For the cumulative period ended 31 December 2023, total revenue and NPI recorded a decrease of RM0.4 million and RM0.4 million respectively as compared to Q4 2022. This was due to lower provision of rental variable income as stated earlier.

Industrial & Others

This was mainly due to the lower performance of office, F&B and industrial segments. Net income before tax was lower by RM39.7 million as compared to Q4 2022. This was mainly due to lower gain on fair value of investment properties of RM34.1 million and higher Islamic financing costs of RM3.8 million from the increase in 100bps OPR increase in May, July, Sep and Nov 2022 offsetted by higher investment income of RM0.1 million.

B. ADDITIONAL INFORMATION PURSUANT TO BURSA MALAYSIA SECURITIES BERHAD'S MAIN MARKET LISTING REQUIREMENTS**B4. PROSPECTS**

The global economy continues to expand, driven by domestic demand amid strong labour market conditions. There are further signs of recovery in the electrical and electronics (E&E) sector, but global trade remains soft partly due to the continued shift in spending from goods to services, and ongoing trade restrictions. While China's economy continues to show signs of improvement, its recovery remains modest given the weakness in the property market. Global headline and core inflation edged downwards in recent months but continue to be above average. On the global front, while the monetary policy stance is likely to remain tight in the near term, the tightening cycle has peaked for most central banks. The growth outlook remains subject to downside risks, mainly from an escalation of geopolitical tensions, higher-than-anticipated inflation outturns, and heightened volatility in global financial markets.

For the Malaysian economy, the fourth quarter advance estimates for GDP affirmed that the overall growth for 2023 expanded within expectations. Moving forward, growth is expected to improve in 2024, supported by the recovery in exports and resilient domestic expenditure. Continued employment and wage growth remain supportive of household spending. Tourist arrivals and spending are expected to improve further. Investment activity would be supported by continued progress of multi-year projects in both the private and public sectors, and implementation of catalytic initiatives under the national master plans. The growth outlook remains subject to downside risks stemming from weaker-than-expected external demand and larger declines in commodity production. Meanwhile, upside risks to growth mainly emanate from greater spillover from the tech upcycle, stronger-than-expected tourism activity and faster implementation of existing and new projects.

As the economy recuperates, Al-Salām REIT anticipates its performance of retail properties to improve in line with the recovery in consumer sentiment. @Mart Kempas and Mydin Hypermart continues to prove their resilience as community-centric hypermarkets offering daily essential provisions. Additionally, the Fund's sizable triple nett lease assets portfolio (consisting of Mydin Hypermart Gong Badak and F&B-related properties) will also continue to provide a sustained contribution to Al-Salām REIT's core income.

Manager anticipates that the uptick of cross border activities will continue to positively impact Komtar JBCC's performance as the mall primarily caters to shoppers from across the strait. Thus, in anticipation of the eventual increase in retail crowd and change in consumer shopping behavior, the Manager continues to engage with the property manager to undertake a repositioning of the mall by incorporating more experiential shopping presence into Komtar JBCC. Additionally the recent signing of MOU signed between Al-Salām REIT (via trustee) and Malaysia Rapid Transit System Sdn Bhd for development of a link bridge connecting the upcoming RTS to Komtar JBCC will be an important catalyst to transform the mall in to improve the mall's yield performance moving forward.

The landscape for domestic office space market continues to undergo change as new workplace arrangements and flexible working practices are being embraced by the workforce at large resulting from the pandemic. Being mindful of this scenario, the Manager is engaging with the property manager to assess the current space offering in Menara Komtar and incorporate possible changes including elements of customizable space designs in line with current demand.

Assets operated by QSR Brands (M) Holdings Bhd (QSR) continue to provide income stability on the back of triple net lease arrangement with Al-Salām REIT. Al-Salām REIT remains confident in QSR's continued perseverance by virtue of their time-tested operational excellence and sustainable market share amidst the challenging business environment.
