**UNAUDITED INTERIM FINANCIAL REPORT
FOR THE YEAR ENDED 31 DECEMBER 2018**

PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134

A1. BASIS OF PREPARATION

The unaudited interim financial report has been prepared in accordance with the reporting requirements as set out in Malaysian Financial Reporting Standards No.134 – “Interim Financial Reporting”, paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad and the requirements of the Companies Act 2016 in Malaysia, where applicable.

The unaudited interim financial report should be read in conjunction with the audited financial statements for the financial year ended 31 December 2017 and the attached explanatory notes. These explanatory notes provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2017.

The significant accounting policies and methods of computation applied in the unaudited interim financial report are consistent with those adopted in the most recent annual financial statements for the financial year ended 31 December 2017 except for the newly issued Malaysian Financial Reporting Standards (“MFRS”), IC Interpretations and amendments to published standards which is to be applied by all Entities Other Than Private Entities that is effective for the financial periods beginning on or after 1 January 2018.

The new standards, amendments to published standards and IC Interpretation effective for financial year beginning on 1 January 2018 that are applicable and adopted by the Group as follows:

MFRS 9	Financial Instruments
MFRS 15	Revenue from Contracts with Customers
Amendments to MFRS 2	Classification and Measurement of Share-based Payment Transactions
Amendments to MFRS 140	Transfer of Investment Property
IC Interpretation 22	Foreign Currency Transactions and Advance Consideration
Annual Improvements to MFRS 2014 – 2016 cycle	Amendments to MFRS 1 First-time Adoption of Malaysian Financial Reporting Standards and Amendments to MFRS 128 Investment in Associates and Joint Ventures

The adoption of the above new accounting standards, amendment to published standards and IC Interpretation did not have any material impact to the Group for the financial year ended 31 December 2018 upon their initial application. The Group has adopted these standards retrospectively from 1 January 2018, with the practical expedients as permitted under the relevant standards.

PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134 (Cont'd)

A1. BASIS OF PREPARATION (Cont'd)

The above adoption will also result in a change in the accounting policies to the Group with the changes arising from these adoptions are as described below:

MFRS 9 Financial Instruments

MFRS 9 retains but simplifies the measurement categories on financial instruments with the basis of classification for financial assets depending upon the entity's business model and the cash flow characteristics of the financial assets, a substantially-reformed model for hedge accounting that improved the alignment of the accounting treatment with risk management activities and introduces a new requirement on impairment.

The Group's existing accounting policy on classification and measurement of financial instruments is consistent with those requirements under the newly adopted MFRS 9 while no hedging accounting is applied by the Group to-date with its derivative financial instruments are recognised and measured on fair value through profit or loss.

On impairment, the standard requires impairment on financial instruments to be assessed under the expected credit loss ("ECL") model replacing the incurred loss model used in MFRS 139 effectively eliminating the need for a trigger event to have occurred before credit losses are recognised. The Group applies a simplified approach as permitted under MFRS 9 to measure the ECL which uses a lifetime expected credit loss allowance on its billed sales ("trade receivables") and unbilled sales, which is presented as part of "contract assets".

To measure the ECL which uses a lifetime expected credit loss allowance on the Group's trade receivables, deposits and contract assets, the Group uses a provision matrix which is initially measured based on the Group's historical observed default rate. The Group will calibrate the provision matrix to adjust for the historical credit loss experience with forward looking information which includes the credit risk profile of each customer for each entity that is built on factors among others the creditworthiness of the customer, credit histories of past payment trends and patterns, past due aging bracket of the debt and forward looking estimates based on prevailing economic conditions on where the Group operates as at the reporting date.

On the date of initial application, MFRS 9 did not affect the classification and measurement on the financial assets and financial liabilities. The impact on the application of the ECL model on receivables, deposits and contract assets of the Group is not material and thus, the incremental impact along with the current impairment provisions were charged out in the Consolidated Statement of Comprehensive Income during the current financial year with the aggregated impact on the application of the ECL model on receivables, deposits and contract assets of the Group.

