Profit before tax	3,729	3,543	5.2	6,352	5,909	7.5

**CUMULATIVE PERIOD** 

For the current quarter under review, the Group's revenue was at RM14.672 million as compared to RM20.058 million in the previous corresponding quarter. The decline was attributed to lower revenue from the roll-out of the cash recycling machines ("CRM") to our banking customers due to the ongoing Covid-19 pandemic. Despite lower revenue from CRM, profit before tax ("PBT") increased marginally to RM3.729 million from RM3.543 million in the previous corresponding quarter, mainly due to the higher sales and profit contribution from our solutions and services segment.

For the current year to date, the Group registered a lower revenue of RM28.630 million as compared to RM37.287 million in the preceding year due to the abovementioned reason. Despite the decrease in revenue, the Group recorded a higher profit before tax ("PBT") of RM6.352 million as compared to RM5.909 million in the preceding year. The higher PBT was driven by strong profit contribution from our solutions and services segment that comprises software development services, life-cycle maintenance services for CRMs, business process outsourcing in bill payment kiosks and cheque processing.

Revenue	14,672	13,957	5.1

		=======	=======

The higher revenue of RM14.672 million for the current quarter ended 30 June 2021 as compared to RM13.957 million in the preceding quarter was mainly due to higher growth in solutions and services segment. As a result, the Group posted a higher profit before tax ("PBT") of RM3.729 million for current quarter as compared to RM2.623 million in the preceding quarter.

### **B3.** Prospects

With the Covid-19 pandemic still raging globally and causing unprecedented disruption to economic activities, our Group continues to prioritise cash conservation and cost control, as well as to generate new revenue streams in merchant acquiring services, e-wallet top-up kiosks, online solar marketplace and secured delivery services to improve the top and bottom lines of our Group.

Despite the prolonged pandemic disruption, our Group has maintained a steady pace due to our strong fundamentals and recurring nature of our business model that has been engineered over the last couple of decades. Our services business such as maintenance services for cash recycling ATMs, bill payment and top-up kiosks, cheque processing and software development services continues to be highly relevant and in demand.

If this unparalleled health and economic crisis can be contained in the near future, underpinned by the accelerated vaccination programme from our government, and businesses are allowed to operate normally, OpenSys expects that the performance of our Group will continue to be satisfactory for the financial year ending 31 December 2021, barring more unforeseen circumstances.
