# CHAIRMAN'S MESSAGE

## | Dear valued shareholders,

The Financial Year Ended 30 June 2022 was a year filled with challenges and opportunities as we navigating through the Coronavirus Disease 2019 (“COVID-19”) pandemic recovery journey. The emergence of new variants of COVID-19, resources shortage, supply chain disruption, elevated logistics cost, geopolitical tensions and global inflation are a testament to the resilient business community around the world.

Despite these tough times, Kim Teck Cheong Consolidated Berhad (“KTC”) and its subsidiaries (“KTC Group” or the “Group”) continued focusing on long-term sustainable business pathway and maintain the position as the first-tier provider of CPG market access with more than 8,523 sales and distributions points covering more than 40 districts across Sabah, Sarawak, Labuan and Brunei. I am happy to report that we are in an excellent position to sustain our growth prospects.

On behalf of the Board of Directors (the “Board”), it is my hearty pleasure to share with you the Annual Report of the Group with our resilience results for Financial Year Ended 30 June 2022.

### **Key Financial Achievements**

I am glad to report that KTC Group has demonstrated adaptability in a challenging business climate and an unwavering commitment on the business growth path by the management team. On this note, KTC Group achieved a stellar financial performance for Financial Year Ended 30 June 2022 with revenue growth of 5.47% to RM705.84 million compared to RM669.21 million reported for Financial Year Ended 30 June 2021.

In tandem with our revenue growth coupled with our operational efficiency and cost management initiatives, KTC Group had registered a remarkable Profit Before Tax of RM29.50 million for FYE 2022 as compared to Profit Before Tax of RM13.72 million reported for FYE 2021, representing a vast improvement of RM15.78 million or 115.01%.

Over the past years, our stable financial fundamentals have continued to be the key strengths of our Group for achieving robust earnings and cash flow growth. Our Group’s financial performance will be discussed more extensively in the Management Discussion and Analysis as set out from pages 8 to 12 of this Annual Report.

# CHAIRMAN'S MESSAGE

(cont'd)

## **Seizing Opportunities and Growth Momentum**

As the first-tier provider of market access and coverage of CPG in East Malaysia, our momentum for new opportunities is not stopping. KTC Group has taken steps to elevate warehousing and logistics efficiency and capabilities. This will enable us to expand our business and capabilities further and consolidate the Group's resources, ultimately enabling the Group to better serve our stakeholders.

In November 2021, KTC Group received "Shogun Kabuto" recognition from Hino Motor and the collaboration with Hino Motor Malaysia, a subsidiary of Toyota Motor Corporation, to acquire 200 units of Hino trucks with the value of RM30 million to strengthen logistics capability within East Malaysia and Brunei. To date, our Group has more than 30 trucks for delivery services to cater for the increased sales orders from our customers throughout East Malaysia.

We strive for a sustainable business and future in all that we do. KTC Group has continuously introduce the new bakery product under Creamos brand and has taken a step to expand the bakery manufacturing business under the brand Gardenia by venturing into Indonesia.

## **As a Corporate Citizen in the Community**

KTC Group has always been upholding the principle of corporate social responsibility and has taken initiatives to give back to its communities. We reached out to support the local communities and, at the same time, play a small role in helping the government to accelerate the rollout of vaccination programmes.

During the financial year under review, our corporate social responsibility initiatives include donations, involvement in community projects, outreach programmes and many others. KTC Group also advocate for equal job opportunities for disabled of which the Group recruited three disabled person during the financial year review.

## **Sustainability**

At KTC Group, it's been our embedded culture to uphold the interest of our key stakeholders, the environment and the community at large by continuously reassessing our priorities and putting plans into action.

Therefore, we are committed to adhering to the best sustainability practices to pursue our strategic goals with minimal environmental footprint. Our commitment, progress and initiatives on sustainability are detailed in our Sustainability Statement as set out from pages 23 to 36 of this Annual Report.

## **Future outlook and strategies to forge ahead**

We foresee the business outlook to remain competitive but optimistic attributable to the reopening and recovery of the market. Premised on our strong sales network and backed by decades of industry experience and fundamentals, at the same time focusing on organic growth through strategic sign-ups with new agencies and brands to complement the Group's agencies portfolio, we will continue to be bullish in our performance in the years to come.

We will continue to adapt and refine our strategies moving forward including expanding our export business, diversifying our customer base and managing the volatile material prices vigilantly. The economic stimulus programme as well as the expansion in employment and subsequent increase in private sector wages contributed towards increased household spending will contribute positively to our Group.

## **Appreciation and Acknowledgement**

It is my most tremendous honour to serve KTC. A sincere note of appreciation to express my heartfelt gratitude to my fellow board members for their forthright inputs and guidance throughout the financial year. I would also like to thank our management and employees for their dedication, commitment and faithful support throughout the trying times.

KTC Group with over 84 years in the market presence coupled with strong sales and distribution points in East Malaysia together with concerted efforts of the entire KTC family, I am confident that we will continue to thrive and well placed to leverage on new opportunities as well as tackle any challenges that may come our way.

I would also like to take this opportunity to thank our shareholders and other stakeholders for their unwavering support over the years in making KTC the robust company it is today. We look forward to many years of progress together and ask for your continued support to bring KTC Group to new heights.

Thank you.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

## OVERVIEW OF THE GROUP'S BUSINESS AND OPERATIONS

Our business was founded in 1938 with the establishment of Kim Teck Cheong started its initial business activity as an operator of a sundry shop in Sabah. With our business philosophy has and continues to be based on achieving business success and continuity through integrity and ethical business practice. This is encapsulated in our company name, Kim (“金”) Teck (“德”) Cheong (“昌”). In 2014, Kim Teck Cheong Consolidated Berhad was incorporated as an investment holding company to consolidate various subsidiaries and was listed on the ACE Market of Bursa Malaysia Securities Berhad.

With over 84 years of industry experience, the business has been profitably managed by the Lau family. It continues to expand its business presence and branding throughout East Malaysia and Brunei.

Our Group is principally a provider of market access and coverage of Consumer Package Goods (“CPG”). We are involved in the distribution and warehousing of a range of CPG, namely foods and beverage products, personal care products, cosmetic products, household products, and over-the-counter drugs and health supplements, and baby care products covering East Malaysia. Today, Kim Teck Cheong (“KTC”) is a first-tier provider of market access and coverage in the distribution of CPG in East Malaysia, namely Sabah, Sarawak, Labuan and Brunei with over 8,523 sales and distribution points covering more than 40 districts, involves more than 30 brand owners.

KTC is also involved manufacturing of its in-house brand bakery products, namely Creamos, based on our own recipes. In 2020, KTC entered into license agreements that granted KTC the rights to use the trademarks of ‘Gardenia’ to manufacture, supply and distribution of bread in East Malaysia and Indonesia. To date, we have 13 and 6 products manufactured under Creamos and Gardenia, respectively.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

(cont'd)

Our core business is supported by 19 distribution centers in East Malaysia, comprising 11 in Sabah, 6 in Sarawak, and 2 in Brunei. Our other business activity is in the manufacturing of bakery products, namely Creamos and Gardenia.

During the Financial Year Ended 30 June 2022, our Group incorporated PT Gardenia Bakeries Indonesia where its principally manufacturing bakery under the brand of Gardenia in Indonesia. This subsidiary has yet to commence their business operations during the Financial Year Ended 30 June 2022.

As part of our expansion plan, our Group has purchased additional 18 trucks in the Financial Year Ended 30 June 2022. To date, our Group have more than 30 trucks for the delivery services to cater the increase sales orders from our customers throughout East Malaysia.

## REVIEW OF FINANCIAL RESULTS AND FINANCIAL HIGHLIGHTS

Financial Year Ended 30 June	Audited			
	2021 RM'000	2022 RM'000	Changes RM'000	%
Revenue	669,210	705,838	36,628	5.47
Profit before tax	13,720	29,502	15,782	115.03
Profit for the year	8,709	22,270	13,561	155.71
Profit attributable to owners of KTC	7,464	20,400	12,936	173.31
Shareholders' equity	119,913	153,680	33,767	28.16

The Financial Year Ended 30 June 2022 was a fruitful yet challenging year for us as we survived one of the worst crises of our generation – the Covid-19 pandemic. In view of the emergence of new variants such as Delta which resulted in a spike of Covid-19 infections beginning May 2021, the government decided to re-introduce strict nationwide containment measures – Movement Control Order (MCO 3.0). The continued restrictions have disrupted the supply chain, contributing to short-term market uncertainty and risk, and has caused an adverse impact on economic activities. Notwithstanding, our Group's business operations and financial performance have not been materially affected.

### Revenue

Our revenue by business segment and geographical regions are as tabulated as below:

## MANAGEMENT'S DISCUSSION AND ANALYSIS

(cont'd)

Our Group registered growth in revenue by approximately RM36.63 million or 5.47% to RM705.84 million for the Financial Year Ended 30 June 2022 as compared with the previous financial year of RM669.21 million. The increase was mainly attributable to the increase in our core business, distribution of the CPG segment, which represented 97.93% of our Group's total revenue for the Financial Year Ended 30 June 2022.

### Distribution of the CPG Segment

As our mainstay, the distribution of the CPG segment remains the primary contributor to our Group's total revenue for the Financial Year Ended 30 June 2022, which registered growth in revenue to RM691.23 million for the Financial Year Ended 30 June 2022 compared with the previous financial year of RM656.74 million, representing an improvement of RM34.49 million or 5.25%.

The increase in revenue from the distribution of CPG segment was mainly attributable to the growth in demand for household products, nutrition products as well as personal care and cosmetics products. The relaxation of movement controls by the Government of Malaysia during the FYE 30 June 2022 has changed the demands of the end users, which resulted on the increase in sales for personal care and cosmetic products, nutrition products and household products. The increase in revenue was offset partially by the lower demand in food and beverage.

### Manufacturing of bakery products segment

Our Group's manufacturing of bakery products segment registered a growth in revenue by RM2.14 million or 17.16% to RM14.61 million for the Financial Year Ended 30 June 2022 compared to RM12.47 million in the previous financial year. The grow in revenue was primary contributed by higher demand from our Gardenia's products coupled with marketing effort. In addition, the introduction of new flavors and new bakery products from Creamos has also contributed to the increase in our manufacturing of bakery products segment.

### Revenue analysis by geographical regions

Our Sabah operation has remained our primary contributor to our Group's revenue, which recorded approximately RM405.83 million or 57.50% of our total revenue for the Financial Year Ended 30 June 2022. The increase in our Group's revenue was contributed mainly by the higher sales for household products, nutrition products and our bakery products.

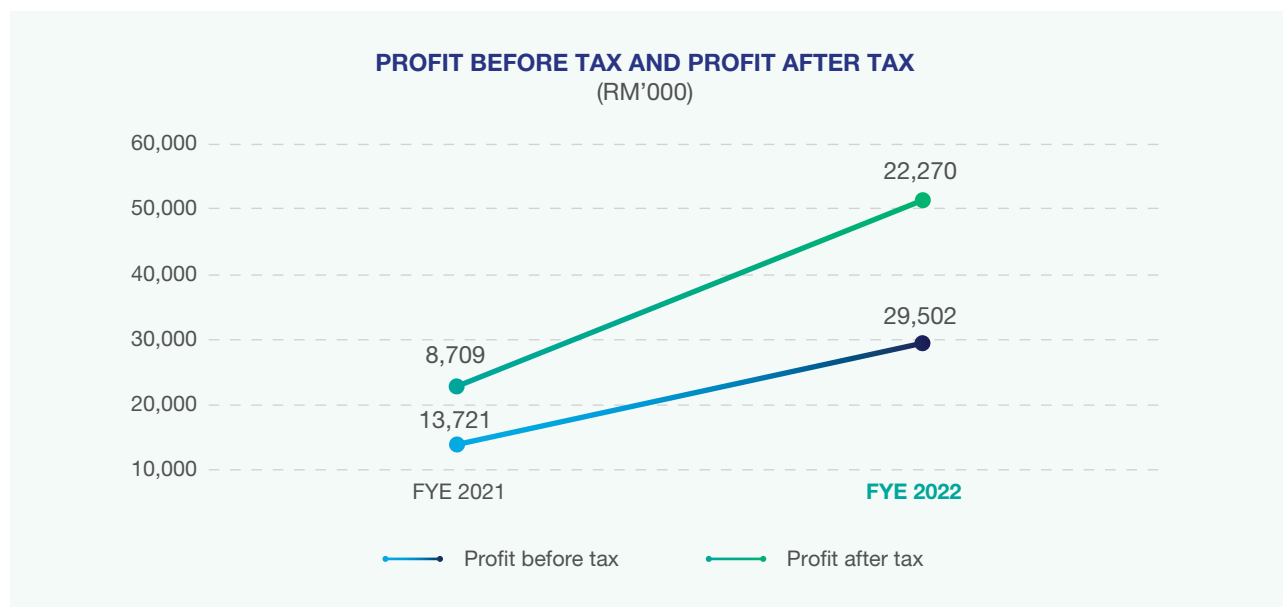

For the Financial Year Ended 30 June 2022, our Sarawak operation contributed RM191.81 million or 27.17% of the Group's total revenue, showing a slight decrease of RM0.48 million or 0.25% as compared to the previous financial year, mainly due to increase in sales for personal care and cosmetic products which partially offset by the decrease in alcoholic beverages. Our Labuan and Brunei operations contributed the remaining RM108.20 million or 15.33% to the total Group's revenue, which marked a decrease in revenue of RM3.12 million or 2.80% as compared to the previous financial year mainly due to decrease in sales for food and beverage from our Brunei operations.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

(cont'd)

## Profit before tax and Profit after tax

With our Group's continued efforts in upholding the business, our Group has registered a remarkable profit before tax of RM29.50 million for the Financial Year Ended 30 June 2022, representing an increase of RM15.78 million or 115.01% as compared to RM13.72 million to the previous financial year. Our Group has also registered a growth in profit after tax of RM22.27 million for the Financial Year Ended 30 June 2022, representing an increase of RM13.56 million or 155.68% as compared to RM8.71 million to the previous financial year. The vast growth in both profit before tax and profit after tax was mainly due to the increase in revenue coupled with decrease in expenses and finance costs resulting from the effective cost control measure and the improved cash flows management implemented by our Group.