While cash and cash equivalents are also subject to the impairment requirements of MFRS 9, the identified impairment loss was immaterial.

The adoption of MFRS 9 is applied retrospectively from 1 January 2018, with practical expedients permitted under the standard. Comparatives for 2017 will not be restated.

FOR THE YEAR ENDED 31 DECEMBER 2018**

PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134 (Cont'd)

A1. BASIS OF PREPARATION (Cont'd)

MFRS 15 Revenue from Contracts with Customers

MFRS 15 introduces a single comprehensive revenue recognition model which establishes the principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers focusing on the identification and satisfaction of the performance obligations.

The core principle in MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods and services to customers for an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Revenue is recognised when a customer obtains control of goods or services, i.e. when the customer has the ability to direct the use of and obtain the benefits from the goods or services moving from the transfer of risks and rewards principles.

On the date of initial application of MFRS 15, the Group has identified the following areas that were affected as follows:

- The initial application of MFRS 15 on the new guidance on revenue recognition did not have a material impact on the method and timing of the Group's revenue recognition; and
- Assets recorded in the Consolidated Statement of Financial Position as "Accrued Revenue" and "Retention Sum" as at 31 December 2017 that were included in "Trade and Other Receivables" and "Deferred Costs" were reclassified as "Contract Assets". "Deferred Revenue" were reclassified as "Contract Liabilities". Accordingly, the above items were reclassified in the Consolidated Statement of Cash Flows (Note B17).

The initial application of MFRS 15 did not have any material impact to the Group other than as noted in the paragraph above.

The adoption of MFRS 15 is applied using a modified retrospective approach. The impact of the adoption of MFRS 15 is shown in Note B17.

FOR THE YEAR ENDED 31 DECEMBER 2018**

PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134 (Cont'd)

A1. BASIS OF PREPARATION (Cont'd)

The Group has not early adopted the following accounting standards, IC interpretation and amendments to published standards that have been issued by the Malaysian Accounting Standards Board ("MASB") as these are effective for the financial year beginning on or after 1 January 2019 or where the effective date has been deferred to a date to be determined by the MASB is as follows:

MFRS 16	Leases (effective 1 January 2019)
Amendments to MFRS 9	Prepayment Features with Negative Compensation (effective 1 January 2019)
Amendments to MFRS 128	Long-term Interests in Associates and Joint Ventures (effective 1 January 2019)
IC Interpretation 23	Uncertainty over Income Tax Treatments (effective 1 January 2019)
Annual Improvements to MFRS Standards 2015 – 2017 cycle	Amendments to MFRS 3 Business Combinations, Amendments to MFRS 11 Joint Arrangements, Amendments to MFRS 112 Income Taxes, Amendments to MFRS 123 Borrowing Costs (effective 1 January 2019)
Amendments to MFRS 119	Plan Amendment, Curtailment or Settlement (effective 1 January 2019)
Amendments to MFRS 101 and MFRS 108	Definition of Material (effective 1 January 2020)
Amendments to MFRS 10 and MFRS 128	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (effective date is deferred to a date to be determined by MASB)

The initial application of the aforementioned accounting standards, amendments to published standards and IC Interpretation are not expected to have any material impact to the financial statements of the Group except as mentioned below:

MFRS 16 Leases

Under MFRS 16, a lease is a contract (or part of a contract) that conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

MFRS 16 eliminates the classification of leases by the lessee as either finance leases (on balance sheet) or operating leases (off balance sheet). MFRS 16 requires a lessee to recognise a "right-of-use" of the underlying asset and a lease liability reflecting future lease payments for most leases.

The right-of-use asset is depreciated in accordance with the principle in MFRS 116 "Property, Plant and Equipment" and the lease liability is accreted over time with interest expense recognised in profit or loss.

For lessors, MFRS 16 retains most of the requirements in MFRS 117. Lessors continue to classify all leases as either operating leases or finance leases and account for them differently.

The Group is currently assessing the impact of MFRS 16 upon adopting MFRS 16 on 1 January 2019.

