The transaction prices, terms and conditions of the transactions with Related Parties are determined by market forces, under similar commercial terms for transactions with third parties which depend on the demand and supply of the products in the market and with no special treatment accorded to the Related Parties. Transactions entered into with Related Parties will be at prevailing market prices and/or taking into consideration the prevailing market conditions as well as inter-alia, pricing, quality of the products and/or services and the timing to delivery.

In determining the transaction prices of the above-mentioned Recurrent Transactions, due care has been and/or shall be exercised to ensure that the Recurrent Transactions are undertaken on prices and terms not more favourable to the Related Parties than those generally available to the public and not to the detriment of the minority shareholders.

The Group has implemented procedures to ensure proper identification and reporting of Recurrent Transactions. The procedures are as follows:-

- (a) The interested Directors and Major Shareholders have been informed and briefed on the procedures put in place for the Group by the management of the Group in relation to transactions entered/to be entered into by the Group. The interested Directors and Major Shareholders are required to declare and disclose to the Board in a timely manner on transactions in which they are deemed interested;

- (c) The management will ensure that transactions are made based on terms that are not more favourable to the Related Parties than those generally available to the public by considering the prevailing market prices, commercial terms of transactions with third parties, business practices and policies and terms which are generally acceptable in the industry norms, the quality, quantity, delivery time and track record of past performance;
- (d) The Audit and Risk Management Committee will review all RRPT to ensure that relevant approvals have been obtained and the review procedures in respect of RRPT are adhered to. There are no thresholds for approval of RRPT as all the transactions approved pursuant to shareholders' mandate obtained in the general meeting for RRPT are monitored, reviewed and approved by authorised senior management;
- (e) The Directors having interest in any RRPT shall abstain from the Board deliberations and shall ensure that they and Persons Connected with them abstain from voting on the resolution approving the transactions;
- (f) For purchase of products and services, the Group will obtain as bases for comparison, at least two other comparative quotations from or two other contemporaneous transactions with unrelated third party suppliers for similar products;
- (g) In the event that quotation or comparative pricing from unrelated third parties cannot be obtained, the transaction price will be determined by the Group based on the usual commercial terms, business practices and policies or otherwise in accordance with other applicable industry norms/considerations to ensure that the RRPT is not detrimental to the Group;
- (h) Disclosure shall be made in the annual report of the aggregate value of RRPT conducted pursuant to the shareholders' mandate during the financial year;

- (i) The annual internal audit plan shall incorporate a review of all RRPT on an annual basis to ensure that all relevant approvals have been obtained and the review procedures in respect of such transactions are adhered to. Any divergence will be reported to the Audit and Risk Management Committee; and
- (j) The Audit and Risk Management Committee/Board shall continue to review the procedures based on internal audit report, with emphasis on:-
 - The review procedures are operating effectively as intended; and
 - The review procedures are sufficient.

2.4 Statement by the Audit and Risk Management Committee

The Audit and Risk Management Committee of the Company has seen and reviewed the procedures mentioned in Section 2.3 above and is of the view that:-

- (a) the terms of the procedures established are sufficient to ensure that the Recurrent Transactions are:-
 - on terms not more favourable to the Related Parties than those generally available to the public; and
 - are not to the detriment of the minority shareholders; and
- (b) the Group has in place adequate procedures and processes to monitor, track and identify Recurrent Transactions in a timely and orderly manner, and such procedures and processes are reviewed on a quarterly basis or whenever the need arises.

2.5 Validity tenure of the RRPT Mandate

The RRPT Mandate, if approved by the Shareholders at the forthcoming AGM, will take effect from the date of the passing of the ordinary resolution at the AGM and is subject to annual renewal. In this respect, the mandate arising therefrom shall continue to be in force until:-

- (a) the conclusion of the next AGM of the Company following the general meeting at which such mandate was passed, at which time it will lapse, unless by a resolution passed at the meeting, the authority is renewed;
- (b) the expiration of the period within which the next AGM after that date is required to be held pursuant to Section 340(2) of the Act (but must not extend to such extension as may be allowed pursuant to Section 340(4) of the Act); or

3. RATIONALE FOR THE RRPT MANDATE

The Recurrent Transactions entered or to be entered into by the Group under the RRPT Mandate with the Related Parties are in the ordinary course of business on normal commercial terms for the Group's day-to-day operations. They are recurring transactions of a revenue or trading nature which are likely to occur with some degree of frequency and arise at any time and from time to time. The above Recurrent Transactions are either recurring transactions of a revenue or trading nature which will generate income and profitability to the Group or the receipt of support services which are necessary to facilitate the functions of the Group. Hence, they are of benefit to the Group.

