NOTES TO THE UNAUDITED INTERIM REPORT FOR THE FINANCIAL PERIOD ENDED
31 JANUARY 2020**

A. EXPLANATORY NOTES

A1. Accounting Policies and Methods of Computation

The unaudited interim financial report has been prepared in accordance with *MFRS 134 "Interim Financial Reporting"* and *Paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad*.

The unaudited interim financial report should be read in conjunction with the Group's audited financial statements for the financial year ended 30 April 2019.

The explanatory notes attached to the unaudited interim financial report provide an explanation of events and transactions that are significant to the understanding of the changes in the financial position and performance of the Group since the financial year ended 30 April 2019.

The accounting policies and methods of computation adopted for the interim financial statements are consistent with those adopted in the financial statements for the year ended 30 April 2019, except for the adoption of new MFRSs, amendments to MFRS and IC Interpretations effective for annual financial periods beginning on or after 1 May 2019 as listed below:

MFRS 16	Leases
Amendments to MFRS 9	Prepayment Features with Negative Compensation
Amendments to MFRS 119	Plan Amendment, Curtailment or Settlement
Amendments to MFRS 128	Long-term Interests in Associates and Joint Ventures
IC interpretation 23	Uncertainty over Income Tax Treatments
Annual Improvements to MFRSs 2015-2017 Cycle	

The adoption of these new MFRSs, amendments to MFRSs and IC interpretations did not have any material impact on the interim financial report of the Group, except for the following:

MFRS 16

MFRS 16 sets out the principles for the recognition, measurement, presentation and disclosure of lease. It introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases within a term of more than 12 months, unless the underlying asset is of low value. A lessee is required to recognise a right-of-use ("ROU") asset representing its right to use the underlying leased asset and lease liability representing its obligation to make lease payments.

The Group adopted the simplified transition approach without restating the comparatives. The reclassifications and adjustments arising from the new leasing rules are therefore recognised in the opening balance of statement of financial position as at 1 May 2019.

At the date of initial application, 1 May 2019, all ROU assets are measured at an amount equal to the lease liabilities measured at the present value of the remaining lease payments discounted using the incremental borrowing rate at the date of initial application.

On a lease-by-lease basis, the Group has applied the following practical expedients:

- (a) The use of a single discount rate to a portfolio of leases with reasonably similar characteristics.
- (b) Reliance on previous assessments on whether leases are onerous.
- (c) The accounting for operating leases with a remaining lease term of less than 12 months as at 1 May 2019 as short-term leases
- (d) The exclusion of initial direct costs for the measurement of the right-of-use of asset at the date of initial application.
- (e) The use of hindsight in determining the lease term where the contract contains options to extend or terminate the lease.

The table below shows the impact of changes to the condensed consolidated statement of financial position of the Group resulting from the adoption of MFRS 16 as at 1 May 2019.

B. ADDITIONAL INFORMATION AS REQUIRED BY APPENDIX 9B OF BURSA MALAYSIA SECURITIES BERHAD LISTING REQUIREMENTS

B1. Review of Group Performance

The Group's revenue for the quarter decreased by 6%, while cumulative year to date revenue dropped marginally by 3% as compared to the previous corresponding period. The revenue for the Group mainly derived from property development segment.

Profit Attributable to Owners of the Group for the quarter and cumulative year-to-date increased by 748% and 505% respectively as compared to previous corresponding period, mainly due to more ongoing development phases and better performance by the property investment segment, complemented by overall administrative cost savings achieved.

An analysis of the results of each segment is as follows:

Property Development

Revenue from property development for the period was largely attributable to Saujana Perdana located at Bandar Saujana Utama, Plaza @ Kelana Jaya and Saujana Rawang.

Revenue from property development segment for the quarter and cumulative year-to-date decreased by 10% and 5% respectively as compared to previous corresponding period, mainly arose from continued development of the newly launched projects, such as Plaza @ Kelana Jaya, Saujana Rawang, Lakeside Boulevard's shop offices at Puchong and Saujana Jaya at Johor, offsetted by the decline in revenue of certain completed project phases in Saujana Perdana and Saujana KLIA.

