14 Fair Value of Financial Instruments

The Group uses the following hierarchy for determining the fair value of all financial instruments carried at fair value:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

As at 31 December 2017, the Group's financial instruments measured and recognised at fair value on a recurring basis are as follows:

	Level 1 RM'000	Level 2 RM'000	Level 3 RM'000	Total RM'000
<u>Financial assets</u>				
Investment securities	3,223	-	-	3,223

Derivative assets	-	10,752	-	10,752
	<u>84,941</u>	<u>10,752</u>	<u>-</u>	<u>95,693</u>

The methods and valuation techniques used for the purpose of measuring fair value are unchanged compared with the last financial year ended 30 June 2017.

15 Detailed Analysis of Performance

The Group recorded RM44.3 million of revenue in the current quarter ended 31 December 2017 (2Q2018), which was lower than the RM48.1 million and RM58.4 million reported in last quarter (1Q2018) and last year corresponding quarter (2Q2017), a decrease of 8% and 24%, respectively.

Shipbuilding and Shiprepair Division

The revenue generated from this division in 2Q2018 stood at RM8.1 million, eased by RM2.7 million (or 25%) from RM10.8 million recorded in 1Q2018 and by RM11.2 million (or 58%) from RM19.3 million in 2Q2017. Only 1 unit of vessel was delivered in the current quarter (1Q2018: 1 unit; 2Q2017: 1 unit).

The division incurred a greater loss margin before tax of 226% (RM18.4 million in loss) in 2Q2018, as compared to the 123% (RM13.3 million in loss) and 44% (RM8.5 million in loss) posted in 1Q2018 and 2Q2017, respectively. The poorer performance recorded in this quarter was mainly attributed to the higher loss on foreign exchange on the account of depreciation of USD against RM in 2Q2018.

COASTAL CONTRACTS BHD (Company No. 517649-A)

Vessel Chartering Division

The division registered a slightly lower revenue of RM36.2 million in 2Q2018, a quarter-on-quarter decrease of 3% from RM37.3 million. Year-on-year, revenue was drop by 7% from RM39.1 million as a result of the expiration of certain vessel charter contracts.

The division achieved a higher profit margin before tax of 63% (RM22.7 million) in 2Q2018 as compared to the 56% (RM20.9 million) and 45% (RM17.6 million) reported in 1Q2018 and 2Q2017, respectively. The improved performance was mainly attributed to higher income generation in relation to the charter of JUGCSU as well as gain on disposal of a used vessel.

- (a) Currency translation differences arising from consolidation were a result of exchange differences arising on the translation of the financial statements of foreign operations.
- (b) Included in inventories of the Group were finished goods of RM106.5 million (30 June 2017: RM129.7 million) and vessels work-in-progress of RM675.1 million (30 June 2017: RM715.4 million). For the current quarter under review and financial year-to-date, there were no provisions made for obsolete or slow-moving inventories or work-in-progress write-off.
- (c) Included in other receivables of the Group were payments made to suppliers and contractors totalling RM214.8 million (30 June 2017: RM227.8 million) to secure the supply of input materials, equipment and services intended for the Group's rolling vessel building programme.
- (d) Included in other payables were advance payments received from vessel buyers totalling RM34.6 million (30 June 2017: RM40.6 million).

16 Material Change in Profit Before Tax

The Group made a RM4.3 million of profit before tax in 2Q2018, which was 43% lower compared to the RM7.6 million achieved in 1Q2018. Against 2Q2017, profit before tax was down by 53% from RM9.1 million. The poorer performance in 2Q2018 was principally due to net loss from foreign exchange on account of the weakened USD.

17 Prospects

Roiled by global economic turmoil, rampant oil supply and weak global oil demand have translated into the sensational drop in oil prices and increased flow of Iranian oil has further worsened the glut. However, the Management believes that low oil prices environment is not sustainable and key industry players foresee a more positive outlook in the longer term where oil prices are expected to pick up from 2018 to 2020, making it essential for the OSV market to gear up for this recovery and hence, the OSV market is expected to stay firm in the long term.

Additionally, given the scarcely substitutable nature of oil and natural gas, Coastal Group envisages the medium to long term fundamentals of Oil and Gas industry to remain positive. In accommodating sustaining demand for fossil fuels in the medium to long term, Enhanced Oil Recovery (EOR) technology has been practised immensely since the past few years to ensure optimum exploitation of oil resources. With the Jack-up Gas Compression Service Unit charter contract secured by the Group, which is currently in operation, the Group is able to effectively leverage its competitive advantage and strong foothold in this sector with promising prospects. Coastal Group is determined to build up its expertise and global network in this market to procure opportunities ahead.

Coastal Group remains optimistic toward surviving the transition by venturing into the Oil and Gas downstream sector and moving further up the value chain in terms of technology, technical knowledge and expertise in the downstream sector. Moving forward, the Group will maintain its diversified portfolio and sharpen its focus on the Oil and Gas downstream sector in pursuit of growth while enhancing its long term sustainability.

The extension of timeframe is not subject to the approval of any regulatory authorities in Malaysia or the shareholders of the Company. In addition, none of the Directors of the Company, substantial shareholders and persons connected to them, have any interest, direct or indirect, in the extension of timeframe.

