\* *Amendments to References to the Conceptual Framework in MFRS Standards*

# *Amendments as to the consequence of effective of MFRS 17 Insurance Contracts*

The Group and the Company plan to adopt the above applicable new MFRSs, amendments/improvements to MFRSs, new IC Int and amendments to IC Int when they become effective. A brief discussion on the above significant new MFRSs, amendments/improvements to MFRSs, new IC Int and amendments to IC Int are summarised below.

**MFRS 16 Leases**

Currently under MFRS 117 *Leases*, leases are classified either as finance leases or operating leases. A lessee recognises on its statement of financial position assets and liabilities arising from the finance leases.

MFRS 16 eliminates the distinction between finance and operating leases for lessees. All leases will be brought onto its statement of financial position except for short-term and low value asset leases.

On initial adoption of MFRS 16, there may be impact on the accounting treatment for leases, which the Group as a lessee currently accounts for as operating leases. On adoption of this standard, the Group will be required to capitalise its rented premises and equipment on the statements of financial position by recognising them as “rights-of-use” assets and their corresponding lease liabilities for the present value of future lease payments.

**EXPLANATORY NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL  
STATEMENTS FOR THE THIRD QUARTER ENDED 31 MARCH 2020**

---

**1. BASIS OF PREPARATION (CONTINUED)**

The Group and the Company plan to adopt the above applicable new MFRSs, amendments/improvements to MFRSs, new IC Int and amendments to IC Int when they become effective. A brief discussion on the above significant new MFRSs, amendments/improvements to MFRSs, new IC Int and amendments to IC Int are summarised below (continued).

**MFRS 16 Leases (Continued)**

The Group and the Company plan to adopt this standard when it becomes effective in the financial year beginning 1 January 2019 by applying the transitional provisions and include the required additional disclosures in their financial statements of that year. The Group is likely electing the practical expedient not to reassess whether a contract contains a lease at the date of initial application. Accordingly, existing lease contracts that are still effective on 1 January 2019 will be accounted for as lease contracts under MFRS 16.

**MFRS 17 Insurance Contracts**

MFRS 17 introduces consistent accounting for all insurance contracts. MFRS 17 requires entities that issue insurance contracts to recognise and measure a group of insurance contracts at: (i) a risk-adjusted present value of future cash flows that incorporates information that is consistent with observable market information; plus (ii) an amount representing the unearned profit in the group of contracts. Profits from the group of insurance contracts are recognised over the insurance coverage period. In addition, insurance revenue is presented separately from insurance finance income or expenses.

For insurance contracts with coverage period of one year or less, MFRS 17 allows an entity to measure the amount relating to remaining service by allocating the premium over the coverage period. This standard is not applicable to the Group.

**Amendments to MFRS 3 Business Combination and MFRS 11 Joint Arrangements**

Amendments to MFRS 3 clarify that when an entity obtains control of a business that is a joint operation, it remeasures previously held interests in that business. Amendments to MFRS 11 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not remeasure previously held interests in that business.

**Amendments to MFRS 9 Financial Instruments**

Amendments to MFRS 9 allow companies to measure prepayable financial assets with negative compensation at amortised cost or at fair value through other comprehensive income if certain conditions are met.

The amendments also clarify that when a financial liability measured at amortised cost is modified without this resulting in derecognition, a gain or loss should be recognised in profit or loss.

**1. BASIS OF PREPARATION (CONTINUED)**

The Group and the Company plan to adopt the above applicable new MFRSs, amendments/improvements to MFRSs, new IC Int and amendments to IC Int when they become effective. A brief discussion on the above significant new MFRSs, amendments/improvements to MFRSs, new IC Int and amendments to IC Int are summarised below (continued).

**Amendments to MFRS 10 Consolidated Financial Statements and MFRS 128 Investments in Associates and Joint Ventures**

These amendments address an acknowledged inconsistency between the requirements in MFRS 10 and those in MFRS 128, in dealing with the sale or contribution of assets between an investor and its associate or joint venture.

The main consequence of the amendments is that a full gain or loss is recognised when a transaction involves a business, as defined in MFRS 3. A partial gain or loss is recognised when a transaction involves assets that do not constitute a business.

