Comparison of Current financial period to date ("9M20") with Preceding year corresponding financial period to date ("9M19")

For the 9 months financial period ended 30 September 2020, the Group's revenue increased by 42.80% to RM2,346.49 million as compared with RM1,643.26 million in 9M19. Profit before taxation (PBT) rose 227.08% to RM679.76 million in 9M20 as compared with RM207.83 million for the corresponding period last year. The improved year-to-date performance was mainly attributable to the improved performance in the Gloves and Cleanroom divisions.

The Gloves division's revenue rose 46.36% to RM2,125.38 million in 9M20 as compared with RM1,452.19 million in 9H19. PBT rose 250.36% to RM644.40 million as compared with RM183.93 million recorded in the corresponding period last year. The improved performance was achieved on the back of demand growth for the Group's glove products, with higher volume sold (+20.8%) from increased production output and higher average selling price.

The TRPs division recorded revenue of RM109.99 million in 9M20, easing 19.13% as compared with RM136.01 million in the corresponding period last year. PBT eased 34.35% to RM14.73 million as compared with RM22.43 million in the previous year corresponding period. The performance in the current period was weaker as expected, impacted by the imposition of the Movement Control Order (MCO) which had disrupted the division's operations, as well as the general slowdown in the infrastructure and automotive industry due to the COVID-19 pandemic compared with the corresponding period last year.

The Cleanroom division grew revenue and PBT by 107.57% and 913.18% respectively to RM110.35 million and RM20.60 million in 9M20, as compared with RM53.16 million and RM2.03 million in 9M19. The improved performance was mainly attributable to the increase in the demand for the division's products as a result of the COVID-19 pandemic.

The improved performance in the current quarter was mainly attributable to the resumption of full operations from the lockdown imposed under the Movement Control Order (MCO) and the rebound in deliveries in the infrastructure segment.

The Cleanroom division grew revenue and PBT by 118.82% and 1131.80% respectively to RM40.25 million and RM10.19 million in 3Q20, as compared with RM18.40 million and RM0.83 million in 3Q19. 14.3 Current Year Prospects

The COVID-19 pandemic has caused economic activity to contract dramatically on a global scale. The International Monetary Fund ("IMF") in its latest October 2020 World Economic Outlook ("WEO") report has revised up its global growth projections to -4.4% (June 2020 WEO: -4.9%). Despite the upward revision, the global economy is still on track for a deep recession, with the ascent back to pre-pandemic levels long and prone to setbacks, according to the IMF.

Despite these conditions however, the demand for personal protective equipment including protective gloves grew exponentially as a result of the pandemic. In September 2020, the Malaysian Rubber Glove Manufacturers Association ("MARGMA") had revised upwards its forecast for glove export revenue and volume by 36.7% and 9.1% respectively to RM29.8 billion and 240 billion pieces from RM21.8 billion and 220 billion pieces in its July 2020 forecast. Post-COVID-19, MARGMA expects glove demand to expand by at least 20-25% from the usual 8-10% annual growth rate.

The Technical Rubber Products (TRP) division, which had been impacted by the Movement Control Order (MCO), has since resumed full operations with a substantial improvement in its performance in the current quarter. With the anticipated gradual uptick in economic activity and infrastructure spending domestically and regionally, the TRP's division, which comprises the infrastructure and automotive segment, is well placed to capitalise on the continued recovery in these sectors, and the Group expects this division to remain profitable.

In the Gloves division, demand continues to far exceed supply. The increase in average selling price has started to be reflected in the current quarter, and the Group expects further significant upward price adjustments on a quarter-on-quarter basis in the 4th quarter of FY2020.

Management is confident of a further step-up in revenue and profit growth in the 4th quarter and for FY2020 to be an exceptional growth year for the Group.