## Financial position

Our Group recorded a net asset of RM161.49 million as at 30 June 2022, representing an increase of RM35.85 million or 28.53% compared to RM125.64 million as at 30 June 2021, resulting from our improved financial performance and position. Thus, our Group registered net assets attributable to our owners per share of 23.68 sen as at 30 June 2022 as compared with 18.74 sen as at 30 June 2021.

## ANTICIPATED OR KNOWN RISK

### Credit risk

The normal trade credit terms granted by the Group for trade receivables range from 30 to 90 days. Any significant delay or default in payment by our major customers could result in impairment being put through for credit losses which in turn, would adversely affect our financial position and results. Our Group review ageing reports monthly to identify slow paying customers for actions to be taken for recovery and provision, if necessary.

### Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting financial obligations due to shortage of funds. The Group exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. As part of the overall liquidity management, our Group maintains sufficient levels of cash or cash convertible investments to meet its working capital requirements. In addition, our Group strives to maintain available banking facilities at a reasonable level to its overall debt position.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

(cont'd)

## Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's exposure to interest rate risk arises mainly from its loans and borrowings. Most of the Group's loans and borrowings are charged a fixed interest rate plus or minus the financial institutions' base lending rate or cost of fund per annum. The fixed interest rate is reviewed annually.

## Technology

Technology has vastly transformed both the social and business environments. Technology often deals with methods or tools used to gather, process, store and communicate information. The advancement of technology has enabled our Group to reduce business costs and at the same time minimise the returns of inventories.

## Downtime risk

From operational perspective, our manufacturing of bakery products and warehouse division is exposed to downtime risk. This risk could occur in the unlikely event of a fire, flood, power outage, workers on strike or machinery breakdown, and environmental factors (including natural disaster and outbreak of diseases), thus resulting in production and delivery delays as well as reputational damage to our Group. Our manufacturing has been practicing strict Covid-19 Prevention SOP since the pandemic and operators are going through self-test monitoring according to government regulations.

## **FUTURE PROSPECTS**

The Group is optimistic of the distribution business segment and expect that it will be satisfactory and continue to be the major contributor in terms of revenue and profit to the Group. We will continue to be bullish in our performance in the coming year by focusing on serve our existing customers better by maintaining high service standard while offering innovative service, at the same time focus in organic growth through strategic sign-ups with new agencies and brands to complement the Group's highly diversified agencies portfolio as well as achieving our ideal operating cost-efficient structure. In addition, the invention of PT Gardenia Bakeries Indonesia, has also brought our Group to expand our presence in Indonesia. Our Group remains cautiously optimistic of delivery of a satisfactory performance in the next financial year and will continue its prudent business strategy to ensure sustainable growth.

## **DIVIDEND POLICY**

Our Group presently does not have any formal dividend policy and the declaration of dividends and other distribution are subject to the discretion of our Board. However, the Board of Directors shall consider various factors when recommending dividends for approval by our shareholders or when declaring any interim dividends. Amongst others include the availability of adequate distributable reserves, the level of cash and indebtedness of our Group, our expected results of operations and future level of operations, our projected levels of capital expenditure and other investment plans, and any material impact of tax laws and other regulatory requirements.

# SUSTAINABILITY STATEMENT

## 1. INTRODUCTION

### 1.1 INTRODUCTION

Kim Teck Cheong Consolidated Berhad (“KTC”) and its group of companies (“KTC Group” or “the Group”) is committed towards value creation for long-term sustainability for its stakeholders. To this end, KTC has embedded practices that focus on building sustainability throughout the Group’s business operations.

KTC is pleased to present its Sustainability Statement that details the Group’s Environmental, Social and Governance (“ESG”) performances. This Statement communicates the Group’s journey towards embedding sustainability in the business and daily operations whilst considering the interests of our stakeholders and business growth. This Statement also sets out KTC’s approach towards sustainable development and management of ESG risks and opportunities, after considering the impact of our business endeavours on the ESG facets the Group interacts with.

### 1.2 SCOPE AND BOUNDARIES

KTC is an investment holding company while our subsidiaries are involved in the distribution of consumer-packaged goods and manufacture of bakery products businesses. The scope of this Statement mainly relates to our Group’s distribution and manufacture businesses in Malaysia and Brunei and where available, this Statement also provides comparative historical data.

### 1.3 REPORTING PERIOD AND CYCLE

This statement describes the Group’s sustainability activities covering both, financial and non-financial aspects for the period from 1 July 2021 to 30 June 2022, and up to the date of this Statement.

### 1.4 GUIDELINES AND STANDARDS

We are pleased to present our sustainability statement prepared in accordance with the Sustainability Reporting Guide (“SRG”) issued by Bursa Securities.

Our Group has considered key sustainability matters as guided and defined by both the Global Reporting Initiative (“GRI”) on Sustainability Standards and SRG.

### 1.5 GOVERNANCE STRUCTURE

The Board of Directors of KTC adopts a sustainability governance approach that is fit for the Group’s purpose, after considering amongst others, our culture, needs, sustainability-related risks and opportunities and level of maturity of the sustainability intellect and readiness.

The diagram below highlights the key roles and responsibilities of KTC in relation to ESG matters:

## 2. MATERIALITY ASSESSMENT PROCESS

### 2.1 OBJECTIVES

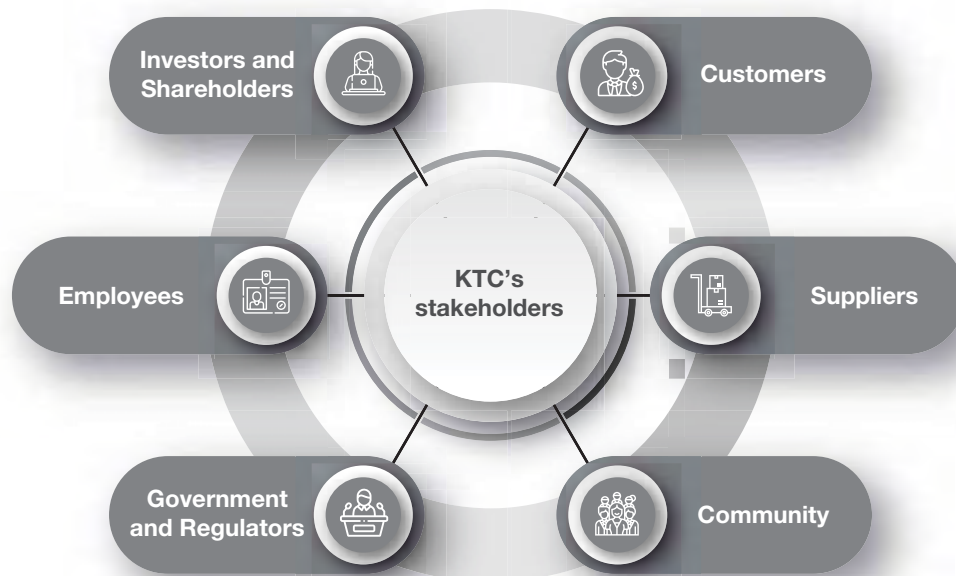

Objectives of the materiality assessment process is to allow KTC to optimise the Group's identification of material sustainability matters with a view to enhance the Group's strategic planning, implementation and business decision-making and to enable stakeholders to make better informed decisions.

The Board considers it appropriate in this regard to limit the scope of materiality assessment and by extension the sustainability disclosure to the active companies within the Group. As the Group endeavours to enhance socioeconomic benefits and create a positive social impact on the immediate communities surrounding its operations in Sabah and Sarawak, the geographical boundary of the Group's materiality assessment is confined within East Malaysia only. The scope within which materiality applies as far as operations are concerned is limited to manufacturing, warehousing and distribution of third-party consumer packaged goods.

### 2.2 STAKEHOLDER ENGAGEMENT

KTC's stakeholders are parties who are impacted by our Group's business decisions and activities and the parties whose actions and decisions will influence KTC's business growth. KTC continuously maintain a regular engagement with its stakeholders, which enables the Group to identify and align their key priorities and concerns within the Group's business practices and strategies towards addressing material sustainability matters.

Set out below are the various types of stakeholder engagements as well as the areas of interest identified together with the appropriate responses to address such interests arising:

## 2. MATERIALITY ASSESSMENT PROCESS (cont'd)

### 2.2 STAKEHOLDER ENGAGEMENT (cont'd)

Based on the interest indication as well as feedback received from KTC’s stakeholder groups during the engagement process, the Group identifies and prioritises issues and matters which are most relevant to each of the stakeholder groups. Each stakeholder group is assessed by the Board based on the influence on the achievement of KTC Group’s strategic objectives and its impact on the Group’s businesses and operations.

With reference to the SRG and in the context of the Group, the prioritised sustainability matters that have been identified are illustrated in the following sections.

### 2.3 PRIORITISATION OF SUSTAINABILITY MATTERS (MATERIALITY ASSESSMENT)

KTC’s Group has identified key sustainability matters that materially impact the Group’s sustainability areas or significantly influence the assessments and decisions of stakeholders. Pursuant to the stakeholders’ engagement as mentioned above together with a desktop review of our Group’s business operations, risks and opportunities, a materiality assessment has been undertaken to identify and prioritise sustainability matters affecting KTC Group’s sustainability goals. Accordingly, the material sustainability initiatives undertaken by KTC Group are illustrated in the diagram below:

The activities undertaken in respect of such initiatives/ matters are set out in the following section.

## 3. SUSTAINABILITY ACTIVITIES

### 3.1 ECONOMIC

#### 3.1.1 Product Quality

KTC's mission is to become an integrated and refocused business, successful and sustainable with stronger client relationships. The need to ensure that our products and services remained aligned and ahead of customers' expectations is paramount, and most importantly our focus is on product quality.

As at 30 June 2022, there is no non-compliance identified or highlighted by the relevant authorities during FYE2022.

KTC is continue committed in its efforts to provide quality assurance as below:

MeSTI Certification	Halal Certification
<p>Food Safety is a key responsibility of the food industry and MeSTI is the minimum Food Safety Assurance Programme that ensures adequate quality control over the processing operations of food manufacturing premises. This is a system of organised practices that is documented and provides the assurance that consumption of any specific type of food will not be harmful to the consumer.</p> <p>MeSTI certificate is granted to Creamos (Malaysia) Sdn Bhd ("CMSB") and Gardenia Bakeries (East Malaysia) Sdn Bhd ("GBSB") by the Ministry of Health Malaysia ("MoH") and the certificates are valid from 19 August 2019 to 18 August 2022.</p> <p>Through MeSTI certification, CMSB is ushered into the development and implementation of the Food Safety Assurance Programme. CMSB has undertaken the responsibility to provide assurance to customers in terms of CMSB's food safety and hygiene practices as well as the handling and preparing of food items.</p>	<p>KTC commenced manufacturing of bakery products in 2014 and holds a Halal certification under Creamos (Malaysia) Sdn Bhd ("CMSB"). CMSB sold its products in Kota Kinabalu and Sandakan, and its products are available at various outlets, including hypermarkets, supermarkets, sundry shops, convenience stores, petrol kiosks, Chinese medical halls and school canteen.</p> <p>In addition, the Halal certificate granted to GBSB and CMSB by Department of Islamic Development Malaysia is valid from 16 September 2020 to 15 September 2022 and 16 October 2020 to 15 October 2022 respectively.</p> <p>Through halal certification, CMSB and GBSB have undertaken the responsibility to ensure and preserve the halal integrity of products by ensuring a controlled quality management system through the supply chain. In addition, CMSB and GBSB also ensures the Company consistently complies with the standards and requirements set by the authority.</p>

#### 3.1.2 Rate of Local Sources

#### 3.1.3 Ethics and Integrity

KTC adopts a zero-tolerance stance against fraud, bribery and corruption. Apart from the Code of Ethics and Conduct, the Group is guided by a set of robust corporate policies that address anti-bribery and corruption and whistleblowing. The Anti-Bribery & Corruption ("ABC") Policy is communicated to employees via various platforms, including our Group's corporate website, training sessions and induction programmes.

Employees are expected to conduct themselves professionally and with integrity and shall not engage in any form of corrupt or illegal acts. Any allegation or suspicion of corruption or illegality is taken seriously, and every employee is to uphold its promulgated business ethics when carrying out their tasks and responsibilities.

In FYE 2022, there was no bribery and corruption case reported and our Group aims to maintain this record by promoting a positive culture of compliance. None of our employees was disciplined or dismissed due to non-compliance with the ABC policy. KTC remains committed towards preserving this record and will continue to uphold high levels of integrity and ethical standards.

Water (m3) per Revenue (RM)	0.000022	0.000015	0.000017	0.000021	0.000017

Our continuous effort in reducing electricity consumption has brought us positive results in the current financial year. The electricity consumption across the Group has reduced from 1,676,175 kWh to 1,232,109 kWh (approximately 26%) while electricity usage per revenue generated has decreased from 0.0025 to 0.0017 indicating more efficient use of electricity.

Water consumption across the Group, has decreased from 14,200 m3 to 11,674 m3 (approximately 18%), mainly due to a decrease in manufacturing activity of bakery products. Water usage per revenue generated for FYE 2022 has further decreased from 0.000021 in FYE2021 to 0.000017 in FYE2022. Moving forward, KTC will continue to undertake enhanced efforts in resource optimisation.

##### Liquefied Petroleum Gas ("LPG") and Natural Gas

Liquefied Petroleum Gas ("LPG") is being regularly used in the production process of our bakery division. Approximately 85,816kgs of LPG were purchased in the current financial year for production usage by Creamos (Malaysia) Sdn Bhd (34% decrease from 130,800kgs of LPG in FYE2021).

##### Liquefied Petroleum Gas (“LPG”) and Natural Gas (cont'd)

The decrease of LPG usage in FY2022 is part of the Group’s efforts to minimise the negative impact on the environment and to raise awareness on the importance of energy conservation.

KTC Group’s Management has progressively replace the use of LPG with natural gas from November 2021, which is a higher quality energy source and is also more efficient and economical for use. The total natural gas usage in FY2022 is approximately 51,529 SM3 (or equivalent to 1,969 MMBTU).