FOR THE YEAR ENDED 31 DECEMBER 2018**

PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134 (Cont'd)

A2. COMMENTS ABOUT SEASONAL OR CYCLICAL FACTORS

The Group's operations are not affected by any significant seasonal or cyclical factors in the financial year under review. It should be noted that the Group operates predominantly in the oil and gas sector in Malaysia. Accordingly, the level of the Group's business activities is closely co-related with that of the oil and gas operators and contractors in Malaysia. Any significant change in their level of activities will likewise have an impact on the Group.

A3. UNUSUAL ITEMS DUE TO THEIR NATURE, SIZE, OR INCIDENCE

There were no significant unusual items affecting the assets, liabilities, equity, net income or cash flows during the financial year other than the high tax expense and tax penalty incurred due to the additional taxes raised by the tax authority for prior years of assessment from 2010 to 2015 on the Company following the completion of a tax review as disclosed in Note B5.

A4. SIGNIFICANT ESTIMATES AND CHANGES IN ESTIMATES

There were no material changes to estimates that have had any material effect on the financial results.

A5. EQUITY AND DEBT SECURITIES

On 12 March 2018, the Company issued and listed 297,200 ordinary shares in the Company at an issuance price of RM1.567 per share to eligible employees under the Third Tranche of the First Grant under Restricted Share Incentive Plan of the Group's Long Term Incentive Plan ("LTIP").

On 30 March 2018, the Company issued and listed 450,100 ordinary shares in the Company at an issuance price of RM1.100 per share to eligible employees under the Second Tranche of the Second Grant under Restricted Share Incentive Plan of the Group's LTIP.

In the current quarter, the Group posted an increase in revenue of RM30.6 million against the corresponding quarter riding on the back of higher revenue contributions across all reportable segments with strong revenue growth booked by Integrated Corrosion Solution segment mainly from its Maintenance, Construction and Modification ("MCM") project.

Notwithstanding the higher revenue reported, the Group's profit attributable to equity holders of the Company declined by RM6.0 million as a result of lower operating results from all reportable segments with weaker margins earned.

Share of results of joint venture was contributed from the overhaul and repairs of gas turbines.

Share of results of associates were higher by RM1.0 million. Share of results in the corresponding quarter was affected by the impairment charge on assets of Malaysia Mud and Chemicals Sdn. Bhd. ("2MC") in which our share was RM1.9 million.

Profit before tax	9,826	15,283	(5,457)	(35.7)

The Power and Machinery segment's revenue grew by RM6.4 million to RM125.2 million compared against the corresponding quarter of RM118.8 million mainly driven by stronger work orders for exchange engines, increase in revenue contribution from retrofit projects and higher commission income earned on oil and gas projects. The increase was offset by the lower demand for valves and flow regulators, turbine parts, repair and maintenance and other ancillary services.

Notwithstanding the higher revenue earned, the segment result contracted by RM5.5 million impacted by the unfavourable change in sales compositions of the Power and Machinery products and services weighing down on the results of the current reporting quarter.

(Loss)/Profit before tax	(122)	1,414	(1,536)	(108.6)

The Integrated Corrosion Solution segment registered revenue growth of RM24.2 million as compared to the corresponding quarter revenue of RM20.0 million as a result of the additional revenue generated from the MCM services contract offset by the lower sales generated from Pan Malaysia Blasting Contract which expired in November 2017.

Whilst the MCM contract contribute positively to the Group's top line revenue, the segment result declined by RM1.5 million suffering a loss of RM0.1 million attributed to the preparatory costs to service the new contracts awarded in September 2018 and mitigated by a net profit contribution of RM0.9 million arising from the MCM services contract. Work orders from the MCM contract started to flow from this financial year and there were a number of operational issues both within and without that management had to deal with and the net consequence is less than optimal utilisation of resources and costs escalations. These issues are being addressed internally and with our business partners to ensure seamless execution of work orders.

Power and Machinery segment revenue decreased by RM4.2 million as compared to the corresponding year as a result of weak work orders for turbine parts, repairs and maintenance services and valve and flow regulators activities mitigated by higher orders on exchange engines, retrofit projects and commission income earned on oil and gas projects. But segment result contracted by RM3.1 million due to the unfavourable sales mix but mitigated by the lower net foreign exchange losses recorded of RM0.4 million in the current year versus a net foreign exchange loss of RM5.5 million reported in the corresponding year.