**Amendments to MFRS 112 Income Taxes**

Amendments to MFRS 112 clarify that an entity recognises the income tax consequences of dividends in profit or loss because income tax consequences of dividends are linked more directly to past transactions than to distributions to owners, except if the tax arises from a transaction which is a business combination or is recognised in other comprehensive income or directly in equity.

**Amendments to MFRS 119 Employee Benefits**

Amendments to MFRS 119 require an entity to use updated actuarial assumptions to determine current service cost and net interest for the remainder of the annual reporting period after the plan amendment, curtailment or settlement when the entity remeasures its net defined benefit liability (asset).

**Amendments to MFRS 123 Borrowing Costs**

Amendments to MFRS 123 clarify that when a qualifying asset is ready for its intended use or sale, an entity treats any outstanding borrowing made specifically to obtain that qualifying asset as part of general borrowings.

**Amendments to MFRS 128 Investments in Associates and Joint Ventures**

Amendments to MFRS 128 clarify that companies shall apply MFRS 9, including its impairment requirements, to account for long-term interests in an associate or joint venture that, in substance, form part of the net investment in the associate or joint to which the equity method is not applied.

**1. BASIS OF PREPARATION (CONTINUED)**

The Group and the Company plan to adopt the above applicable new MFRSs, amendments/improvements to MFRSs, new IC Int and amendments to IC Int when they become effective. A brief discussion on the above significant new MFRSs, amendments/improvements to MFRSs, new IC Int and amendments to IC Int are summarised below (continued).

**IC Int 23 Uncertainty over Income Tax Treatments**

IC Int 23 clarifies that where there is uncertainty over income tax treatments, an entity shall:

- (i) assume that a taxation authority will examine amounts it has a right to examine and have full knowledge of all related information when making those examinations.
- (ii) reflect the effect of uncertainty in determining the related tax position (using either the most likely amount or the expected value method) if it concludes it is not probable that the taxation authority will accept an uncertain tax treatment.

**Amendments to References to the Conceptual Framework in MFRS Standards**

The Malaysian Accounting Standards Board has issued a *revised Conceptual Framework for Financial Reporting* and amendments to fourteen Standards under the Malaysian Financial Reporting Standards Framework on 30 April 2018.

The revised Conceptual Framework comprises a comprehensive set of concepts of financial reporting. It is built on the previous version of the Conceptual Framework issued in 2011. The changes to the chapters on the objective of financial reporting and qualitative characteristics of useful financial information are limited, but with improved wordings to give more prominence to the importance of providing information need to assess management's stewardship of the entity's economic resources.

Other improvements of the revised Conceptual Framework include a new chapter on measurement, guidance on reporting financial performance, improved definitions and guidance – in particular the definition of a liability – and clarifications in important areas, such as the role of prudence and measurement uncertainty in financial reporting.

The amendments to the fourteen Standards are to update the references and quotations in these Standards which include MFRS 2, MFRS 3, MFRS 6, MFRS 14, MFRS 101, MFRS 108, MFRS 134, MFRS 137, MFRS 138, IC Int 12, IC Int 19, IC Int 20, IC Int 22 and IC Int 132.

**Amendments as to the consequence of effective of MFRS 17 Insurance Contracts**

The amendments to the nine Standards are a consequence of MFRS 17 with an effective date on or after 1 January 2021, which include MFRS 1, MFRS 5, MFRS 7, MFRS 15, MFRS 107, MFRS 116, MFRS 132, MFRS 136 and MFRS 140.

**14. PERFORMANCE REVIEW BY SEGMENTS (CONTINUED)**

**14.1 Facilities Division**

**Quarter on Quarter (“QoQ”)**

Revenue for Q3/FY20 amounted to RM40.6m, compared to RM48.7m in Q2/FY20. The decreased in revenue by RM8.1m/-16.6% was mainly attributable to lower CARP revenue recognition as well as lower recognition from commercial clients during the current quarter under review.

Arising from the above, the division’s PBT for Q3/FY20 decreased to RM2.4m from RM5.5m in Q2/FY20.

**Current quarter vs preceding year corresponding quarter**

The revenue for the current quarter Q3/FY20 was lower by RM1.6m/-3.8% against preceding year corresponding quarter Q3/FY19 which was attributable to lower CARP revenue recognition but mitigated with the replenishment of new contract under healthcare segments during current quarter under review.