## 4. KEY PERFORMANCE INDICATOR (“KPI”)

As part of our sustainability efforts, the following key performance indicators have been established in order to steer our Group towards its sustainability goals:

## CONCLUSION

The above initiatives demonstrated KTC Group’s commitment towards sustainability and for the betterment of the economy, environment and social aspects of the community it operates in. The journey towards attaining sustainable growth and long-term profitability begins with small steps such as ingraining the principles on sustainability into the Group’s culture, value system and way of doing business. KTC Group remains optimistic that such small steps will eventually lead to the realisation of the Group’s sustainability aspiration and success.

# CORPORATE GOVERNANCE OVERVIEW STATEMENT

The Board of Directors (“Board”) of Kim Teck Cheong Consolidated Berhad (“KTC” or “the Company”) is committed to uphold the high standards of corporate governance throughout KTC and its subsidiaries (“the Group”) with the ultimate objective of realising long-term shareholder value while taking into account the interest of other stakeholders. This Corporate Governance Overview Statement sets out the extent to which the Company has applied the practices encapsulated in the Principles of the Malaysian Code on Corporate Governance (“MCCG”) except where stated otherwise.

Details of the Group’s application of each practices set out in the MCCG are disclosed in the Corporate Governance Report, which is available on the Group’s website at [www.kimteckcheong.com](http://www.kimteckcheong.com).

## PRINCIPLE A - BOARD LEADERSHIP AND EFFECTIVENESS

### I. Board Responsibilities

#### Board Charter and Board Committees

The Board is responsible and is accountable to shareholders for managing the business of the Group. The Board retains full and effective controls of the Company and is committed to take full responsibility for the overall corporate governance of the Group, including its strategic business direction and overall wellbeing.

The Board has retained for itself decisions in respect of matters significant to the Group’s business operations which include the approval of key corporate plans, major business transactions involving either the acquisitions or disposal of business, interests and/or assets, consideration of significant financial matters and announcements of financial results, appointments to the Board and control structure within the Group.

In performing its duties, the Board is guided by the Board Charter that sets out amongst others its roles, composition, responsibilities, powers, board committees and board meeting procedures. The key elements of governance principles embedded in the Board Charter regulate the Board’s conducts and guide the business strategic initiative of the Group. The Board Charter is available on the Company’s website at [www.kimteckcheong.com](http://www.kimteckcheong.com).

The Board has established three (3) Board Committees, namely Audit and Risk Management Committee, Nomination Committee and Remuneration Committee that are delegated with specific responsibilities and authorities to assist the Board in executing its duties and to provide the Board with recommendations and advice. The delegation of authority to the Committees enables the Board to achieve operational efficiency, by empowering each Committee to review, report and make recommendations to the Board on matters relevant to their roles and responsibilities. Each Committee is governed by its own Terms of Reference which sets out its functions and duties, composition, rights and meeting procedures. These Terms of Reference are reviewed periodically in accordance with the needs of the Company and taking into account the changes in the business, governance and legal environment that may have an impact on the discharge of the Committees’ duties and responsibilities.

The Chairman of the various committees will report to the Board the outcome of the Committee meetings which will be recorded in the minutes of the Board meeting. The ultimate responsibility for decision making, however, lies with the Board.

#### Company Secretary

The Board is assisted by a qualified and competent Company Secretary who is a Fellow member of the Malaysian Institute of Chartered Secretaries and Administrators. The Company Secretary provides support to the Board in carrying out its fiduciary duties and stewardship role in shaping the standard of corporate governance of the Group. In this respect, she plays an advisory role to the Board, particularly with regards to the Company’s Constitution, Board’s policies and procedures as well as its compliance with regulatory requirements, codes, guidelines, legislations and the principles of best corporate governance practices.

The Company Secretary also attends all Board, Board Committee and general meetings, and ensure that deliberations at the meetings are accurately minuted and kept in the minutes books and subsequently communicated to the relevant party for necessary actions. Such minutes of meetings are confirmed by the respective Board Committees and signed by the Chairman of the meeting.

All Directors have unrestricted access to the advice and services of the Company Secretary for the purposes of the Board’s affairs and the business of the Group.

## PRINCIPLE A - BOARD LEADERSHIP AND EFFECTIVENESS *(cont'd)*

### I. Board Responsibilities *(cont'd)*

#### Information and support for Directors

In order to manage the Group's business effectively, the Board meets on a quarterly basis to review the Group's financial and operational results, major investments, report from various Board Committees, related party transactions, strategic decisions and the overall direction of the Group. Additional meetings may be convened when urgent and important decision needs to be taken between the scheduled meetings. All the Directors had committed their time to the board meetings held during the financial year. Prior to the meetings, notice of agenda together with previous minutes and other relevant information were circulated to all directors on a timely basis in order to enable the directors to be well informed and briefed before the meetings.

Besides board meetings, the Board also exercises control on matters that require its approval through the circulation of resolutions.

All the Directors have full and free access to all relevant Company's information, access to management and may obtain independent professional advice at the Company's expense that are deemed necessary to carry out their duties, subject to prior consultation with the Chairman.

The External Auditors also briefed the Board members on the latest Malaysian Financial Reporting Standards that would affect the Group's financial statements during the year.

#### Code of Conduct and Ethics

Good governance at all levels is essential for sustainable development. The Board is committed to embrace the highest standards of corporate governance practices and ethical standards throughout the Group.

In this respect, the Group has established a Code of Ethics and Code of Conduct to provide direction and guidance to all Directors, Senior Management, employees and external parties in the discharge of their duties and responsibilities that will be in the best interest of the Group. The Code of Ethics and Conduct had been uploaded on the Company's website at [www.kimteckcheong.com](http://www.kimteckcheong.com).

#### Whistle-blowing Policy

The Board is committed to achieve and maintain high standards of corporate governance practices across the Group. A Whistle-blowing policy has been implemented to provide a channel to enable Directors, Employees, Shareholders, Vendors or any parties with a business relationship with the Group with an avenue to report suspected wrongdoings that may adversely impact the Group. The Company treats all reports in a confidential manner and at the same time provides protection to anyone who reports such concerns in good faith.

Further details pertaining to the Whistle-blowing Policy can be found at the Company's website.

### II. BOARD COMPOSITION

The Board recognizes the importance of having a diverse Board in terms of age, ethnicity and gender as this provides the necessary range of perspectives, experience and expertise in bringing value to the Company and achieve effective stewardship.

The present Board, comprises eight (8) Directors i.e. one (1) Independent Non-Executive Chairman, Three (3) Independent Non-Executive Directors, three (3) Non-Independent Executive Directors and One (1) Non-Independent Non-Executive Director.

The Executive Directors are responsible for the making of the day-to-day business and operational decisions and implementation of Board policies. There is a clear division of duties and responsibilities amongst them in order to maintain a balance of control, power and authority within the Management.

# CORPORATE GOVERNANCE OVERVIEW STATEMENT

(cont'd)

## PRINCIPLE A - BOARD LEADERSHIP AND EFFECTIVENESS (cont'd)

### II. BOARD COMPOSITION (cont'd)

The Independent Non-Executive Directors are responsible in exercising independent judgement and to act in the best interests of the Group in ensuring that decisions made by the Board are deliberated fully and objectively with regard to the long-term interest of all stakeholders. They have declared themselves to be independent from management and free of any relationship which could interfere with the exercise of their independent judgement and objective participation and decision making process of the Board.

The Board is confident that its current size and composition reflects an appropriate balance of Executive and Non-Executive Directors which is adequate for the scope and nature of the Group's business and operations.

In compliance with the recommendations of Malaysian Code On Corporate Governance, all of the Independent Directors of the Company has tenure not exceeding a cumulative term of nine (9) years.

#### Diversity on Board and Senior Management

The Board and the Nomination Committee take into account the current diversity in the skills, experience, age, race/ethnicity (cultural background) and nationality of the existing Board in seeking potential candidate(s). The Committee has the responsibility to ensure that the Board comprises suitably qualified members that demonstrate appropriate qualities and experience that contribute to the effective oversight and stewardship.

The Board is of the view that the existing composition of the Board enables effective oversight, delegation of responsibilities and productive discussions amongst members of the Board.

#### Gender Diversity

The Board has no specific policy on gender, age and ethnicity for candidates to be appointed to the Board. The evaluation of the suitability of candidates is based on the candidates' competency, character, time commitment, integrity and experience in meeting the needs of the Company.

The Nomination Committee, will however continue to take steps to ensure that gender, age and ethnicity of the candidates will be taken into consideration as part of its recruitment exercise.

#### Nomination Committee

The Board has established a Nomination Committee to provide advice and assistance to the Board in matters relating to appointment of new Directors, board composition, training program and performance evaluation on effectiveness of the Board, Board Committees and individual directors. Full details of the Nomination Committee's duties and responsibilities are stated in its Term of Reference which is available on the Company's website.

The Nomination Committee comprises exclusively of Independent Non-Executive Directors and chaired by the Independent Director. The Committee meets as and when required, at least once a year. During the financial year, one (1) meeting was carried out, with attendance as follows:

Name of Directors	Designation	No. of Meetings Attended

## PRINCIPLE A - BOARD LEADERSHIP AND EFFECTIVENESS *(cont'd)*

### II. BOARD COMPOSITION *(cont'd)*

#### Nomination Committee *(cont'd)*

During the financial year, the Nomination Committee had carried out the following activities:

- (a) Assessed the performance of the Board, Board Committees and individual Director, including the term of office and performance of the Audit and Risk Management Committee and each of its members;
- (b) Assessed the independence of all three (3) Independent Directors;
- (c) Reviewed the performance of retiring Directors and recommended them to the Board for re-election at the forthcoming AGM;
- (d) Reviewed the size of the Board against the size of the Group and the complexity of the business to assess the impact of the number upon its effectiveness;
- (e) Ensure all Directors receive appropriate continuous training programmes.

#### Evaluation of Board, Board Committees and Individual Directors

The Nomination Committee annually performs a board self-evaluation to evaluate the performance of the Board, Board Committees and individual Directors, in order to verify that the Board is operating effectively and efficiently as a whole. Each Director completed a detailed questionnaire in the Directors' Performance Evaluation which covered matters relevant to the Board performance, among other things, contribution to interaction, quality of input, understanding of role and personal developments. An evaluation of each Board Committee was done by assessing the structure, roles and responsibilities, performance of the respective Chairman, as well as Committee's performance against its Term of Reference. The assessment was internally facilitated, whereby results of the assessments had been compiled, documented and reported to the Board accordingly, as part of the Company's ongoing corporate governance practices.

Based on the assessment carried out during the financial year, the Nomination Committee had concluded the following:

- (a) The Board was found to be competent and had a dynamic and balanced mix of skills and experience wherein the Directors were able to contribute effectively to the Board's decision-making process.
- (b) The current structure, size and composition of the Board, which comprises people who possess a wide range of expertise and experience in various fields with diverse backgrounds and specialisations, would enable the Board to lead and manage the Company effectively.
- (c) The Directors had discharged their responsibilities in a commendable manner, acted competently, contributed effectively to the Board and demonstrated full commitment to their duties as Directors.
- (d) The Board and Board Committees had contributed positively to the Company and its subsidiaries and were operating in an effective manner.
- (e) The Board Chairman had performed in an excellent manner and contributed to the Board.
- (f) The performances of the Board Committees were found to be effective.

The Board recognises the importance of continuous training to remain abreast of the latest developments in related industry and changes to the regulatory environment. The assessment on individual directors also provided the Board with valuable insights into training and development needs of each Director, to ensure that each Board member's contribution to the Board remains informed and relevant.

### III. REMUNERATION

#### Remuneration Policy

The Board has recognized the need to establish a fair and transparent Remuneration Policy with the objective to guide the Group in attracting, retaining and motivating highly qualified individuals to serve on the Board and key senior management. On a yearly basis, the Remuneration Committee reviewed and recommended to the Board the remuneration packages of the Executive Directors, while the remuneration for the Non-Executive Directors was determined by the Board as a whole. Fees and benefits payable to the Directors are subject to approval by the shareholders at the Company's AGM. The affected Directors had abstained from participation in deliberations and decisions regarding their individual remuneration.

In making its recommendation, the Remuneration Committee considered the principles set out in the Remuneration Policy. The remuneration was structured to align rewards to corporate and individual performances besides adequately compensate the Directors for risks and complexities of the duties and responsibilities they assumed. The Remuneration Committee also obtained data for similar roles of other public listed companies in the same industry for comparison.

All Executive Directors and key Senior Management are subject to an annual performance rating which serves as a basis to determine their variable compensation payments. The Remuneration Policy also covers bonus framework for the Executive Directors and key Senior Management, which link their appraisal process to specific reward and incentive outcomes. The appraisal process will assess the individual performance against the Key Performance Indicator targets and competency capability in meeting the Group's core values and Leadership and Management Expectations.

#### Remuneration Committee

The Remuneration Committee was established to assist the Board in developing remuneration policies and procedures that enable the Group to attract, motivate and retain qualified Directors and key Senior Management personnel. Full details of the functions and duties of the Remuneration Committee are stated in its Term of Reference which is available on the Company's website.

Majority of the Remuneration Committee Members are Independent Non-Executive Directors. During the financial year, one (1) meeting was carried out with attendance as follows:

Name of Directors	Designation	No. of Meetings Attended
Wong Wen Miin	Chairperson	1/1
Y. Bhg. Datuk Lau Koh Sing @ Lau Kok Sing	Member	1/1
Phang Sze Fui	Member	1/1

The responsibilities of Remuneration Committee are as follows:

- Reviewed and assessed the performance and the remuneration package of the Executive Directors and key Senior Management;
- Reviewed and assessed the Directors' fees and benefits payable for the Financial Year Ended 30 June 2022;
- Reviewed and updated its Term of Reference;
- Reviewed the Board Remuneration Policy; and
- Provide clarification to shareholders during general meetings on matters pertaining to remuneration of directors and senior management.

## PRINCIPLE B - EFFECTIVE AUDIT AND RISK MANAGEMENT

### I. Audit and Risk Management Committee

The Audit and Risk Management Committee consists of the following members:

Name of Directors	Designation
Phang Sze Fui	Chairperson
Wong Wen Miin	Member
Y. Bhg. Dato' Mohd Ibrahim Bin Mohd Nor	Member

The Chairman of the Audit and Risk Management Committee is not the Chairman of the Board. In addition, the Audit and Risk Management Committee comprises wholly of Independent Non-Executive Directors. The Audit and Risk Management Committee Report is set out separately in this Annual Report. Full details of the Audit and Risk Management Committee's duties and responsibilities are stated in its Terms of Reference which is available on the Company's website.