Integrated Corrosion Solution segment revenue of RM138.2 million recorded in the current year compared favourably with the revenue of RM49.7 million in the corresponding year. The increase was driven by the MCM services contract offset by the reduced contribution from Pan Malaysia Blasting Contract which expired in November 2017.

Despite the increase in revenue, the segment incurred a pre-tax loss of RM6.5 million compared with a profit of RM4.1 million in the corresponding year. The asymmetry was due to legacy costs of the Sponge Jet blasting business and preparatory costs to service the newly awarded contracts.

(C) Consolidated Statement of Financial Position

Group total assets as at 31 December 2018 stood at RM660.4 million against RM607.4 million at the end of the previous financial year, representing an increase of RM53.0 million. This was mainly due to higher carrying value of contract assets by RM81.8 million offset by the decline in trade and other receivables by RM14.4 million, lower carrying value of non-current assets by RM7.6 million and lower holding of cash and bank balances by RM6.5 million.

Meanwhile, Group total liabilities increased by RM48.2 million mainly due to increase in trade payables by RM62.8 million and higher contract liabilities by RM4.5 million offset by net repayment of borrowings of RM12.9 million.

(D) Consolidated Statement of Cash Flows

The Group's cash and bank balances was lower at RM134.9 million compared with RM141.4 million as at 31 December 2017. The change was due to net repayment on borrowings of RM12.9 million, dividends paid totalling to RM25.5 million and RM24.7 million on acquisition of plant and equipment offset by net cash generated from operating activities of RM49.5 million and income received from investments of RM6.8 million.

B3. PROSPECTS

Crude oil prices continue to remain volatile in the last quarter of the financial year and dropped to US\$57 per barrel towards end of November 2018. Moving forward, oil prices are expected to remain volatile, against a backdrop of slower global growth and geo political concerns in the Middle East and Venezuela. However, in the markets in which the Group operates, chiefly Malaysia, oil and gas related activities is expected to remain stable as Petronas is committed to maintain current levels of production and development, and as noted elsewhere the Group had been successful in securing work contracts in the Oilfield Services and Integrated Corrosion Solution segments. However, the squeeze on prices continue unabated and coupled with the requirement to make further investments in plant and equipment, profit margins from these contracts are exposed to higher downside risks.

The Power and Machinery segment remains as the biggest contributor to the Group's revenue and operating profit. With a stable and sustainable business base, the segment will continue to focus its efforts in supporting its customers by providing excellent after sales services to the installed turbine base and working with our business partners to provide cost effective solutions.

The Oilfield Services segment focuses primarily on upstream activities in the sub-surface sector, in particular the provision of slickline services and equipment. The segment has successfully secured new slickline contracts with new and existing customers in 2018 as disclosed in note A13 and A14. With these development in the segment, the segment continues to be a market leader in the provision of slickline services.

The Integrated Corrosion Solution segment registered significant top line growth for the financial year primarily driven by work orders flowing from the MCM contract which commenced operations this financial year. However, the segment suffered a loss in the year to date in part, due to legacy costs relating to the Sponge Jet blasting business. With the work orders in hand and together with the recently secured contracts, the segment will concentrate on operational efficiencies and budget management to meet the desired outcomes.

TOSB was a wholly owned subsidiary of the Group. It was incorporated in Malaysia and its main activities included the provision of gas turbine overhaul and maintenance services. In March 2015, the Group entered into a Subscription Agreement with STICO, which resulted in the Group having an equity interest of 80.55%. However, both parties approval on relevant activities is required as stated in the Subscription Agreement. Accordingly, under current accounting rules and in the opinion of the Directors, TOSB is regarded as a material joint venture and its results and net assets are accounted under the equity method of accounting.

The capital of TOSB consists of ordinary shares and redeemable convertible preference shares. It is a private company and there is no readily available quoted market price available for its shares.
