongoing challenge on the Group's financial performance as attributable earnings remain flat year on year.

With these developments in mind, the Group continues to concentrate on meeting its mission of long term sustainability and resilience by enhancing capabilities across all business segments and where appropriate in conjunction with synergistic alliances, alongside strong project execution and rigorous budget management.

The Power and Machinery segment continues to focus its efforts in supporting its customers by providing excellent after sales services to the installed turbine base and working with customers to provide cost effective solutions. It is at the same time looking into further opportunities to expand the provision of project management and installation services for gas turbines, retrofits and refurbishments regionally. With the anticipated increase in activity levels and improved trading conditions, the segment is expected to contribute positively for the remainder of the financial year.

The Oilfield Services segment focuses primarily on upstream activities in the sub-surface sector in particular the provision of slickline services and equipment. This activity is expected to contribute positively to the segment's revenue in 2018. However, this business is underpinned by the Pan Malaysian Slickline Contracts with expiry in third quarter 2018 and first quarter 2019. The segment has successfully secured a new slickline contract as disclosed in note A13, whilst waiting for the bidding outcome from other customers. The Board is cautiously optimistic on the outcome of these bidding exercises as the segment is currently a market leader in the provision of slickline services. Nevertheless, downside risks remain as these biddings are highly price sensitive.

The Integrated Corrosion Solution segment booked higher revenues in the year to date primarily driven by work orders flowing from the MCM contract which commenced operations this financial year. However, the segment suffered a loss in the year to date in part due to the on-going operating costs of the sponge jet blasting business. The segment performed better in the current quarter and reported a marginal profit. With the work orders in hand and together with the recently secured contracts as disclosed in note A13, the segment is expected to make a positive contribution to the Group earnings for the remainder of this financial year.

TOSB was a wholly owned subsidiary of the Group. It was incorporated in Malaysia and its main activities included the provision of gas turbine overhaul and maintenance services. In March 2015, the Group entered into a Subscription Agreement with STICO, which resulted in the Group having an equity interest of 80.55%. However, both parties approval on relevant activities is required as stated in the Subscription Agreement. Accordingly, under current accounting rules and in the opinion of the Directors, TOSB is regarded as a material joint venture and its results and net assets are accounted under the equity method of accounting.

The capital of TOSB consists of ordinary shares and redeemable convertible preference shares. It is a private company and there is no readily available quoted market price available for its shares.