#### Oversight of External Auditors

The external auditors of the Company fulfill an essential role in giving assurance to the Company's shareholders on the reliability of the Group's financial statements.

The Audit and Risk Management Committee reviews the independence, performance and remuneration of the External Auditors before recommending them to the shareholders for re-appointment in the AGM on an annual basis. The External Auditors would provide written assurance to the Board in respect of its independence to act as the External Auditors of the Group. The Audit and Risk Management Committee would convene a private session with the External Auditors and Internal Auditors without the presence of the Executive Directors and Management. During the Financial Year Ended 30 June 2022, the Audit and Risk Management Committee had conducted private sessions with the External Auditors without the presence of the Executive Directors and Management.

Details of the audit and non-audit fees paid/payable for the Financial Year Ended 30 June 2022 are as follows:

	Group (RM)	Company (RM)
Statutory audit fees paid/payable	251,221	35,000
Non-audit fees paid/payable	83,900	10,700

The full details of the role of the Audit and Risk Management Committee in relation to the External Auditors is set out in the Audit and Risk Management Committee Report of this Annual Report.

### II. Risk Management and Internal Control Framework

The Board acknowledges that risk management and internal control system are an integral part of effective management practice. As risk is inherent in all business activities, hence it is not the Group's objective to eliminate risk totally. There is an on-going process in place to identify, evaluate, monitor and manage key risks faced by the Group and the Board reviews the key risks highlighted to ensure the relevant action is taken to mitigate the risk of the Group to safeguard shareholders' investment and Group's assets.

The Board is assisted by the Risk Management Committee to ensure the risk and control framework is embedded into the culture, processes and structure of the Group.

Further details of the Group's state of risk management and internal control systems are reported in the Statement of Risk Management and Internal Control of this Annual Report.

#### Internal Audit function

The Board has established an Internal Audit function and appointed RESOLVE IR SDN BHD as the Outsourced Internal Auditor. Functionally, the Internal Auditor reports to the Audit and Risk Management Committee directly and RESOLVE IR SDN BHD is responsible for conducting periodic reviews and appraisals of the effectiveness of the governance, risk management and internal control processes within the Group.

The scope of work covered by the internal audit function during the financial year, summary of activities carried out, including its observations and recommendations, are provided in the Statement on Risk Management and Internal Control and Audit and Risk Management Committee Report of this Annual Report.

## PRINCIPLE C - INTEGRITY IN CORPORATE REPORTING AND MEANINGFUL RELATIONSHIP WITH STAKEHOLDERS

### I. Engagement with Stakeholders

The Company refers to ACE Market Listing Requirements of Bursa Securities as a fundamental basis for the ongoing disclosure and announcement to Bursa Securities. The Board is advised by Management, Company Secretaries, the External Auditors and Advisors on the contents and timing of disclosure of the financial results and various announcements in accordance with the listing requirements.

The Board is committed in providing accurate, useful and timely information about the Company, its business and its activities. Realising the importance of timely and thorough dissemination of material information to the shareholders, investors and the public at large, the Company maintains an open communication policy with its shareholders, investors and public at large and welcome feedback from them.

The Group's information is disseminated through various disclosures and announcements made to Bursa Malaysia Securities Berhad. This information is also published at the Company's website at [www.kimteckcheong.com](http://www.kimteckcheong.com).

#### Integrated Reporting

The nature and pace of change in businesses today have evolved over time and stakeholders are now placing greater emphasis on the future performance and non-financial information of a company. In tandem with the growing demand, the Company would consider adopting integrated reporting in the near future; as such integrated reporting is still new in the current market.

### II. Conduct of General Meetings

#### Notice of general meeting

The Board recognises the rights of shareholders. In order to continue encouraging shareholders participation in the general meetings, the Board would ensure that the Notice of AGM is sent to shareholders at least twenty-eight (28) days ahead of the date of general meeting and to provide sufficient time and opportunities for shareholders to seek clarifications during general meetings on any matters pertaining to the issues in the Annual Report, corporate developments in the Group, the resolutions being proposed and the operational and financial performance of the Company.

## PRINCIPLE C - INTEGRITY IN CORPORATE REPORTING AND MEANINGFUL RELATIONSHIP WITH STAKEHOLDERS (cont'd)

### II. Conduct of General Meetings (cont'd)

#### Attendance of directors at general meetings

The Annual General Meeting is the key element of the Company's dialogue with its shareholders. During the AGM, shareholders are encouraged to ask questions about the resolutions being proposed, about the Company's operations in general or about the annual reports of the Company and of the Group. All the Directors, Senior Management and External Auditors are available in the Annual General Meeting to provide responses to questions from the shareholders.

The Chairman plays a vital role in fostering constructive dialogue between the Board and the shareholders. All the members of the Board and the respective chairman of the Board's Committees are present at the meetings to address queries raised by the shareholders which are relevant to their areas of responsibility.

#### Voting

Effective 1 July 2016, Paragraph 8.31(A) of the ACE Market Listing Requirements provides that any resolution set out in the notice of any general meeting, or in any notice of resolution which may properly be moved and is intended to be moved at any general meeting, shall be voted by poll. Furthermore, at least one (1) scrutineer will be appointed to validate the votes cast at the General Meeting who must not be an officer of the Company or its related corporation, and must be independent to the person undertaking the polling process.

## COMPLIANCE STATEMENT

The Board is satisfied that the Group has substantially complied with the majority of the practices of the Malaysian Code On Corporate Governance throughout the financial year. In pursuit of safeguarding the interest of the shareholders and other stakeholders, the Board is committed and will continue to strengthen its application of the best practices in corporate governance.

This Corporate Governance Overview Statement is made in accordance with the resolution of the Board of Directors dated 27 October 2022.

# REPORT OF THE AUDIT AND RISK MANAGEMENT COMMITTEE

## AUDIT AND RISK MANAGEMENT COMMITTEE REPORT

The Board is pleased to present the report on the Audit and Risk Management Committee (“ARMC”) of the Board for the Financial Year Ended 30 June 2022. The ARMC was established on 3 December 2014 by the Board to assist the Directors to carry out their responsibilities. The ARMC is guided by its Terms of Reference as approved by the Board. The ARMC a combined Audit Committee supports and assumes the oversight function in governance, risk management and internal control hence Risk Management Committee was established. In carrying out their duties, the ARMC updated the Board on the issues and concerns discussed during their meetings including those raised by the auditors and where appropriate, made the necessary recommendations to the Board and shall continue to do so from time to time. The ARMC had private meetings with the External Auditors and Internal Auditors respectively. The ARMC had deliberated at length the Audit Review Memorandum and Internal Audit Reports presented by the External Auditors and Internal Auditors respectively as part of the ongoing process to strengthen the internal control system and financial reporting framework. The Company Secretary acts as the secretary to the ARMC and circulates the minutes of the Audit Committee Meetings to all members of the Audit Committee. The Chairperson of the ARMC presents the Committee’s findings after their deliberation to the Board. The ARMC would also update the progress and status of recommendations of the internal audit findings to the Board on quarterly basis.

## MEMBERSHIP AND MEETINGS

ARMC members and details of their attendance at ARMC meetings held during the financial year are as follows:

Name of the Committee Members	Designation	No. of Meetings Attended
Phang Sze Fui	Chairperson	5/5
Wong Wen Miin	Member	5/5
Y. Bhg. Dato’ Mohd Ibrahim Bin Mohd Nor	Member	4/5

The Group Chief Financial Officer (“CFO”) was invited to all ARMC meetings to facilitate direct communication in relation to the Group financial results and to provide information regarding the Group’s Risk Management activities. The Internal Audit, relevant members of Management, and the External Auditors were also invited to attend the meetings of the Committee, where appropriate, to brief the ARMC on the relevant audit findings.

The ARMC held one (1) private meeting with the External Auditors in Financial Year Ended 30 June 2022 without the presence of the Management. At these meetings, the ARMC enquired about Management’s co-operation with the external auditors, their sharing of information and the competencies and adequacy of resources in the financial reporting functions.

The ARMC Chairperson also permitted the External Auditors to contact ARMC at any time that they became aware of incidents or matters in the course of their audits or reviews that needed the attention ARMC or the Board. No such contacts were made during Financial Year Ended 30 June 2022.

Minutes of each ARMC meeting were recorded and tabled for confirmation at the following ARMC meeting and subsequently presented to the Board for notation.

# REPORT OF THE AUDIT AND RISK MANAGEMENT COMMITTEE

(cont'd)

## SUMMARY OF ACTIVITIES

The ARMC reports regularly to the Board on its activities, deliberations and recommendations in discharging its duties and responsibilities, which the Committee has reviewed to ensure it is in line with the Ace Market Listing Requirements of Bursa Securities.

The main activities undertaken by the ARMC during the financial year are as below:

### Risk Management and Internal Control

- Reviewed the internal audit plan for adequacy of scope and coverage and risk areas using the risk-based approach.
- Reviewed the risk assessment results and the mitigation actions reported by Internal Auditor and regularly review the update on the action plans to ensure significant internal controls are promptly implemented to mitigate the risks identified.
- Reviewed the effectiveness and adequacy of governance, risk management, operational and compliance processes.
- Reviewed the adequacy and effectiveness of corrective actions taken by Management on all significant matters raised.
- Continuously monitored whistleblowing program and procedures as part of the risk management structure and good corporate governance practice.

### External Audit

- Reviewed and discussed with the external auditors' audit planning memorandum covering audit scope, audit plan, key audit areas and proposed fees for the statutory audit and other non-audit services based on the external auditors' presentation of the audit strategy and plan to ensure that their scope of work adequately covered the activities of the Group.
- Reviewed and approved the external auditor's audit plan and the scope for the annual audit.
- Reviewed and discussed with the external auditor on the audit results, audit reports and financial statements of the Group.
- Met with the external auditors without the presence of Executive Directors and Management.

### Financial Results

- Reviewed the quarterly and annual financial statements of the Company and Group, including announcements, and recommended them to the Board for approval.
- Reviewed the quarterly unaudited financial results of the Company for Financial Year Ended 30 June 2022 together with the CFO, focusing particularly on significant changes to accounting policies and practices, significant or unusual events, compliance with accounting standards and other legal requirements, and the going concern assumption prior to recommending the same to the Board of Directors for approval and release to Bursa Securities.

### Related Party Transactions

Reviewed any related party transaction and conflict of interest situation that may arise within the Company or its Group including any transaction, procedure or course of conduct that raises questions of management integrity (where applicable).

### Others

- Review the quality of the internal audit function.
- Reviewed the Incident Reports by the CFO on a quarterly basis.

## INTERNAL AUDIT FUNCTION

Internal audit function constitutes part of KTC Group's assurance mechanism which serves to review the Group's system of internal control. The internal audit function is guided by a formal Term of Reference and reports independently to the ARMC. The role of the internal audit function is to undertake independent, objective, regular and systematic reviews of the systems of internal controls and governance practices of the Group so as to provide reasonable assurance that such systems continue to operate effectively in managing the Group's risk.

The Group's internal audit function has been outsourced to an independent professional services firm, namely Resolve IR Sdn Bhd ("RESOLVE"). RESOLVE has confirmed that they are free from any relationship or conflict of interest position which would impair their independence and objectivity in the conduct of their roles and responsibilities.

The outsourced internal audit function has carried out independent internal audits in accordance with the approved risk-based internal audit plan and was guided by the International Professional Practice Framework ("IPPF") issued by the Institute of Internal Auditors.

During the Financial Year Ended 30 June 2022, the outsourced internal audit function has carried out internal audits on the following processes:

- Credit Control and Collection, and Sales and Marketing of Kim Teck Cheong (Sarawak) Sdn Bhd;
- Inventory and Merchandising Management of Kim Teck Cheong Sdn Bhd;
- Inventory Management of Gardenia Bakeries (East Malaysia) Sdn Bhd; and
- Production Planning of Creamos (Malaysia) Sdn Bhd.

Results of the abovementioned internal audits, including the relevant audit findings, improvement opportunities, as well as Management responses and appropriate recommendations with the areas mentioned above were documented in the internal audit report to the Audit Committee. Follow-up reviews were conducted to assess the implementation of action plans provided by Management in accordance with the timeline specified. The total cost incurred on the internal audit function of the Group for the Financial Year Ended 30 June 2022 was approximately RM40,000.

# STATEMENT OF RISK MANAGEMENT AND INTERNAL CONTROL

## INTRODUCTION

Pursuant to Paragraph 15.26(b) of the ACE Market Listing Requirements (ACE LR) of Bursa Malaysia Securities Berhad (“Bursa Securities”) and the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers, the Board is pleased to present the Statement on Risk Management and Internal Control for the Financial Year Ended 30 June 2022, which outlines the nature and scope of risk management and internal control of the Group during the financial year under review and up to the date of approval of this statement for inclusion in the annual report.

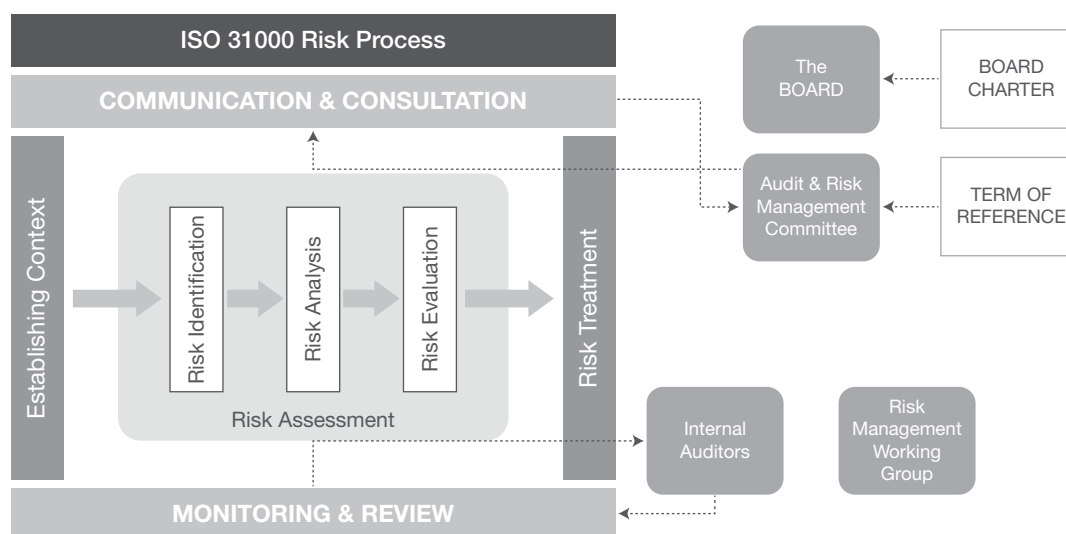

## RESPONSIBILITY OF THE BOARD

The Board, in maintaining its commitment towards a sound risk management and effective internal control system, continuously reviews and evaluates the adequacy and integrity of the Group risk management and internal control systems. The Board acknowledges its overall responsibility for maintaining the Group’s internal control system the objectives of safeguard shareholders’ investment and the Group’s assets, and to discharge their stewardship responsibilities in identifying and reviewing risks and ensuring the implementation of appropriate internal control system to manage these risks.

