BRIGHT PACKAGING INDUSTRY BERHAD
QUARTERLY REPORT
FOR THE FOURTH QUARTER ENDED 31 AUGUST 2023

1. NOTES TO THE INTERIM FINANCIAL STATEMENTS

1.01 Basis of Preparation

These interim financial statements have been prepared in accordance with Malaysian Financial Reporting Standard (“MFRS”) 134 *Interim Financial Reporting* issued by Malaysian Accounting Standards Board (“MASB”) and Paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

This interim financial report should be read in conjunction with the audited financial statements for the financial year ended 31 August 2022.

1.02 Changes in Accounting Policies

(a) Statement of compliance

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRSs”), International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia.

Standards issued but not yet effective

The Group and the Company have not applied the following new MFRSs, new interpretation and amendments to MFRSs that have been issued by the MASB but are not yet effective for the Group and the Company:

		Effective dates for financial periods <u>beginning on or after</u> 1 January 2019
MFRS 16	Leases	

The initial application of the MFRSs, Amendments to MFRSs, Annual Improvements to MFRSs and IC Interpretations are not expected to have any significant impacts on the financial statements of the Group and of the Company except as mentioned below:

MFRS 16 Leases

MFRS 16, which upon the effective date will supersede MFRS 117 Leases, introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Specifically, under MFRS 16, a lessee is required to recognise a right-of-use asset representing its right to use the underlying leased asset and a lease liability representing its obligation to make lease payments. Accordingly, a lessee should recognise depreciation of the right-of-use asset and interest on the lease liability, and also classifies cash repayments of the lease liability into a principal portion and an interest portion and presents them in the statement of cash flows. Also, the right-of-use asset and the lease liability are initially measured on a present value basis. The measurement includes non-cancellable lease payments and also includes payments to be made in optional periods if the lessee is reasonably certain to exercise an option to extend the lease, or not to exercise an option to terminate the lease. This accounting treatment is significantly different from the lessee accounting for leases that are classified as operating leases under the predecessor standard, MFRS 117.

In respect of the lessor accounting, MFRS 16 substantially carries forward the lessor accounting requirements in MFRS 117. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and to account for those two types of leases differently.

The Group and the Company do not expect the application of MFRS 16 to have a significant effect on its consolidated financial statements.