The Recurrent Transactions are intended to meet the business needs of the Group at the best possible terms. By transacting with the Related Parties, the Group would have an advantage of familiarity with the background and management of the Related Parties. The Group and the Related Parties have close co-operation and a good understanding of each other's business needs thus providing a platform where all parties can enjoy synergistic benefits from conducting the Recurrent Transactions.

Obtaining the shareholders' approval for RRPT Mandate on an annual basis would allow the Group to pursue business opportunities which are time-sensitive in nature, and will eliminate the need for the Company to make announcements and/or convene separate general meetings from time to time to seek shareholders' approval, as and when potential Recurrent Transactions arise, thereby reducing the administrative time, efforts and expenses associated with the convening of such meetings. This will allow the human resources and time to be channelled towards attaining the corporate objectives of the Group.

The RRPT Mandate are sought to obtain shareholders' approval for the mandate to be valid from the forthcoming AGM to the next AGM of the Company.

Thereafter, approval from Shareholders for a renewal of the RRPT Mandate will be sought at each subsequent AGM of KLCB, if required.

4. CONDITIONS OF THE RRPT MANDATE

The RRPT Mandate is conditional upon approval being obtained from the shareholders of the Company at the forthcoming AGM. The RRPT Mandate is not conditional upon any other proposal.

5. FINANCIAL EFFECTS OF THE RRPT MANDATE

The RRPT Mandate will not have any effect on the share capital or the shareholdings of KLCB. The RRPT Mandate will also not have any material effect on the NA, earnings, gearing and dividend policy of the Group save for cost efficiencies arising from the general mandate received.

6. DIRECTORS' AND MAJOR SHAREHOLDERS' INTERESTS

In this respect, Pang Tin @ Pang Yon Tin and Pang Khang Hau have accordingly abstained and/or will continue to abstain from all Board deliberations and voting in respect of the RRPT Mandate. SBB MANDATE

1. INTRODUCTION

On 3 June 2025, the Company had obtained the mandate from its shareholders for the Company to purchase its own shares of up to ten per cent (10%) of the total number of issued shares. The existing shareholders' mandate shall lapse at the conclusion of the forthcoming AGM unless authority for its renewal is obtained from the shareholders of the Company at the forthcoming AGM.

On 8 April 2026, the Company had announced that it proposes to seek the approval of the Shareholders for the SBB Mandate.

The purpose of this Statement is to set out the relevant details of the SBB Mandate and to seek your approval for the resolution pertaining to the SBB Mandate to be tabled at the forthcoming AGM.

2. SBB MANDATE

2.1 Details of the SBB Mandate

The Board is seeking the approval of the Shareholders to purchase up to ten per cent (10%) of the total number of issued shares of KLCB through stockbroker(s) appointed/to be appointed at a later date, subject to the Act, Listing Requirements and any prevailing laws, rules, regulations and guidelines issued by the relevant authorities at the time of purchase.

The approval from the Shareholders for the SBB Mandate would be effective immediately upon the passing of the ordinary resolution for the SBB Mandate at the forthcoming AGM and shall be valid until:-

- (a) the conclusion of the next AGM of the Company following the general meeting at which such resolution was passed, at which time it will lapse, unless by ordinary resolution passed at that meeting, the authority is renewed, either unconditionally or subject to conditions;
- (b) the expiration of the period within which the next AGM of the Company after that date is required by law to be held; or
- (c) revoked or varied by ordinary resolution passed by the Shareholders in general meeting, whichever occurs first.

2.2 Quantum

Based on the total of 388,718,916 issued Shares (including treasury shares) as at LPD, a maximum of 38,871,800 Shares (inclusive of treasury shares held as at LPD) representing 10% of the total number of issued Shares may be purchased by the Company pursuant to the SBB Mandate.

Nevertheless, the actual number of Shares to be purchased by the Company pursuant to the SBB Mandate, the total amount of funds involved for each purchase and the timing of the purchase(s) will depend on inter-alia, the market conditions and sentiments of the stock market as well as the availability of financial resources of the Company and the availability of the retained profits of the Company.

2.3 Maximum amount of funds to be allocated and the source of funds

The shareholders' approval for the SBB Mandate does not impose an obligation on the Company to purchase its own shares on Bursa Securities. Rather, the SBB Mandate will allow the Board to exercise the power of the Company to purchase its own ordinary shares at any time within the above-mentioned time period using internally generated funds and/or external borrowings.