Property Investment

Revenue from property investment segment mainly arose from carpark rental and mall rental income. The performance for this segment improved as compared to the previous corresponding period mainly contributed from better occupancy rate of Glo Damansara mall.

Other Operations

Revenue for the segment comprises mainly from property management fees and operation of restaurant.

B2. Comment on Material Changes in the Profit Before Taxation for the Current Quarter as Compared to the Immediate Preceding Quarter

The Group's Profit Before Tax for current quarter improved by 23% as compared to the immediate preceding quarter, mainly contributed from further construction progress of the ongoing project phases.

B3. Prospects for the Remaining Period to End of the Financial Year

The Directors are of the opinion that the Group's performance for the financial year ending 30 April 2020 is expected to remain challenging and we will be adversely impacted by Covid-19 and Movement Control Order ('MCO'). Notwithstanding the above, we have taken certain steps and will be taking further steps to circumvent and mitigate the challenges.

B4. Variance of Actual Profit from Forecast Profit

Not applicable.

B5. Taxation

The taxation charge for the current quarter and financial period to-date include the followings:

	Current Quarter Ended 31/01/2020 RM'000	Year-to-Date Ended 31/01/2020 RM'000
Current taxation	13,348	21,806
Deferred taxation	(17,063)	(20,961)
Tax (credit)/expense	<u>(3,715)</u>	<u>845</u>

The Group's current quarter and year-to-date effective tax rate is lower than the statutory tax rate by the Inland Revenue Board mainly due to overprovision of prior years' tax expense being accounted for upon finalisation of actual tax computation in the current quarter, offsetted by the effect of non-recognition of deferred tax assets on tax losses.

B6. Status of Corporate Proposals

a) Status of Corporate Proposal Announced But Not Completed

B8. Material Litigation

On 16 August 2017, a subsidiary company, Glomac Alliance Sdn. Bhd. ("GASB"), received an Amended Writ and Amended Statement of Claim dated 10 August 2017 from a former joint venture ("JV") partner of a property development project ("the Project"). The suit was inter alia based on the JV Agreement dated 17 January 2003, which was subsequently terminated and the underlying Project Land was acquired by GASB from the receiver of the said former JV partner. In the suit dated 10 August 2017, the said former JV partner is claiming for:

- (i) A compensation sum of RM107,800,000 for the loss of the Project Land;
- (ii) An unspecified amount of loss of expenses of the Project; and
- (iii) 22% of gross development value of the Project or a minimum of RM47,000,000, whichever the higher (collectively referred to as "Claim").

In 2011, similar claims were brought up by the said former JV partner in a civil suit whereby it has been struck off by the High Court and the Court of Appeal.

On 19 September 2017, GASB filed an application to strike out the Claim, but on 17 April 2018, the High Court dismissed GASB's striking out application. Thereafter, on 3 May 2018, GASB appealed to the Court of Appeal against the dismissal of GASB's striking out application ("Striking Out Appeal").

On 17 July 2019, the Court of Appeal unanimously allowed GASB's Striking Out Appeal with no order as to costs, thereby resulting in the Claim against GASB being struck out. Accordingly, on 31 July 2019, GASB filed a Notice of Withdrawal of Appeal in respect of the Security for Costs Appeal.

On 15 August 2019, the said former JV partner filed an application for leave to appeal to the Federal Court in respect of the Striking Out Appeal ("Federal Court Motion"). The Federal Court Motion is fixed for hearing on 15 April 2020.

As at to-date, the said former JV partner has been unsuccessful in their attempts at pursuing and/or sustaining a claim against GASB.

No provision for losses has been made in the financial statements of the Group in respect of this claim as it has been struck out earlier by the Court of Appeal, while the Federal Court Motion is currently at the preliminary stage whereby the outcome is not presently determinable.