Notwithstanding the above, the Board recognises that such system has inherent limitations as it is designed to manage and control, rather than eliminate the risks of failure towards achieving the Group’s business objectives. Therefore, such system of internal control can only provide reasonable, but not absolute, assurance against the occurrence of any material misstatement and loss.

## RISK MANAGEMENT FRAMEWORK

The Board understands the principal risks of the business that the Group is involved in and accepts that business decisions require balancing of risk and return in order to facilitate the achievement of business objectives. Risk management framework remains an integral part of the Group’s arsenal of risk management tools, especially in the assessment, mitigation and monitoring of inherent and emerging risks to safeguard the interests of the Group. KTC continues to apply the ISO 31000 risk management process that was adopted in the previous year. Within such framework, the Group has an established and structured process for the identification, assessment, communication, monitoring as well as continual review of risks and effectiveness of risk mitigation strategies and controls at the entity and operational levels.

# STATEMENT OF RISK MANAGEMENT AND INTERNAL CONTROL

(cont'd)

## RISK MANAGEMENT FRAMEWORK *(cont'd)*

The ARMC and the Board continue to set the strategic direction for risk management, roles and responsibilities as well as risk reporting structures. The periodic reporting to both the ARMC and the Board on risk management activities undertaken by Management keeps the ARMC and the Board informed and advised on all aspects of risks of the business.

The risk management process implemented within the Group continues to define, highlight, report and manage the key business and operational risks faced by the businesses within the Group. The risk management process applies to all levels of activity in the Group, with the objective of establishing accountability for both risks and mitigation at the sources of risk.

During the Financial Year Ended 30 June 2022, the ARMC has engaged an outsourced professional service provider to facilitate the Group's Risk Assessment ("GRA") updates. Result of GRA updates and the updated key risks profiles were presented to the ARMC and subsequently to the Board.

On a periodic basis, the ARMC and the Board reviews the Group's enterprise risk management framework, system and processes with a view to ensure the adequacy and effectiveness of the Group's risk management framework.

## INTERNAL CONTROL

The Board recognises the importance of internal control system which is designed to manage and reduce risks that will hinder the Group from achieving its objectives. The internal control system is embedded within the Group's operations and incorporated for effective control and monitoring. The Group's internal audit function ("IAD") is outsourced to a professional services firm to assist the ARMC in undertaking independent reviews on the adequacy and effectiveness of the Group's system of internal control.

The outsourced IAD has a clear line of reporting to the ARMC and the ARMC determines the remit of the outsourced IAD. Regular audit reviews on the key business processes of the Group are conducted in accordance with the internal audit plan approved by the ARMC. Reports on the reviews conducted, incorporating management's responses and actions plans, are tabled to the ARMC at least on a quarterly basis for their attention. Follow-up reviews on the implementation status of Management's action plans are carried out to ensure that any internal control deficiencies or weaknesses highlighted have been addressed on a timely basis.

During the current financial year, the following audit reviews were conducted:

Business Entities	Business Processes	Month
Kim Teck Cheong (Sarawak) Sdn. Bhd.	Credit Control and Collection, Sales and Marketing	November 2021
Kim Teck Cheong Sdn. Bhd.	Inventory and Merchandising Management	February 2022
Gardenia Bakeries (East Malaysia) Sdn. Bhd.	Inventory Management	May 2022
Creamos (Malaysia) Sdn. Bhd.	Production Planning	May 2022

As part of its broader effort to ensure adequate system of check and balance are operating as designed, the IAD, which is independent of Management and operations, provides assurance on the adequacy and integrity on the system of internal control of the Group. Based on the internal audit reviews conducted, none of the weaknesses noted has resulted in any material losses, contingencies or uncertainties that would require a separate disclosure in this annual report.

In addition to the internal audit function, the ARMC also receives report and management letter from the external auditors that primarily focus on financial controls. Where there are incidents of non-compliances or deficiencies, appropriate corrective actions have been taken and relevant procedures have been introduced.

The ARMC reviews any internal control issues identified by the IAD, the external auditors, regulatory authorities and Management, and evaluate the adequacy and effectiveness of the risk management and internal control systems. The ARMC also reviews the internal audit function and quality of internal audits.

# STATEMENT OF RISK MANAGEMENT AND INTERNAL CONTROL

(cont'd)

## ASSURANCE STATEMENT BY KEY MANAGEMENT TEAM

The Board has received assurance from the Executive Director stating that the Group's risk management and internal control systems have operated adequately and effectively, in all material aspects, for the Financial Year Ended 30 June 2022 and up to the date of this Statement.

## REVIEW OF THIS STATEMENT BY EXTERNAL AUDITORS

As required by Paragraph 15.23 of the ACE LR, the external auditors have reviewed this Statement on Risk Management and Internal Control. Their review was performed in accordance with AAPG3, Guidance for Auditors on Engagements to Report on the Statement on Risk Management and Internal Control, issued by the Malaysian Institute of Accountants.

The external auditors have reported to the Board that nothing has come to their attention that causes them to believe that this Statement is inconsistent with their understanding in all material aspects that the Board has adopted in the review of the adequacy and integrity of internal control of the Group, or is factually inaccurate.

## CONCLUSION

The Board is satisfied that the risk management framework and internal control system of the Group are effective and adequate. The Board shall remain committed in ensuring that appropriate initiatives are taken to enhance these systems in order to safeguard stakeholders' interest and the Group's assets.

This Statement on Risk Management and Internal Control is made in accordance with a resolution of the Board of Directors dated 27 October 2022.

## OPTIONS GRANTED OVER UNISSUED SHARES

No options were granted to any person to take up unissued shares of the Company during the financial year.

## OTHER STATUTORY INFORMATION

Before the financial statements of the Group and of the Company were made out, the Directors took reasonable steps to ascertain that:

- (i) all known bad debts had been written off and adequate allowance had been made for doubtful debts; and
- (ii) all current assets have been stated at the lower of cost and net realisable value.

At the date of this report, the Directors are not aware of any circumstances:

- (i) which would render the amount written off for bad debts, or the amount of the allowance for doubtful debts in the financial statements of the Group and of the Company inadequate to any substantial extent; or
- (ii) which would render the value attributed to the current assets in the financial statements of the Group and of the Company misleading; or
- (iii) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate; or
- (iv) not otherwise dealt with in this report or the financial statements, which would render any amount stated in the financial statements of the Group and of the Company misleading.

As at the date of this report, there does not exist:

- (i) any charge on the assets of the Group and of the Company that has arisen since the end of the financial year which secures the liabilities of any other person except as disclosed in the financial statements; or
- (ii) any contingent liability in respect of the Group and of the Company that has arisen since the end of the financial year.

No contingent liability or other liability of the Group and of the Company has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may substantially affect the ability of the Group and of the Company to meet their obligations as and when they fall due.

In the opinion of the Directors, the financial performance of the Group and of the Company for the financial year ended 30 June 2022 have not been substantially affected by any item, transaction or event of a material and unusual nature nor has any such item, transaction or event occurred in the interval between the end of the financial year and the date of this report.

### Opinion

We have audited the financial statements of KIM TECK CHEONG CONSOLIDATED BERHAD, which comprise the statements of financial position as at 30 June 2022 of the Group and of the Company, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 67 to 133.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 30 June 2022, and of their financial performance and their cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards (MFRS), International Financial Reporting Standards (IFRS) and the requirements of the Companies Act, 2016 in Malaysia.

### Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### *Independence and Other Ethical Responsibilities*

We are independent of the Group and of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current financial year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## Key Audit Matters (cont'd)

We have determined the matters described below to be the key audit matters to be communicated in our report.

Area of focus	How our audit addressed the key audit matter
<b>Group</b>	
<b>Impairment assessment of goodwill</b>	
<p>As disclosed in Note 16 to the financial statements, the Group has significant balances of goodwill. In accordance with paragraph 10 of MFRS 136 <i>Impairment of Assets</i>, an intangible asset with an indefinite useful life is required to be tested for impairment annually by comparing its carrying amount with its recoverable amount, irrespective of whether there is any indication that it may be impaired.</p> <p>Significant judgements arise over the discount rates applied in the recoverable amount calculation and assumptions supporting the underlying cash flow projections, including forecast annual sales and net profit margin.</p>	<p>Our audit procedures focus on evaluating the cash flow projections and the Group's projection procedures which included, among others:</p> <ul style="list-style-type: none"> <li>• comparing and assessing the Group's assumptions in relation to key inputs such as discount rates, forecast annual sales and net profit margin;</li> <li>• testing the mathematical accuracy of the impairment assessment; and</li> <li>• performing stress test and sensitivity analysis around the key inputs that are expected to be most sensitive to the recoverable amount.</li> </ul>
<b>Existence and valuation of inventories</b>	
<p>As disclosed in Note 4(j) to the financial statements, the valuation of the Group's inventories is stated at the lower of cost or net realisable value. The assessment of slow moving inventories is mainly based on Directors' estimates.</p> <p>We focused on the existence and valuation of inventories due to the significance of the value of inventories amounted to RM82,399,868 which represents 25% of the Group's total assets and the multiple locations in which the inventories are located.</p>	<p>Our audit procedures included, among others:</p> <ul style="list-style-type: none"> <li>• attending year end physical inventory count to observe physical existence and condition of the inventories during the count;</li> <li>• reviewing inventories ageing analysis, and assessing the right to return of expired inventories and adequacy of allowance for slow moving inventories by the management;</li> <li>• examining cost of the inventories to invoices issued by the suppliers to ascertain the costing of the inventories are computed based on the accounting policy adopted; and</li> <li>• reviewing selling price of the inventories to invoices issued and evaluating whether the inventories have been written down to their net realisable value for inventory items with net realisable value lower than their cost on selected inventory items.</li> </ul>

## Key Audit Matters *(cont'd)*

Area of focus	How our audit addressed the key audit matter
<b>Group</b>	
<b>Valuation of trade receivables</b>	
<p>As disclosed in Note 19 to the financial statements, the Group has trade receivables amounted to RM91,608,730 which represents 28% of the Group's total assets and is exposed to significant credit risk arising from its trade receivables. Furthermore, the expected credit losses of trade receivables are subject to significant estimation uncertainties in analysing historical bad debts, customer creditworthiness and customer payment terms.</p>	<p>Our audit procedures included, among others:</p> <ul style="list-style-type: none"> <li>• understanding of the Group's control over the receivable collection process and significant credit exposures which were deemed to be in default through analysis of ageing reports and other collection reports prepared by the Group;</li> <li>• obtaining confirmation of balances from selected samples of receivables;</li> <li>• reviewing subsequent receipts, customer correspondence, and considering level of activity with the customer and management explanation on recoverability with significant past due balances;</li> <li>• assessing the basis of computation of provision of expected credit losses by the management and reasonableness of the assumptions and input data used;</li> <li>• reviewing the ageing analysis of receivables and testing the reliability thereof;</li> <li>• making enquiries of management regarding the action plans to recover overdue amounts; and</li> <li>• evaluating the reasonableness and adequacy of the allowance for impairment recognised for identified exposures.</li> </ul>
<b>Reliance on management expert</b>	
<p>As highlighted in Note 14 to the financial statements, the leasehold land and buildings of the Group of RM57,359,000 and RM40,164,000 respectively are carried at fair value.</p> <p>The fair value of these assets is subject to significant judgments and estimation uncertainty, and is determined based on the valuation performed by independent professional valuer using industry/market accepted valuation methodology and approaches.</p> <p>Due to the measurement of fair value being inherently judgemental and the carrying value of these assets being material to the Group, we have considered this to be a key audit matter.</p>	<p>Our audit procedures included, among others:</p> <ul style="list-style-type: none"> <li>• obtaining the valuation reports prepared by the independent valuer engaged by the Group;</li> <li>• reviewing these reports for appropriateness of the methodology used and the reasonableness of the assumptions used; and</li> <li>• assessing the competency, capabilities and objectivity of these independent valuers engaged by the Group.</li> </ul>

## Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

## Responsibilities of the Directors for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

## Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (i) Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (ii) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- (iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.

## Auditors' Responsibilities for the Audit of the Financial Statements (cont'd)

- (iv) Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- (v) Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- (vi) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

## Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act, 2016 in Malaysia, we report that the subsidiary company of which we have not acted as auditors, is disclosed in Note 15 to the financial statements.

## Other Matter

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act, 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2022

## 1. GENERAL INFORMATION

The Company is a public limited liability company that is domiciled and incorporated in Malaysia, and is listed on the ACE Market of Bursa Malaysia Securities Berhad. The principal activity of the Company is investment holding. The principal activities of the subsidiaries are set out in Note 15 to the financial statements.

The registered office and principal place of business of the Company are located at Level 5, Tower 8, Avenue 5, Horizon 2, Bangsar South City, 59200 Kuala Lumpur, Wilayah Persekutuan Kuala Lumpur, Malaysia and Lot 73, Jalan Kilang, SEDCO Light Industrial Estate, Mile 5 ½ Jalan Tuaran, 88450 Kota Kinabalu, Sabah, Malaysia respectively.