Consequent to the above, the PBT had also decreased by RM1.6m/-40.6% in the current quarter Q3/FY20 against preceding year’s corresponding quarter Q3/FY19.

**14.2 Environment Division**

**QoQ**

The division’s revenue for the current quarter under review was marginally higher at RM14.8m compared to the immediate preceding quarter Q2/FY20, at RM14.4m largely due to continued slower than expected progress from projects

Nonetheless, the PBT had increased by RM2.5m/>100.0% i.e from RM0.4m in Q2/FY20 to RM2.9m in Q3/FY20 resulted from effective cost management during the quarter under review.

**Current quarter vs preceding year corresponding quarter**

The decrease in the revenue of RM3.0m/-16.9% for the current quarter under review Q3/FY20 against to preceding year corresponding quarter Q3/FY19 was attributable to continued slower than expected projects progress in Malaysia and Singapore during the quarter under review.

Consequent to the above, PBT of the division decreased by RM1.0m/-25.2% in Q3/FY20 against preceding year corresponding quarter Q3/FY19.

**14. PERFORMANCE REVIEW BY SEGMENTS (CONTINUED)**

**14.3 Engineering Division**

**QoQ**

Revenue for Q3/FY20 amounted to RM18.8m compared to RM16.6m in Q2/FY20, an increase of RM2.2m/13.3%. The increase was mainly attributable to projects progress of the plumbing segment as well as higher trading revenue from the Singapore division during current quarter under review.

The division recorded a PBT of RM0.6m in Q3/FY20 against LBT of RM3.5m in Q2/FY20, which was weighed down by the Aircond segment in the previous preceding quarter.

**Current quarter vs preceding year corresponding quarter**

Decrease in the revenue of RM3.7m/-16.3% in the current quarter Q3/FY20 against preceding year corresponding quarter Q3/FY19 was mainly attributable to lower contribution from the Aircond segment, partly mitigated by improved project progress of the Plumbing segment.

Arising from the above, the division recorded a PBT of RM0.6m in Q3/FY20 against PBT of RM1.5m in preceding year corresponding quarter Q3/FY19.

**14.4 Rail Division**

**QoQ**

Revenue for Q3/FY20 was RM1.7m compared to RM5.3m in Q2/FY20, a decrease of RM3.6m/-67.9% which was attributable to slower than expected project progress and rescheduling of deliveries during the current quarter under review.

Consequently, the division recorded a LBT of RM0.7m during the quarter under review compared to a PBT of RM0.6m in Q2/FY20, a decrease of RM1.3/->100%.

**Current quarter vs preceding year corresponding quarter**

Revenue decreased by RM11.6m/-86.9% from RM13.3m in Q3/FY19 to RM1.8m in Q3/FY20 due to slower than expected project progress and rescheduling of deliveries during the current quarter under review.

Arising from the above and further weighed down by lower margin, the division recorded a LBT of RM0.7m in Q3/FY20 against PBT of RM3.0m in Q3/FY19, a decrease of RM3.7m/->100%.

**15. COMMENTARY ON MATERIAL VARIATION IN REVENUE AND PROFIT BEFORE TAXATION AGAINST PRECEDING QUARTER**

	Current quarter ended 31 March 2020	Preceding quarter ended 31 December 2019	Variance (Adverse)/ Favorable
	RM'000	RM'000	RM'000
Revenue	<u>71,803</u>	<u>79,617</u>	<u>(7,814)</u>
Profit before taxation and zakat	<u>6,432</u>	<u>2,503</u>	<u>3,929</u>

On a QoQ basis, revenue decreased by RM7.8m/-9.8% mainly attributable to lower revenue recorded by facilities as well the rail division, as mentioned in the above.

Nonetheless, PBT for the quarter under review had increased by RM3.9m/>100% attributable to the effective operating cost management undertaken by Environment division as well as less adverse issues arising from the Aircond segment of the Engineering divisions as highlighted in the segmental analysis above.

**16. COMMENTARY ON PROSPECTS**

The Board is cautious of the Group's performance for the final quarter of the current financial year in view of the Covid19 pandemic that had afflicted the country resulting in the Government's implementation of a MCO (Movement Control Order) since 18 March 2020.

