We’re thrilled with the completion of our maiden Solar Photovoltaics (Solar PV) plant installed at premises of our customer, De-Luxe Food Services Sdn. Bhd. in Pulau Indah, Selangor on 5 September 2021. As such this 1.1 MW plant was Started contributing revenue to the Group in 3Q2021 and the Group envisaged the plant to generate yearly revenue of at least RM380K.

This new revenue stream has added flavours and widen the Group’s base by a more stable and long-term operating structure. It was the sole revenue generator for 3Q 2021 when the operations of transportation division were affected by the COVID-19 pandemic. The Group envisaged more Solar PV plants to commission in coming quarters.

Current Quarter vs Previous Quarter (Cont’d)

Similar with previous quarter, the Group registered Adjusted EBITDA loss in all the divisions, mainly attributable to the costs of in-house engineers, administration expenses, and costs of procuring necessary approvals from the relevant State Government authorities. In addition, 3Q2021 with wider Adjusted EBITDA loss when GCAP Group incurred higher legal and professional fee for the proposed rights issue of redeemable convertible unsecured loan stocks as disclosed in Note 5.2 to Schedule VI.

It is worth noting that upon commissioning of each mini-hydro site, and as energy is sold to the national grid, the contribution to Group earnings will depend on the shareholding structure of each mini-hydro site. Those joint venture companies where the Group has a 30% (or less) equity stake, earnings will be at the associate level, and via single tier dividends. On the other hand, the Group will be consolidating revenue and earnings for completed sites owned by subsidiary companies, including Gunung Hydropower Sdn Bhd.

Total assets of mini-hydro development increased in connection with the capitalisation of preliminary cost for new river schemes. The Group participated in June for year 2021 Sustainable Energy Development Authority (“SEDA”) e-bidding for small hydro quota (“e-Bidding”); of which the result of e-bidding is expected to be released by 4Q2021.

With one completed Solar PV project for Deluxe Food Services Sdn Bhd and few more on-going projects in working in progress, Solarpower division recorded higher assets in terms of property, plant and equipment.

Though with increased in Solarpower division’s borrowing to finance Solar PV projects, liabilities continue to be well managed, at only 15.9% and 9.2% of total assets in 3Q2021 and 2Q2021 respectively.

Equity Capital increased from exercised of ESOS, resulted increase in cash reserve.

On 15 June 2021, the Government addressed the completion of nationwide lockdown from 1 June 2021 to 14 June 2021 and announced Malaysia will be implementing a National Recovery Plan (“NRP”) that will be divided into 4 phases. The Government predicted that Phase 4 of the NRP (whereby all economic sectors will be allowed to reopen) will be able to be implemented in November and December 2021.

On 15 October 2021, the Prime Minister, Datuk Seri Ismail Sabri Yaakob had announced that Kelantan, Kedah, Penang, Perak, Sabah, Melaka, Selangor, Kuala Lumpur and Putrajaya will be moving forward to Phase 3 and Phase 4 of the NRP respectively. Smooth advancement into Phase 3 and Phase 4 of NRP were accomplished with more than 75% full vaccination of Malaysia’s total population.

As of date of announcement, more and more economy sectors are allowed to operate under the NRP. While COVID-19 transmission is still to be managed, growing public awareness and improving vaccination rates show the silver lining in the cloud (vaccination rate exceeded 75% as of date of announcement). We remained optimistic for 2021 compared to 2020 in term of business viability.