The Directors regard Kim Teck Cheong Capital Sdn. Bhd. and Kim Teck Cheong Holdings Sdn. Bhd., all of which are incorporated and domiciled in Malaysia, as the ultimate holding company and immediate holding company of the Company respectively.

These financial statements were authorised for issue by the Directors in accordance with a resolution of the Board of Directors dated

## 2. BASIS OF PREPARATION

The significant accounting policies adopted by the Group and the Company are consistent with those adopted in previous financial year unless otherwise stated.

The financial statements of the Group and of the Company are prepared on the historical cost convention, other than as disclosed in the notes to the financial statements, and in accordance with the Malaysian Financial Reporting Standards ("MFRS") issued by Malaysian Accounting Standards Board, International Financial Reporting Standards ("IFRSs") and the requirements of the Companies Act, 2016 in Malaysia.

The financial statements are prepared in Ringgit Malaysia (RM) which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

### (a) Adoption of new and revised MFRS

During the financial year, the Group and the Company have adopted the following amendments to standards issued by the MASB that are mandatory for current financial year:

- Amendments to MFRS 9, MFRS 139, MFRS 7 and MFRS 16: Interest Rate Benchmark Reform – Phase 2
- Amendment to MFRS 16: COVID-19-Related Rent Concessions beyond 30 June 2021

The adoption of the amendments to standards did not have any significant impact on the financial statements of the Group and of the Company.

### (b) Standards issued but not yet effective

Certain new accounting standards and interpretations have been issued but not yet effective for 30 June 2022 reporting periods and have not been early adopted by the Group and the Company. These standards are not expected to have a material impact on the Group and the Company in the current or future reporting periods.

## 3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the Group's and the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

### Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

#### (i) Income taxes

There are certain transactions and computations for which the ultimate tax determination may be different from the initial estimate. The Group and the Company recognise tax liabilities based on their understanding of the prevailing tax laws and estimates of whether such taxes will be due in the ordinary course of business. Where the final outcome of these matters is different from the amounts that were initially recognised, such difference will impact the income tax and deferred tax provisions in the year in which such determination is made.

#### (ii) Depreciation of property, plant and equipment

The estimates for the residual values, useful lives and related depreciation charges for the property, plant and equipment are based on commercial factors which could change significantly as a result of technical innovations and competitors' actions in response to the market conditions.

The Group and the Company anticipate that the residual values of their property, plant and equipment will be insignificant. As a result, residual values are not being taken into consideration for the computation of the depreciable amount. The management estimates the useful lives of the property, plant and equipment to be within two (2) to eighty (80) years. Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

#### (iii) Revaluation of leasehold land and buildings

Leasehold land and buildings of the Group are reported at fair value which is based on valuations performed by independent professional valuers.

The leasehold land and buildings were valued by reference to transactions involving properties of a similar nature, location and condition which involved judgement by the independent professional valuers that may affect the resulting valuation estimates.

#### (iv) Carrying value of investments in subsidiary companies

Investments in subsidiary companies are reviewed for impairment annually in accordance with its accounting policy as disclosed in Note 4(l)(ii) to the financial statements, or whenever events or changes in circumstances indicate that the carrying value may not be recoverable.

Significant judgment is required in the estimation of the present value of future cash flows generated by the subsidiaries, which involves uncertainties and are significantly affected by assumptions and judgments made regarding estimates of future cash flows and discount rates. Changes in assumptions could significantly affect the carrying value of investments in subsidiary companies.

(cont'd)

## 3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES *(cont'd)*

### Key sources of estimation uncertainty *(cont'd)*

#### (v) Impairment of non-financial assets

When the recoverable amount of an asset is determined based on the estimate of the value-in-use of the cash-generating unit to which the asset is allocated, the management is required to make an estimate of the expected future cash flows from the cash-generating unit and also to apply a suitable discount rate in order to determine the present value of those cash flows.

#### (vi) Impairment of goodwill

The Group assesses at each reporting date whether there is any impairment of goodwill. For the purpose of assessing impairment, assets (including goodwill) are grouped at the lowest level where there are separately identifiable cash flows (cash-generating units). The management determines the value-in-use of a cash-generating unit for impairment of goodwill purposes based on annual revenue generated during the financial year for significant agencies existing during the acquisition of the subsidiaries that resulted in goodwill arising to the Group using reasonable and supportable inputs about discount rates, forecast annual sales and net profit margin based on past experience, current events and reasonably possible future developments. Cash flows that are projected based on those inputs or assumptions and the discount rate applied in the measurement of value-in-use may have a significant effect on the Group's financial position and results if the actual cash flows are less than the expected.

The carrying amount of the Group's goodwill and key assumptions used to determine the recoverable amount for different cash-generating units, including sensitivity analysis, are disclosed in Note 16.

#### (vii) Deferred tax assets and liabilities

Deferred tax implications arising from the changes in corporate income tax rates are measured with reference to the estimated realisation and settlement of temporary differences in the future periods in which the tax rates are expected to apply, based on the tax rates enacted or substantively enacted at the reporting date. While management's estimates on the realisation and settlement of temporary differences are based on the available information at the reporting date, changes in business strategy, future operating performance and other factors could potentially impact on the actual timing and amount of temporary differences realised and settled. Any difference between the actual amount and the estimated amount would be recognised in the statement of profit or loss and other comprehensive income in the period in which actual realisation and settlement occurs.

#### (viii) Allowance for inventories

Reviews are made periodically by management on damaged, obsolete and slow-moving inventories. These reviews require judgement and estimates. Possible changes in these estimates could result in revisions to the valuation of inventories.

#### (ix) Impairment of financial assets

The loss allowances for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

## 3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES *(cont'd)*

### Key sources of estimation uncertainty *(cont'd)*

#### (x) Leases

The measurement of the right-of-use asset and lease liability for leases where the Group is lessee requires the use of judgements and assumptions, such as lease term and incremental borrowing rate. In determining the lease term, the Group considers all facts and circumstances that create an economic incentive to exercise an extension option. Extension options are only included in the lease term if the lease is reasonably certain to be extended. The incremental borrowing rate is the interest rate that the Group would have to pay to borrow over a similar term, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. Therefore, the incremental borrowing rate requires estimation, particularly when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the incremental borrowing rate using observable inputs when available and is required to make certain entity-specific estimates.

## 4. SIGNIFICANT ACCOUNTING POLICIES

### (a) Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiary companies as at the reporting date. The financial statements of the subsidiary companies used in the preparation of the consolidated financial statements are prepared for the same reporting date as the Company.

#### (i) Reorganisation

Acquisition of entities under a reorganisation scheme does not result in any change in economic substance. Accordingly, the consolidated financial statements of the Company are a continuation of the acquired entity and is accounted for as follows:

- the assets and liabilities of the acquired entity is recognised and measured in the consolidated financial statements at the pre-combination carrying amounts, without restatement to fair value;
- the retained profits and other equity balances of acquired entity immediately before the business combination are those of the Group; and
- the equity structure, however, reflects the equity structure of the Company and the differences arising from the change in equity structure of the Group will be accounted for in other reserves.

#### (ii) Subsidiaries

Subsidiaries are entities controlled by the Company. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Control exists when the Group is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Potential voting rights are considered when assessing control only when such rights are substantive.

The Group considers it has de facto power over an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return. The Group did not consider de facto power in its assessment of control.

Investments in subsidiaries are measured in the Company's statement of financial position at cost less any impairment losses, unless the investment is classified as held for sale or distribution. The cost of investments includes transaction costs.

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2022

(cont'd)

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (a) Basis of consolidation (cont'd)

#### (iii) Business combinations

Business combinations are accounted for using the acquisition method from the acquisition date, which is the date on which control is transferred to the Group.

For new acquisitions, the Group measures the cost of goodwill at the acquisition date as:

- the fair value of the consideration transferred; plus
- the recognised amount of any non-controlling interests in the acquiree; plus
- if the business combination is achieved in stages, the fair value of the existing equity interest in the acquiree; less
- the net recognised amount (generally fair value) of the identifiable assets acquired and liabilities assumed.

When the excess is negative, a bargain purchase gain is recognised immediately in profit or loss.

For each business combination, the Group elects whether it measures the non-controlling interests in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets at the acquisition date.

Transaction costs, other than those associated with the issue of debt or equity securities, that the Group incurs in connection with a business combination are expensed as incurred.

#### (iv) Loss of control

Upon the loss of control of a subsidiary, the Group derecognises the assets and liabilities of the former subsidiary, any-controlling interests and the other components of equity related to the former subsidiary from the consolidated statement of financial position. Any surplus or deficit arising on the loss of control is recognised in profit or loss. If the Group retains any interest in the former subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

#### (v) Non-controlling interests

Non-controlling interests at the end of the reporting period, being the equity in a subsidiary not attributable directly or indirectly to the equity holders of the Company, are presented in the consolidated statement of financial position and statement of changes in equity within equity, separately from equity attributable to the owners of the Company. Non-controlling interests in the results of the Group is presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of the profit and loss and the comprehensive income for the year between non-controlling interests and the owners of the Company.

Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so caused the non-controlling interests to have a deficit balance.

#### (vi) Transactions with non-controlling interests

Transactions with non-controlling interests are accounted for using the entity concept method, whereby, transactions with non-controlling interests are accounted for as transactions with owners.

On acquisition of non-controlling interests, the difference between the consideration and the Group's share of the net assets acquired is recognised directly in equity. Gain or loss on disposal to non-controlling interests is recognised directly in equity.

# NOTES TO THE FINANCIAL STATEMENTS

(cont'd)

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (a) Basis of consolidation (cont'd)

#### (vii) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intragroup transactions are eliminated in preparing the consolidated financial statements.

Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

### (b) Foreign currencies

#### (i) Functional and presentation currencies

The Group's consolidated financial statements are presented in Ringgit Malaysia (RM), which is also the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

#### (ii) Foreign currency transactions

Transactions in foreign currencies are measured in the respective functional currencies of the Group and the Company and are recorded on initial recognition in the functional currencies at exchange rates approximating those ruling at the transaction dates.

Monetary assets and liabilities denominated in foreign currencies are translated at the rate of exchange ruling at the reporting date. Non-monetary items denominated in foreign currencies that are measured at historical cost are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items denominated in foreign currencies measured at fair value are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at the reporting date are recognised in profit or loss except for exchange differences arising on monetary items that form part of the Group's net investment in foreign operations, which are recognised initially in other comprehensive income and accumulated under foreign currency translation reserve in equity. The foreign currency translation reserve is reclassified from equity to profit or loss of the Group on disposal of the foreign operation.

Exchange differences arising on the translation of non-monetary items carried at fair value are included in profit or loss for the period except for the differences arising on the translation of non-monetary items in respect of which gains and losses are recognised directly in equity. Exchange differences arising from such non-monetary items are also recognised directly in equity.

#### (iii) Foreign operations

The assets and liabilities of foreign operations are translated into RM at the rate of exchange ruling at the reporting date and income and expenses are translated at exchange rates at the dates of the transactions. The exchange differences arising on the translation are taken the dates of the transactions. The exchange differences arising on the translation are taken directly to other comprehensive income. On disposal of a foreign operation, the cumulative amount recognised in other comprehensive income and accumulated in equity under foreign currency translation reserve relating to that particular foreign operation is recognised in the profit or loss.

Goodwill and fair value adjustments arising on the acquisition of foreign operations are treated as assets and liabilities of the foreign operations and are recorded in the functional currency of the foreign operations and translated at the closing rate at the reporting date.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(cont'd)*

### (c) Revenue recognition

Revenue from contracts with customers is recognised by reference to each distinct performance obligation promised in the contract with the customer when or as the Group transfers controls of the goods or services promised in a contract and the customer obtains control of the goods or services.

Revenue from contracts with customers is measured at its transaction price, being the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, net of discounts. The transaction price is allocated to each distinct good or service promised in the contract. Depending on the terms of the contract, revenue is recognised when the performance obligation is satisfied, which may be a point in time or over time.

The Group satisfies a performance obligation and recognises revenue over time, if one (1) of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group's performance as the Group performs.
- The Group's performance creates or enhances an asset that the customer controls as the asset is created or enhanced.
- The Group's performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

If none of the above conditions are met, the Group recognises revenue at the point in time at which the performance obligation is satisfied.

### (i) Sale of goods

Revenue from sale of goods is recognised net of taxes and upon transfer of control of ownership to the buyer. Revenue is not recognised to the extent where there are significant uncertainties regarding recovery of the consideration due, associated costs or the possible return of goods.

### (ii) Revenue from services

Revenue from services rendered is recognised net of taxes and discounts as and when the services are performed.

### (iii) Management fee income

Management fee income is recognised when services are rendered.

### (iv) Rental income

Rental income is recognised on a straight-line basis over the lease term of an ongoing lease.

### (v) Interest income

Interest income is recognised on an accrual basis using the effective interest method.

### (d) Employee benefits

The Group and the Company recognise a liability when an employee has provided service in exchange for employee benefits to be paid in the future and an expense when the Group and the Company consume the economic benefits arising from service provided by an employee in exchange for employee benefits.

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2022  
(cont'd)

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (d) Employee benefits (cont'd)

#### (i) Short-term employee benefits

Wages and salaries are usually accrued and paid on a monthly basis and are recognised as an expense, unless they relate to cost of producing inventories or other assets.

Paid absences (annual leave, maternity leave, paternity leave, sick leave, etc.) are accrued in each period if they are accumulating paid absences that can be carried forward, or in the case of non-accumulating paid absences, recognised as and when the absences occur.

Profit sharing and bonus payments are recognised when, and only when, the Group and the Company have a present legal or constructive obligation to make such payment as a result of past events and a reliable estimate of the obligation can be made.

#### (ii) Post-employment benefits (defined contribution plans)

The Group and the Company make statutory contributions to the approved provident funds and the contributions made are charged to profit or loss in the period to which they relate. When the contributions have been paid, the Group and the Company have no further payment obligations.

### (e) Tax assets and tax liabilities

A current tax for current and prior periods, to the extent unpaid, is recognised as a current tax liability. If the amount already paid in respect of current and prior periods exceed the amount due for those periods, the excess is recognised as a current tax asset. A current tax liability/(asset) is measured at the amount the entity expects to pay/(recover) using tax rates and laws that have been enacted or substantially enacted by the reporting date.