The amount of internally generated funds and/or external borrowings to be utilised will only be determined later depending on the availability of internally generated funds and bank borrowings at the time of the purchase(s), actual number of Shares to be purchased, the economic and market conditions and other cost factors. Should the SBB Mandate be financed through bank borrowings, the Company will ensure that it will have sufficient funds to repay such borrowings as and when they are due. The SBB Mandate is expected to reduce the cash flow of the Group. The Board will ensure that the Company satisfies the solvency test as stated in Section 112(2) of the Act before implementation of the SBB Mandate.

The maximum funds to be utilised for the SBB Mandate shall not exceed the retained profits of the Company. Based on the latest audited financial statements for the financial year ended 31 December 2025, the retained profit of KLCB was RM83,093,285. As at the date of this Statement, the unaudited quarterly results for the first quarter ended 31 March 2026 has yet to be released.

2.4 Treatment of Purchased Shares

In accordance with Section 127(4) of the Act, the Directors may, at their discretion, deal with the Shares bought pursuant to the SBB Mandate in the following manner:-

- (a) to cancel all or part of the Purchased Shares; and/or
- (b) to retain all or part of the Purchased Shares as treasury shares as defined in Section 127 of the Act.

Based on Section 127(7) of the Act, where Purchased Shares are held as treasury shares, the Company may:-

- (i) distribute all or part of the treasury shares as dividends to the Shareholders, such dividends to be known as "share dividends";
- (ii) resell all or part of the treasury shares in accordance with the relevant rules of Bursa Securities;
- (iii) transfer all or part of the treasury shares for the purposes of or under an employees' share scheme established by the Company and/or its subsidiaries;
- (iv) transfer all or part of the treasury shares as purchase consideration;
- (v) cancel all or part of the treasury shares;
- (vi) sell, transfer or otherwise use the treasury shares for such other purposes as the Minister charged with the responsibility for companies may by order prescribe; or
- (vii) deal with the treasury shares in any other manner as allowed by the Act, Listing Requirements, applicable laws, rules, regulations, guidelines, requirements and/or orders of any relevant authorities for the time being in force.

Upon each purchase of the Shares, an immediate announcement will be made to Bursa Securities in respect of the intention of the Board on the treatment of the Purchased Shares. An immediate announcement will also be made to Bursa Securities of any resale, transfer or cancellation of Shares. As at the date of the Statement, the Board has yet to make any decision with regards to the treatment of the Shares so purchased in the future.

Pursuant to Section 127(13) and 127(14) of the Act, where the Directors resolve to cancel the Shares so purchased, the Company's issued capital shall be diminished by the Shares so cancelled and the costs of the Shares shall be applied in the reduction of the profits otherwise available for distribution as dividends.

2.5 Ranking

While the Shares so purchased are held as treasury shares, the rights attached to them as to voting, dividends and participation in any other distribution or otherwise are suspended and the treasury shares shall not be taken into account in calculating the number or percentage of Shares for any purpose including substantial shareholding, takeovers, notices, the requisitioning of meetings, the quorum for a meeting and the result of a vote on a resolution at a meeting.

2.6 Purchase price

In compliance with the Listing Requirements, KLCB may only purchase its own Shares at a price which is not more than fifteen per cent (15%) above the weighted average market price for the shares for the five (5) Market Days immediately before the purchase.

2.7 Resale or transfer price

In the case of a resale or transfer of treasury Shares pursuant to section 127(7) of the Act, the Company may only resell or transfer the Shares at a price which is:-

- (a) not less than the weighted average market price for the Shares for the five (5) Market Days immediately before the resale or transfer; or
- (b) a discounted price of not more than five per cent (5%) to the weighted average market price for the Shares for the five (5) Market Days immediately before the resale or transfer provided that:-
 - (i) the resale or transfer takes place not earlier than 30 days from the date of purchase; and
 - (ii) the resale or transfer price is not less than the cost of purchase of the Shares being resold or transferred.

2.8 Other regulatory requirements

Based on the Listing Requirements, the SBB Mandate is subject to, inter-alia, the following rules:-

- (a) The SBB Mandate shall only be effected on the market of Bursa Securities via its automated trading system and shall exclude any direct business transactions as defined according to the rules of Bursa Securities;
- (b) The Company shall appoint not more than two (2) stockbroking companies and ensure that all dealings in relation to the SBB Mandate are made through the appointed stockbroking companies only;
- (c) An immediate announcement be made to Bursa Securities on any purchase of Shares as well as any resale, transfer or cancellation of Purchased Shares; and

- (d) As at LPD, the Record of Depositors of KLCB showed that 149,827,857 Shares representing approximately 38.55% of the issued share capital were held by public shareholders. Assuming the Company purchases up to 38,871,800 Shares from the public shareholders, representing up to 10% of the total number of issued shares of the Company as at LPD, the public shareholding spread of the Company would be reduced to 31.72%. The Board undertakes that the SBB Mandate will be conducted in accordance with the laws prevailing at the time of the purchase including compliance with the public shareholding spread requirement under the Listing Requirements.