Projects undertaken by the Group's Engineering, Environment and Rail Divisions have had to comply and conform with the MCO with only the Facilities Division remaining operational. We are hopeful that projects will recommence smoothly under the CMCO (Conditional Movement Control Order). The Management has stepped up various cost realignment initiatives including but not limited to pay and hiring freeze until the situation returns to some level of normalcy. These initiatives along with the Group's robust orderbook and financial resources are expected to carry the Group through these challenging times.

**16. COMMENTARY ON PROSPECTS (CONTINUED)**

We set out below our analysis of prospects by Divisions:

**16.1 Facilities Division**

The Concession Agreement (CA) for the renewal of the maintenance concession for the Southern Region (Johor, Malacca, Negeri Sembilan) and Sarawak was signed in early March 2016. This contract is for 10 years, from 1.1.16 to 31.12.25. Initial rate p.a. is set at approximately RM52 mil for the first 5 years, with automatic increase to RM59m p.a. from year 6 to 10.

In addition, together with the new CA, we also signed a contract to undertake the Critical Asset Refurbishment Programme, or CARP, over the next seven years.

Under this contract, we are to undertake the CARP over various locations, and based on predetermined timing/schedules. Under this CARP we are to be paid RM140m over ten years (the renewed concession period), equaling approximately RM1.16m monthly.

These two contracts significantly improve the Group's long-term prospects. We expect positive contribution to our revenue and profit performance from our CARP contract over the next several years.

Also, we currently undertake certain maintenance contracts in the commercial and healthcare segments where these contracts are generally for two to five year periods. We expect these contracts to continue to contribute positively to our prospects.

During this period of Covid19, the Division remains operational as its services are gazetted as essential services. Additionally, the Division had signed on to distribute a range of reputable sanitizing equipment and materials which further enhances its offering of disinfection and sanitization services.

**16.2 Environment Division**

The Environment Division has contracts on hand that will tide it over for the next three financial years.

During this period of Covid19, projects undertaken in Malaysia and Singapore have had to comply and conform with the MCO and Circuit Breaker respectively. However, services and maintenance remain in operations as these are considered essential services. Projects in the Middle East are not as severely impacted since construction works are still progressing albeit on shortened work hours as allowable by the authorities there.

Prospects remain positive for this Division as we expect projects progress and recognition to recommence in due time.

STATEMENTS FOR THE THIRD QUARTER ENDED 31 MARCH 2020**

---

**16. COMMENTARY ON PROSPECTS (CONTINUED)**

**16.3 Engineering Division**

**Air conditioning segment**

As projects undertaken by this segment have largely entered into Defects Liability Period (DLP) with no new tender/project participations, we do not expect further material negative contributions from this segment moving forward. Additionally, the Management has streamlined and rationalized the operational cost structure of this segment to be in line with serving out the existing projects which are now in DLP.

**Plumbing segment**

Projects undertaken by the segment have been impacted by the Covid19 pandemic and the arising MCO. However, most of the projects are expected to recommence during the CMCO and will continue contributing positively over the next three financial years.

**16.4 Rail Division**

The acquisition of 60% in Trackwork & Supplies Sdn. Bhd. ("Trackwork") was completed in early October 2018. Under the terms of the acquisition, the sellers have provided a profit guarantee of RM8m and RM12m profit after tax for Trackwork's FYE 30 September 2018 and FYE 30 September 2019 respectively. The profit guarantee for the FYE 30 September 2018 was comfortably met.

Although some of the projects undertaken had been delayed due to design changes and renegotiations, the division actively explores new opportunities and products to be introduced to the domestic as well as regional markets.

The Covid19 and arising MCO and subsequent CMCO is expected to weigh on the Division's performance as it disrupts progress of projects as well as its supply chain. We are hopeful of the Division's performance returning on track once the current challenges have been overcome.

**17. PROFIT FORECAST OR PROFIT GUARANTEE**

Not applicable.

**18. INCOME TAX EXPENSE**

	Current quarter ended 31 March 2020 RM'000	Period to date ended 31 December 2019 RM'000
Profit before taxation and zakat	6,432	20,903
Income tax expense for the year	(1,380)	(6,135)
Effective tax rate	21.5%	29.3%

The effective tax rate for the Group for period to date is higher than the statutory tax rate mainly due to loss contribution from the Engineering division's Aircond segment.