A deferred tax liability is recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit/(or tax loss). The exceptions for initial recognition differences include items of property, plant and equipment that do not qualify for capital allowances and acquired intangible assets that are not deductible for tax purposes.

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised, unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit/(or tax loss). The exceptions for the initial recognition differences include non-taxable government grants received and reinvestment allowances and investment tax allowances on qualifying plant and equipment.

A deferred tax asset is recognised for the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

Deferred taxes are measured using tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred taxes reflects the tax consequences that would follow from the manner in which the Group and the Company expect, at the end of the reporting period, to recover or settle the carrying amount of its assets or liabilities.

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (e) Tax assets and tax liabilities (cont'd)

At the end of each reporting period, the carrying amount of a deferred tax asset is reviewed and is reduced to the extent that it is no longer probably that sufficient taxable profit will be available to allow the benefit of a part or all of that deferred tax asset to be utilised. Any such reduction will be reversed to the extent that it becomes probably that sufficient taxable profit will be available.

A current or deferred tax is recognised as income and expense in profit or loss for the period, except to the extent that the tax arises from items recognised outside profit or loss. For an income or expense item recognised in other comprehensive income, the current or deferred tax expense or tax income is recognised in other comprehensive income. For items recognised directly in equity, the related tax effect is also recognised directly in equity.

### (f) Earnings per share

The Group presents basic and diluted earnings per share data for its ordinary shares ("EPS"). Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, adjusted for own shares held, for the effects of all dilutive potential ordinary shares.

### (g) Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Subsequent to recognition, property, plant and equipment other than leasehold land and buildings are measured at cost less accumulated depreciation and accumulated impairment losses. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognises such parts as individual assets with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred.

Leasehold land and buildings are measured at fair value less accumulated depreciation on leasehold land and buildings and accumulated impairment losses recognised after the date of the revaluation. Valuations are performed with sufficient regularity to ensure that the carrying amount does not differ materially from the fair value of the leasehold land and buildings at the reporting date.

Any revaluation surplus is recognised in other comprehensive income and accumulated in equity under the asset revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the increase is recognised in profit or loss. A revaluation deficit is recognised in profit or loss, except to the extent that it offsets an existing surplus on the same asset carried in the asset revaluation reserve.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. The revaluation surplus included in the asset revaluation reserve in respect of an asset is transferred directly to retained earnings on retirement or disposal of the asset.

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (g) Property, plant and equipment (cont'd)

Depreciation of property, plant and equipment is provided for on a straight-line basis to write off the cost or valuation of each asset to its residual value over the estimated useful life, at the following annual rates:

Right-of-use assets	2 to 10 years
Leasehold land	43.5 to 80 years
Leasehold buildings	50 years
Office equipment, furniture and fittings and computers	3 to 10 years
Motor vehicles	5 years
Plant and machineries	10 years
Warehouse equipment	5 to 10 years
Renovation	5 to 10 years

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in the profit or loss in the year the asset is derecognised.

### (h) Goodwill

Goodwill arising from a business combination is initially measured at cost being the excess of the cost of business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities. Following the initial recognition, goodwill is measured at cost less any accumulated impairment losses. Goodwill is not amortised but instead, it is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. The policy for the recognition and measurement of impairment losses is in accordance with Note 4(l)(ii). Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

### (i) Intangible asset

Intangible assets acquired separately are measured initially at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial acquisition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite useful lives are amortised over the estimated useful lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method are reviewed at least at each financial year end.

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2022

(cont'd)

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (i) Intangible asset (cont'd)

The amortisation methods used and the estimated useful lives are as follows:

	Method	Useful lives
Intangible asset	Revenue - based	4 years

The residual values, useful lives and amortisation methods are reviewed at the end of each reporting period.

Intangible assets with indefinite useful lives or not yet available for use are tested for impairment annually, or more frequently if the events and circumstances indicate that the carrying value may be impaired either individually or at the cash-generating unit level. Such intangible assets are not amortised. The useful life of an intangible asset with an indefinite useful life is reviewed annually to determine whether the useful life assessment continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in profit or loss when the asset is derecognised.

### (j) Inventories

Inventories are measured at the lower of cost and net realisable value.

Costs incurred in bringing the inventories to their present location and condition are accounted for as follows:

- Trading inventories, raw materials and packaging materials: purchase costs on a first-in first-out basis.
- Finished goods and work-in-progress: costs of direct materials and labour and a proportion of manufacturing overheads based on normal operating capacity. These costs are assigned on a first-in first-out basis.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

### (k) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### (i) Financial assets

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income (OCI) and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's and the Company's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group and the Company have applied the practical expedient, the Group and the Company initially measure a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group and the Company have applied the practical expedient are measured at the transaction price determined under MFRS 15.

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (k) Financial instruments (cont'd)

#### (i) Financial assets (cont'd)

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level.

The Group's and the Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group and the Company commit to purchase or sell the asset.

For purposes of subsequent measurement, financial assets are classified in four (4) categories:

- Financial assets at amortised cost (debt instruments)
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments)
- Financial assets at fair value through profit or loss

#### **Financial assets at amortised cost (debt instruments)**

The Group and the Company measure financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Group's and the Company's financial assets at amortised cost includes trade and other receivables and cash and bank balances.

#### **Financial assets at fair value through OCI (debt instruments)**

The Group and the Company measure debt instruments at fair value through OCI if both of the following conditions are met:

- The financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (k) Financial instruments (cont'd)

#### (i) Financial assets (cont'd)

##### Financial assets at fair value through OCI (debt instruments) (cont'd)

For debt instruments at fair value through OCI, interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the statement of profit or loss and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value change recognised in OCI is recycled to profit or loss.

The Group and the Company have no debt instruments at fair value through OCI.

##### Financial assets designated at fair value through OCI (equity instruments)

Upon initial recognition, the Group and the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under MFRS 132 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. Dividends are recognised as other income in the statement of profit or loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

The Group and the Company have no equity instruments at fair value through OCI.

##### Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives, are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortised cost or at fair value through OCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognised in the statement of profit or loss.

A derivative embedded in a hybrid contract, with a financial liability or non-financial host, is separated from the host and accounted for as a separate derivative if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognised in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (k) Financial instruments (cont'd)

#### (i) Financial assets (cont'd)

##### Financial assets at fair value through profit or loss (cont'd)

A derivative embedded within a hybrid contract containing a financial asset host is not accounted for separately. The financial asset host together with the embedded derivative is required to be classified in its entirety as a financial asset at fair value through profit or loss.

The Group and the Company have no financial assets at fair value through profit or loss.

##### Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired; or
- The Group and the Company have transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group and the Company have transferred substantially all the risks and rewards of the asset, or (b) the Group and the Company have neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Group and the Company have transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group and the Company continue to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group and the Company also recognise an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group and the Company have retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group and the Company could be required to repay.

#### (ii) Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

Financial liabilities, within the scope of MFRS 9, are recognised in the statements of financial position when, and only when, the Group and the Company become a party to the contractual provisions of the financial instrument. Financial liabilities are classified as either financial liabilities at fair value through profit or loss or financial liabilities measured at amortised cost.

(cont'd)

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (k) Financial instruments (cont'd)

#### (ii) Financial liabilities (cont'd)

The subsequent measurement of financial liabilities depends on their classification as follows:

#### **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities held for trading include derivatives entered into by the Group and the Company that do not meet the hedge accounting criteria. Derivative liabilities are initially measured at fair value and subsequently stated at fair value, with any resultant gains or losses recognised in profit or loss. Net gains or losses on derivatives include exchange differences.

#### **Financial liabilities measured at amortised cost**

The Group's and the Company's financial liabilities measured at amortised cost include trade and other payables and loans and borrowings.

Trade and other payables are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

Loans and borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method. Borrowings are classified as current liabilities unless the Group and the Company have an unconditional right to defer settlement of the liability for at least twelve (12) months after the reporting date.

For other financial liabilities, gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

A financial liability is derecognised when the obligation under the liability is extinguished. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

### (l) Impairment

#### (i) Impairment of financial assets

The Group and the Company recognise an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group and the Company expect to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two (2) stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

# NOTES TO THE FINANCIAL STATEMENTS

(cont'd)

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (l) Impairment (cont'd)

#### (i) Impairment of financial assets (cont'd)

For trade receivables and contract assets, the Group and the Company apply a simplified approach in calculating ECLs. Therefore, the Group and the Company do not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group and the Company have established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

For debt instruments considered to have low credit risk, the Group and the Company apply the low credit risk simplification. At every reporting date, the Group and the Company evaluate whether the debt instrument is considered to have low credit risk using all reasonable and supportable information that is available without undue cost or effort. In making that evaluation, the Group and the Company reassess the internal credit rating of the debt instrument.

In addition, the Group and the Company consider that there has been a significant increase in credit risk when contractual payments are more than one (1) year past due. It is the Group's and the Company's policy to measure ECLs on such instruments on a 12-month basis. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL.

The Group and the Company consider a financial asset in default when contractual payments are one (1) year past due. However, in certain cases, the Group and the Company may also consider a financial asset to be in default when internal or external information indicates that the Group and the Company are unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group and the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

#### (ii) Impairment of non-financial assets

The Group and the Company assess at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment assessment for an asset is required, the Group and the Company make an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units ("CGU")).

In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is written down to its recoverable amount. Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis.

Impairment losses are recognised in profit or loss except for assets that are previously revalued where the revaluation was taken to other comprehensive income. In this case the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in profit or loss unless that asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase. Impairment loss on goodwill is not reversed in a subsequent period.

## 4. SIGNIFICANT ACCOUNTING POLICIES *(cont'd)*

### (m) Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group and the Company after deducting all of its liabilities. Ordinary shares are classified as equity.

Ordinary shares are recorded at the proceeds received, net of directly attributable incremental transaction costs. Dividends on ordinary shares are recognised as an appropriation of retained profits upon declaration, and are only taken up as liabilities upon the necessary approval being obtained.

### (n) Borrowing costs

Borrowing costs are capitalised as part of the cost of a qualifying asset if they are directly attributable to the acquisition, construction or production of that asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale.

All other borrowings costs are recognised in profit or loss in the period they are incurred. Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds.

### (o) Leases

#### (i) Classification

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physical distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- the customer has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the customer has the right to direct the use of the asset. The customer has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the customer has the right to direct the use of the asset if either the customer has the right to operate the asset; or the customer designed the asset in a way that predetermines how and for what purpose it will be used.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties in which the Group is a lessee, it has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

#### (ii) Lease term

In determining the lease term, the Company considers all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not to be terminated).

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2022  
(cont'd)

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (o) Leases (cont'd)

#### (iii) Recognition and initial measurement

##### As a lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the respective Group entities' incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments less any incentives receivable;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee;
- the exercise price under a purchase option that the Group is reasonably certain to exercise; and
- penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The Group excludes variable lease payments that linked to future performance or usage of the underlying asset from the lease liability. Instead, these payments are recognised in profit or loss in the period in which the performance or use occurs.

The Group has elected to use the recognition exemption that permits entities not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of twelve (12) months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

##### As a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is an operating lease.

If an arrangement contains lease and non-lease components, the Group applies MFRS 15 to allocate the consideration in the contract based on the stand-alone selling prices.

When the Group is intermediate lessor, it accounts for its interests in the head lease and the sublease separately. It assesses the lease classification of a sublease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group and applies the exemption described above, then it classifies the sublease as an operating lease.

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2022

(cont'd)

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (o) Leases (cont'd)

#### (iv) Subsequent measurement

##### As a lessee

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a revision of in-substance fixed lease payments, or if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

The Group and reassess the lease term upon the occurrence of a significant event or change in circumstances that is within the control of the Group affects whether the Group is reasonably certain to exercise an option not previously included in the determination of lease term, or not to exercise an option previously included in the determination of lease term. A revision in lease term results in remeasurement of the lease liabilities.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

##### As a lessor

The Group recognises lease payments received under operating leases as income on a straight-line basis over the lease term as part of "other operating income".

### (p) Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due.

Financial guarantee contracts are recognised initially as a liability at fair value, net transaction costs. Subsequent to initial recognition, financial guarantee contracts are recognised as income in profit or loss over the period of the guarantee. If the debtor fails to make payment relating to financial guarantee contract when it is due and the Group, as the issuer, is required to reimburse the holder for the associated loss, the liability is measured at the higher of the best estimate of the expenditure required to settle the present obligation at the reporting date and the amount initially recognised less cumulative amortisation.

### (q) Provisions

Provisions are recognised when the Group and the Company have present legal or constructive obligation as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations, and a reliable estimate of the amount can be made.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision will be reversed. Where the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability and the present value of the expenditure expected to be required to settle the obligation. When discounting is used, the increase in the provision due to the passage of time is recognised as finance cost.

## 4. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### (r) Contingencies

A contingent liability or asset is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

Contingent liabilities and assets are not recognised in the statements of financial position of the Group.

### (s) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenue and incur expenses, including revenue and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are reviewed regularly by the chief operating decision maker, which in this case is the Group Managing Director, to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

### (t) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transactions to sell the asset or transfer the liability takes place either:

- (i) In the principal market for the asset or liability, or
- (ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- (i) Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- (ii) Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- (iii) Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Distribution operation	5,981,384	5,981,384

For the purpose of impairment testing, goodwill is allocated to the operating divisions of the Group which represent the lowest level within the Group at which goodwill is monitored for internal management purposes.

### Key assumptions used in value-in-use calculations

Goodwill is tested for impairment on annual basis by comparing the carrying amount with the recoverable amount of the CGUs based on value-in-use.

The Directors determined the value-in-use as at year end based on annual revenue generated during the financial year for significant agencies existing during the acquisition of the subsidiaries that resulted in goodwill arising to the Group.

The key assumptions used for value-in-use calculations are:

	Group	
	2022	2021
<b>Distribution operation</b>		
Net profit margin	2%	2%
Discount rate	7.20%	5.50%

Net profit margin - Net profit margin is based on past net profit margin achieved.

Discount rate - Discount rate is based on weighted average cost of capital of the Group.

### Sensitivity to change in assumptions

With regard to the assessment of value-in-use calculation, the Directors of the Company believe that no reasonably possible change in any of the above key assumptions would cause the carrying value to materially exceed its recoverable amount.