2.9 Advantages and disadvantages of the SBB Mandate

2.9.1 Advantages

- (a) The SBB Mandate, if implemented, will enable the Company to stabilise the supply and demand of the Shares on Bursa Securities and thereby support the Company's fundamental value;
- (b) It provides flexibility for the Company in attaining its desired capital structure, in terms of the debt and equity composition and the size of equity;
- (c) It allows the Company to take preventive measures against excessive speculation, particularly when the Shares are undervalued which would in turn stabilize the market price of the Shares to enhance investors' confidence;
- (d) The resultant reduction of share capital base (in respect of the Shares so purchased which are then cancelled) is expected to improve the EPS, and may improve the NA per Share as well as the probability of permitting the Company to declare a higher quantum of dividend in future;
- (e) The Board would have the opportunity to utilise its financial resources not immediately required for other use to purchase the Shares. KLCB may have the opportunity for potential gains if the Purchased Shares which are retained as treasury shares are resold at prices higher than their purchase price and consequently increase the working capital and NA of the Company;
- (f) The Company is able to exercise flexibility in dealing with the treasury shares, including but not limited to distribution to shareholders as share dividends, transfer the treasury shares as purchase consideration and transfer pursuant to an employees' share scheme by the Company; and
- (g) In the event the treasury shares are utilised for distribution to shareholders, the shareholders will have the opportunity to own more shares in the Company.

2.9.2 Disadvantages

- (a) The purchases may result in a reduction of the quantum of reserves available for distribution as cash dividends and/or bonus issue(s) to the Shareholders if the Shares so purchased are cancelled;
- (b) The purchase of existing Shares will reduce the financial resources of the Company which may otherwise be retained in the business to generate further profits;
- (c) The funds allocated for the SBB Mandate may result in the Group foregoing other investment opportunities that may emerge in the future; and
- (d) The working capital of the Group may also be affected, as any purchase of the Shares will reduce the Group's working capital depending on the actual number of shares purchased and their purchase price. However, the working capital of the Group may recover and increase upon the reselling of the Purchased Shares held as treasury shares.

The Board will be mindful of the interests of the Group and the shareholders in implementing the SBB Mandate.

3. RATIONALE FOR THE SBB MANDATE

The SBB Mandate permits a stabilising factor on the supply and demand as well as the price of the Shares on Bursa Securities.

The SBB Mandate will also enable KLCB to utilise its surplus financial resources to purchase the Shares as and when the Board deems fit in the interest of its shareholders during the tenure the authority granted is in effect.

In addition, the Purchased Shares may be held as treasury shares and resold on Bursa Securities with the intention of realising a potential gain without affecting the total issued share capital of the Company. Should any treasury shares be distributed as share dividends, this would serve to reward the shareholders of the Company.

4. CONDITIONS OF THE SBB MANDATE

The SBB Mandate is conditional upon approval being obtained from the shareholders of the Company at the forthcoming AGM. The SBB Mandate is not conditional upon any other proposal.

5. FINANCIAL EFFECTS OF THE SBB MANDATE

5.1 Share capital

Based on the number of issued shares of KLCB, the maximum number of Shares which can be bought back pursuant to the SBB Mandate are detailed as below:-

Share capital	Based on existing share capital No. of Shares
Existing as at LPD (including treasury shares)	388,718,916
Less: The maximum Shares which can be bought back (inclusive of treasury shares held as at LPD)	(38,871,800)
Reduced Share Capital assuming cancellation of all Purchased Shares	349,847,116

If all the Purchased Shares are retained as treasury shares, the share repurchase would not have any effect on the share capital and the number of issued shares of KLCB, although the rights attached to the treasury shares as to voting, dividends and participation in other distribution or otherwise would be suspended. The treasury shares shall not be taken into account in calculating the percentage of shares or of a class of shares in the Company for any purpose including, without limiting the generality of the provision of the Act, the provisions of any law or requirements of the Constitution of the Company or the Listing Requirements on substantial shareholdings, takeovers, notices, the requisitioning of meetings, the quorum for a meeting and the result of a vote on resolution at a meeting.

