B13. Comparatives

During the year, the Group adopted MFRS 9, *Financial Instruments* and MFRS15, *Revenue from Contracts with Customers* on their financial statements. The Group generally applied the requirements of these accounting standards retrospectively with practical expedients and transitional exemptions as allowed by the standards. Nevertheless, as permitted by MFRS 9, the Group has elected not to restate the comparatives.

(a) Effect of adopting MFRS 9

MFRS 9 replaces the “incurred loss” model in MFRS 139 with a forward-looking “expected credit loss” (“ECL”) model. This requires considerable judgement about how changes in economic factors affect ECLs, which is determined on a probability-weighted basis. Under MFRS 9, credit losses are recognised earlier than under MFRS 139.

The new impairment model is applied to financial assets measured at amortised cost and contract assets.

The Group measure loss allowances at an amount equal to lifetime expected credit loss, except for debt securities that are determined to have low credit risk at the reporting date, cash and bank balance and other debt securities for which credit risk has not increased significantly since initial recognition, which are measured at 12-month expected credit loss. Loss allowances for trade receivables, contract assets and lease receivables are always measured at an amount equal to the lifetime expected credit loss.

(b) Effect of adopting MFRS 15

MFRS 15 replaces the guidance in MFRS 111, *Construction Contracts*, MFRS 118, *Revenue*, IC Interpretation 13, *Customer Loyalty Programmes*, IC Interpretation 15, *Agreements for Construction of Real Estate*, IC Interpretation 18, *Transfers of Assets from Customers* and IC Interpretation 131, *Revenue - Barter Transactions Involving Advertising Services*.

The core principle of MFRS 15 is that an entity should recognise revenue which depicts the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

Under MFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

The contracts with customers of certain subsidiaries contain multiple performance obligations in the context of MFRS 15. The timing of revenue recognition for respective performance obligations has been changed in accordance with the recognition criteria set out in MFRS 15.