Effect of acquisition of KTC Corporate Services (Note 15)	-	(9,031)
At 30 June	(47,971,279)	(47,971,279)

The Company completed its Pre-IPO Reorganisation on 1 July 2015 and has accounted for the acquisition of KTC Sdn. Bhd. as a continuation of the acquired entity. Therefore, the difference between the purchase consideration to acquire KTC Sdn. Bhd. and the share capital of KTC Sdn. Bhd. was reflected as a reorganisation deficit amounted to RM47,962,248.

The amount of RM9,031 represents the difference between carrying value of the assets and liabilities acquired to the cost of investment in respect of the acquisition of KTC Corporate Services as there is no change in control following the acquisition and therefore, the acquisition method of accounting pursuant to MFRS 3 Business Combinations does not apply.

## 24. RETAINED PROFITS/(ACCUMULATED LOSSES)

The Group's and the Company's policy is to treat all gains and losses that pass through the statements of profit or loss and other comprehensive income (i.e. non-owner transactions or events) as revenue reserves. Other than retained profits, all other revenue reserves are regarded as non-distributable in the form of cash dividends to shareholders. Accumulated losses is the opposite of retained profits and when an entity is in an accumulated loss position, it is prohibited from distributing cash dividends to shareholders.

Key management personnel are defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group and of the Company either directly or indirectly, including any Director of the Group and of the Company.

The terms and conditions and prices of the above transactions are mutually agreed between the parties.

## 29. FINANCIAL GUARANTEES

The fair value of financial guarantees provided by the Company to the banks to secure banking facilities granted to subsidiaries with nominal amount of RM91,950,879 (2021: RM116,173,332) are negligible as the financial guarantees provided by the Company did not contribute towards credit enhancement of the subsidiaries' borrowings in view of the security pledged by the subsidiaries and it is unlikely that the subsidiaries will default within the guarantee provided, and the Company to third parties for supply of goods and services to certain subsidiaries of the Company with nominal amount of RM34,718,000 (2021: RM33,529,900) are negligible as the probability of the financial guarantees being called upon is remote due to good financial standing of the said subsidiaries.

### (b) Financial risk management

The Group and the Company are exposed to financial risks arising from their operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, interest rate risk and foreign currency risk.

The Group's financial risk management policies seek to ensure that adequate financial resources are available for the development of the Group's businesses whilst managing its risks. The Board of Directors reviews and agrees to procedures and policies for management of these risks.

The following sections provide details regarding the Group's and the Company's exposure to the above-mentioned financial risks and the objectives, policies and processes for the management of these risks.

## 31. FINANCIAL INSTRUMENTS (cont'd)

### (b) Financial risk management (cont'd)

#### (i) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments should a counterparty default on its obligations. The Group's and the Company's exposure to credit risk arises primarily from trade and other receivables. For other financial assets (including cash and bank balances), the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties.

The Group's objective is to seek continual revenue growth while minimising losses incurred due to increased credit risk exposure. The Group trades only with recognised and creditworthy third parties.

It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

As at the reporting date, the Group's and the Company's maximum exposure to credit risk is represented by:

- the carrying amount of each class of financial assets recognised in the statements of financial position; and
- a nominal amount of RM91,950,879 and RM34,718,000 (2021: RM116,173,332 and RM33,529,900) relating to corporate guarantees provided by the Company to the banks to secure banking facilities granted to the subsidiaries and the Company to certain third parties respectively.

#### Trade receivables

At each reporting date, the Group assesses whether any of the trade receivables are credit impaired.

The gross carrying amounts of credit impaired trade receivables are written off (either partially or full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay amounts subject to the write-off. Nevertheless, trade receivables and contract asset that are written off could still be subject to enforcement activities.

As at the end of the reporting period, the maximum exposure to credit risk arising from trade receivables is represented by the carrying amounts in the statements of financial position.

The Group has taken reasonable steps to ensure that receivables that are neither past due nor impaired are stated at their realisable values. A significant portion of these receivables are regular customers that have been transacting with the Group. The Group uses ageing analysis to monitor the credit quality of the receivables.

##### Trade receivables (cont'd)

The ageing analysis of the Group's trade receivables as at the reporting date is as follows:

	Gross amount RM	Expected credit losses RM	Carrying value RM
<b>2022</b>			
Not past due	54,890,872	-	54,890,872

Past due:			
- less than 30 days	34,251,040	(101,060)	34,149,980
- between 31 to 60 days	8,612,150	(120,814)	8,491,336
- between 61 to 90 days	1,529,975	(24,025)	1,505,950
- more than 90 days	2,275,858	(2,142,259)	133,599
	46,669,023	(2,388,158)	44,280,865
	89,739,139	(2,388,158)	87,350,981

Impairment for trade receivables is measured at an amount equal to lifetime expected credit loss. The expected credit losses on trade receivables includes both individual impairment for those that show objective evidence of impairment (stage 3 loss) and collective impairment (stage 2 loss). Collective impairment has been provided using the provisional matrix based on historical loss experience of the respective entities in the Group with reference to past due status of the debtor, as follows:

	Expected credit loss rates	
	2022	2021
Not past due	0%	0%
Past due:		
- less than 30 days	0% - 1%	0% - 1%
- between 31 to 60 days	0% - 5%	0% - 1%
- between 61 to 90 days	0% - 19%	0% - 2%
- more than 90 days	0% - 99%	0% - 94%

The expected credit loss rates are based on the historical loss rates experienced by each entity in the Group as adjusted for forward looking element as necessary.

The Group has no significant concentration of credit risk arising from exposure to a single or group of receivables as at the current reporting date.

## 31. FINANCIAL INSTRUMENTS *(cont'd)*

### (b) Financial risk management *(cont'd)*

#### (i) Credit risk *(cont'd)*

##### **Other receivables**

For other receivables, a lifetime expected credit loss is assessed for those counterparties that show significant increase in credit risk as at the end of the reporting period, and impairment made based on objective evidence of impairment.

##### **Inter-company advances**

The Company provides advances to subsidiaries. The Company monitors the ability of the subsidiaries to repay the advances on an individual basis and considers advances to subsidiaries to have low credit risks.

The Company determines the probability of default for these advances individually using internal information available.

As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statement of financial position. Advances provided are not secured by any collateral or supported by any other credit enhancements.

##### **Cash and cash equivalents**

The cash and cash equivalents are held with banks and financial institutions. As at the end of the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statements of financial position.

These banks and financial institutions have low credit risks. Consequently, the Group and the Company are of the view that loss allowance is not material and hence, it is not provided for.

#### (ii) Liquidity risk

Liquidity risk is the risk that the Group and the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities. The Group's and the Company's objective is to maintain a balance between continuity of funding and flexibility through the use of stand-by credit facilities.

As part of its overall liquidity management, the Group maintains sufficient levels of cash or cash convertible investments to meet its working capital requirements. In addition, the Group strives to maintain available banking facilities at a reasonable level to its overall debt position. As far as possible, the Group raises committed funding from financial institutions and balances its portfolio with some short term funding so as to achieve overall cost effectiveness.

## 31. FINANCIAL INSTRUMENTS (cont'd)

### (b) Financial risk management (cont'd)

#### (iii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Group's exposure to interest rate risk arises mainly from its loans and borrowings. Most of the Group's loans and borrowings are charged a fixed interest rate plus or minus the financial institutions' base lending rate or cost of fund per annum. The fixed interest rate is reviewed annually. Whilst, the base lending rate and cost of fund used by the financial institutions vary according to the rates set by the respective financial institutions. Meanwhile, interest rates charged on leases are fixed at the inception of the lease arrangements.

#### Sensitivity analysis for interest rate risk

The following table details the sensitivity analysis to a reasonably possible change in the interest rates as at the end of the reporting period, with all other variables held constant:

	Group	
	(Decrease)/Increase	
	2022	2021
	RM	RM
<b>Effects on profit after taxation</b>		
Increase of 65bp (2021: 60bp)	(516,176)	(647,715)
Decrease of 65bp (2021: 60bp)	516,176	647,715

#### (iv) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of change in foreign exchange rate.

The Group is exposed to currency translation risk arising from its net investment in subsidiaries in Brunei and Indonesia.

The Group does not hedge its investments in Brunei and Indonesia.

## 32. FAIR VALUE INFORMATION

The financial assets and financial liabilities maturing within the next twelve (12) months approximated their fair values due to the relatively short-term maturity of the financial instruments.

The carrying amount of the variable rate term loans approximated their fair value as the loans will be re-priced to market interest rate on or near reporting date.

# NOTES TO THE FINANCIAL STATEMENTS

## 32. FAIR VALUE INFORMATION (cont'd)

As at the reporting date, the Group held the following at fair value in the statement of financial position:

	Carrying amount RM	Level 1 RM	Level 2 RM	Level 3 RM
<b>2022</b>				
<b>Non-financial assets</b>				
Property, plant and equipment				
- Leasehold land	57,359,000	-	-	57,359,000
- Leasehold buildings	40,164,000	-	-	40,164,000
	97,523,000	-	-	97,523,000
<b>2021</b>				
<b>Non-financial assets</b>				
Property, plant and equipment				
- Leasehold land	48,337,748	-	-	48,337,748
- Leasehold buildings	37,066,938	-	-	37,066,938
	85,404,686	-	-	85,404,686

There have been no transfers between the levels during the current and previous financial years.

The valuation of leasehold land and buildings was based on the valuation technique as follows:

### (i) Comparison method

Sales prices of comparable leasehold land and buildings in close proximity were adjusted for differences in key attributes such as date of transactions, location, condition, accessibility, size, shape, topography, tenure, title restrictions and surrounding developments. The most significant input into this valuation method was price per square metre of comparative properties.

### (ii) Depreciated replacement cost method

The buildings and structures were assessed by the estimated cost of reinstating similar new buildings and an allowable depreciation was made and deducted based on the observed condition of the buildings. The most significant input into this valuation method was price per square metre of reinstatement cost.

### Financial guarantees

The fair value of financial guarantees is determined based on probability weighted discounted cash flow method. The probability has been estimated and assigned using the following key assumptions:

- The likelihood of the guaranteed party defaulting within the guaranteed period;
- The exposure on the portion that is not expected to be recovered due to the guaranteed party's default; and
- The estimated loss exposure if the guaranteed party were to default.

The financial guarantees have not been recognised in the financial statements of the Group as the requirements to reimburse are remote and the Group does not expect to incur material losses under these corporate guarantees. As at 30 June 2022, there was no indication that the subsidiaries would default on payments.

## 33. CAPITAL MANAGEMENT

The primary objective of the Group's and of the Company's capital management is to build and maintain a strong capital base so as to maintain healthy capital ratios and at the same time be able to leverage on the capital to provide the Group and the Company with the funds to fund their expansion and growth.

The Group and the Company manage their capital structure, and make adjustment to it, in the light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust dividend payment to shareholders, return capital to shareholders or issue new shares, raise new debts and reduce existing debts.

The Group and the Company monitor capital using gearing ratio. The gearing ratio is calculated as net debt divided by total equity. Net debt is calculated as borrowings plus payables less cash and bank balances.

The gearing ratio of the Group and of the Company as at the end of the reporting period was as follows:

	Group		Company	
	2022 RM	2021 RM	2022 RM	2021 RM
Loans and borrowings	99,815,832	124,199,371	-	-

Gearing ratio	82%	131%	42%	38%

Under the requirements of Bursa Malaysia Guidance Note 3, the Group is required to maintain a consolidated shareholders' equity equal to or not less than the 25% of the issued and paid up capital (excluding treasury shares). The Group has complied with this requirement. There are no other external capital requirements imposed on the Group and the Company.

## 34. SEGMENT INFORMATION

### (i) Operating segment

For management purposes, the Group is organised into business units based on its products and services, and has three (3) reportable operating segments as follows:

Distribution	Distribution of third party consumer packaged goods
Manufacturing	Manufacturing of bakery products
Others	Investment holding, transportation support activities, corporate and administrative services

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which, in certain respects as explained in the table below, is measured differently from operating profit or loss in the consolidated statement of profit or loss and other comprehensive income. Group financing (including finance costs) and income taxes are managed on a group basis and are not allocated to operating segments.

## 8. Explanatory Notes on Special Business

### Resolution 8 pursuant to Section 76 of the Companies Act, 2016

The proposed Resolution 8 is intended to renew the authority granted to the Directors of the Company at the Seventh Annual General Meeting of the Company held on 6 December 2021 to issue and allot shares at any time to such persons in their absolute discretion without convening a general meeting provided that the aggregate number of the shares issued **does not exceed 10%** of the issued and paid-up share capital of the Company for the time being. This authority will, unless revoked or varied by the Company in general meeting, expire at the conclusion of the next Annual General Meeting.

As at the date of this Notice, a total of 11,568,516 placement shares had been issued and allotted on 29 December 2021 pursuant to a mandate granted to the Directors at the last Annual General Meeting held on 6 December 2021. The status of utilisation of proceeds as at 17 October 2022 is as follows:

<b>Purpose</b>	<b>Proposed Utilisation (RM'000)</b>	<b>Actual utilisation (RM'000)</b>	<b>Unutilisation amount (RM'000)</b>	<b>Estimated timeframe for utilisation of proceeds (from receipt of proceeds)</b>
Repayment of borrowings	791	(791)	-	Within 6 months
Working capital	812	(812)	-	Within 12 months
Estimated expenses in relation to the Placement	54	(54)	-	Within 1 month
<b>Total</b>	<b>1,657</b>	<b>(1,657)</b>	<b>-</b>	

The general mandate for the issue of shares will provide flexibility to the Company for any possible fund raising activities, including but not limited to further placing of shares for purpose of funding future investment, working capital and/or acquisition(s).

The approval of the issuance and allotment of the new shares under Sections 75 and 76 of the Companies Act 2016 shall have the effect of the shareholders having agreed to waive their statutory pre-emptive rights pursuant to Section 85 of the Companies Act, 2016 and Clause 54 of the Constitution of the Company, the shareholders of the Company hereby agree to waive and are deemed to have waived their statutory pre-emptive rights pursuant to Section 85 of the Companies Act, 2016 and Clause 54 of the Constitution of the Company pertaining to the issuance and allotment of new shares under Sections 75 and 76 of the Companies Act 2016, which will result in a dilution to their shareholding percentage in the Company.