5.2 Substantial Shareholders' and Directors' shareholdings

Assuming the SBB Mandate is carried out in full by the Company, the effects of the share purchase on the shareholdings of Substantial Shareholders and Directors based on the Register of Substantial Shareholders and the Register of Directors' Shareholdings respectively as at LPD are as follows:-

	As at LPD				After the SBB Mandate			
	Direct interest		Indirect interest		Direct interest		Indirect interest

Notes:-

* Deemed interested by virtue of his substantial shareholdings in Phin pursuant to Section 8(4) of the Act, his spouse's and his daughters' direct interest in KLCB pursuant to Section 59(11)(c) of the Act.

^ Deemed interested by virtue of his spouse's direct interest in KLCB pursuant to Section 59(11)(c) of the Act.

5.3 NA

The effect of the SBB Mandate on the NA of the Group is dependent on the number of Shares which the Company purchased, the purchase price of the Shares, the treatment of the Purchased Shares and the funding cost, if any.

If the maximum allowable number of Shares are purchased and cancelled, the SBB Mandate would reduce the NA per share of the Group if the purchase price exceeds the NA per share at the relevant point in time. Conversely, the NA per share of the Group would increase if the purchase price is less than the NA per share at the relevant point in time.

If the Shares so purchased are retained as treasury shares, the NA of the Group will decrease by the cost of the treasury shares due to the requirement for treasury shares to be carried at cost and be offset against equity.

If the treasury shares are resold on the share market, the NA per share will increase if the Company realises a gain from the resale, and vice versa. If the treasury shares are distributed as share dividends, the NA per share will decrease by the cost of the treasury shares.

5.4 Working capital and cash flow

The shares purchased will result in an outflow of cash and thereby reduce the working capital of the Group. The quantum of the reduction in working capital is dependent on the purchase prices of the Shares and the number of Shares purchased and the funding cost, if any.

However, for the Share so purchased and kept as treasury shares, upon resale, the working capital and cash flow of the Company will increase. The quantum of the increase in the working capital and cash flow will depend on the actual selling price of the treasury shares and the number of treasury shares resold.

5.5 Earnings

The effect of the SBB Mandate on the EPS of the Group is dependent on the purchase price of the Shares, the effective funding cost and/or loss in interest income to the Group thereof. Further, the purchase of the Shares will result in a lower number of shares being taken into account for purposes of EPS computation.

Assuming that the Purchased Shares are treated as treasury shares and subsequently sold, the effects on the earnings of the Group will depend on the actual selling price, the number of treasury shares sold and the effective gain or interest savings arising from the exercise.

5.6 Dividends

The Company has proposed, subject to shareholders' approval, a single tier final dividend of 4.0 sen per Share for the financial year ended 31 December 2025. Barring any unforeseen circumstances, any future dividends which may be declared would depend on, amongst others, the profitability and cashflow position of the Group. The SBB Mandate may impact the Company's dividend payouts as it would reduce the cash available which may otherwise be used for dividend payment. Nonetheless, the treasury shares purchased may be distributed as dividends to shareholders of the Company, if the Company so decides.

6. IMPLICATIONS RELATING TO THE CODE

As it is not intended for the SBB Mandate to trigger the obligation to undertake a mandatory general offer under the Code for any of its substantial shareholders and/or parties acting in concert with them, the Board will ensure that such number of Shares are purchased, retained as Treasury Shares, cancelled or distributed such that the Code will not be triggered.

Nonetheless, if the obligation to undertake a mandatory general offer under the Code is expected to be triggered, the substantial shareholders and their respective parties acting in concert will apply for an exemption from the SC. Such exemption may be granted by the SC under Paragraph 4.15(1) of Rule 4 of the Code, subject to there being no disqualifying transaction, approval has been obtained from the independent shareholders of KLCB at a meeting to waive their rights to receive the mandatory offer from the substantial shareholders and their respective parties acting in concert, and the names of the parties that have abstained from voting at the meeting have been submitted to the SC.

7. DIRECTORS' AND MAJOR SHAREHOLDERS' INTERESTS

Save for the proportionate increase in the percentage of shareholdings and/or voting rights in their capacities as shareholders of the Company pursuant to the SBB Mandate, none of the Directors or Major Shareholders and/or Persons Connected to them have any interest, direct or indirect, in the SBB Mandate and resale of treasury shares, if any.

8. DIRECTORS' RECOMMENDATION

The Board, having taken into consideration all aspects of the SBB Mandate, is of the opinion that the SBB Mandate is in the best interest of the Group and its shareholders. Accordingly, the Board recommends that you vote in favour of the Ordinary Resolution pertaining to the SBB Mandate to be tabled at the forthcoming AGM.

9. AGM