24 Material Litigation

- (a) On 9 October 2015, the Company's wholly-owned subsidiary, Thamas Marine Ltd ("TM"), a party to a shipbuilding contract ("SBC") with Yantai CIMC Raffles Offshore Limited ("Builder") and Dynamic Driller Limited ("Co-Builder"), has filed a Notice of Arbitration with the Singapore International Arbitration Centre against the Builder and Co-Builder to refer certain disputes to arbitration, thereby commencing arbitration proceedings against the same. The arbitration proceedings were commenced following disputes resulting from 1) the late delivery of 1 unit brand new JU 2000E F&G Design Jack-Up Drilling Rig ("Vessel") by the Builder and Co-Builder to TM, and 2) the non-conformities of the Vessel's parts and equipment against the Technical Specifications as agreed between the Parties. TM claims from the Builder and Co-Builder the liquidated damages of USD3,650,000 for the 73-days delay after the Cancellation Date in accordance to the terms and conditions of the SBC and USD2,000,000 being the damages incurred by TM as a result of the non-conformities of the Vessel's parts and equipment, specifically with regard to the Vessel's generators and cranes. TM is, as a result, claiming for the sum USD5,650,000 and applicable interest, any other damages as the arbitration tribunal deems fit and the costs of the arbitration. TM has on 4 March 2016 filed its Statement of Claim.

Subsequently on 11 April 2016, TM received the Statement of Defence and Counterclaim from the Builder and Co-Builder (collectively referred to as "the Respondents"). The Respondents are counter-claiming from TM 1) the sum of approximately USD2,516,843.43 arising from alleged Change Proposals and/or additional work carried out by the Respondents; 2) a declaration that TM is in breach of its obligation and/or duty of confidentiality arising from disclosures made to its parent company relating to the arbitration proceedings, and for damages payable to the Respondents for such alleged breach; 3) a declaration that TM has improperly, illegally and/or bad faith procured, induced, encouraged, abetted and/or conspired with one of the Respondents' former employees to leave the Respondents' employ and enter into a subsequent contract of employment with TM, and damages to be assessed for such alleged improper, illegal and/or bad faith conduct; 4) interest as applicable; and 5) such further and/or other relief or remedies as the Tribunal may deem fit and proper. TM has then on 25 April 2016 filed its Statement of Reply and Defence to Counterclaim to the Statement of Defence and Counterclaim from the Respondents.

- (b) In August 2016, one of the Group's subsidiary ("Subsidiary") was served with a notice of arbitration from one of its supplier for an alleged wrongful termination of a shipbuilding contract for the construction and sale of a vessel ("Vessel").

In July 2016, the Subsidiary terminated the shipbuilding contract with its suppliers for the failure to deliver the Vessel on time and in accordance with the terms and conditions of the shipbuilding contract.

Further to the Subsidiary's termination of the shipbuilding contract, the Subsidiary has also written to its suppliers for:

- (i) The refund of all sums paid to the suppliers under the shipbuilding contract; and
- (ii) The payment of liquidated damages in accordance with the terms and conditions of the shipbuilding contract.

The suppliers have not quantified their claim under Notice of Arbitration until after the Subsidiary has filed its Response to the Notice of Arbitration (and Counter-claim). The suppliers' current and provisional quantification of their claim is at USD37,400,000. This value directly reflects the Subsidiary's Counter-claim against the suppliers in its Response to the Notice of Arbitration.

As far as the Group is aware, there is no further material development on the arbitration proceedings.

The Group is not engaged in other material litigation and is not aware of any proceedings which may materially affect the position or business of the Group as at 27 February 2018.

COASTAL CONTRACTS BHD (Company No. 517649-A)

25 Dividend Payable

No interim dividend has been declared for the current quarter ended 31 December 2017.

26 (Loss) / Earnings Per Share

Basic (loss) / earnings per share attributable to owners of the Company

Basic (loss) / earnings per share of the Group was calculated by dividing the (loss) / profit for the period attributable to owners of the Company by the weighted average number of ordinary shares in issue during the period excluding treasury shares held by the Company.

	Individual 3 months ended 31 December 2017	Cumulative 6 months ended 31 December 2017
<i>Basic (loss) / earnings per share</i>		
(Loss) / profit attributable to owners of the Company (RM'000)	(494)	2,780
Weighted average number of ordinary shares in issue ('000)	527,403	527,403
Basic (loss) / earnings per share (sen)	(0.09)	0.53

Diluted (loss) / earnings per share attributable to owners of the Company

For diluted (loss) / earnings per share calculation, the weighted average number of ordinary shares in issue was adjusted to assume that the maximum number of new ordinary shares have been issued pursuant to the share options granted under the Employees' Share Option Scheme ("ESOS"). The dilutive portion of the ordinary shares deemed issued pursuant to the ESOS are accounted for in the diluted earnings per share calculation. The ESOS will have a dilutive effect only when the average market price of ordinary shares of the Company during the period exceeds the exercise price of the options granted. As the average market price of ordinary shares during the period (RM1.27) was lower than the exercise price of the options (RM1.40), the options were not assumed to be exercised because they were antidilutive in the period.

As at the end of the quarter, there was only one class of shares in issue and they ranked pari passu among each other.
