EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B1 Review of Performance of the Group and Company

The Group's revenue for the fourth quarter ended 31 December 2020 ("Q4") was RM2.87 million, as compared to revenue of RM1.61 million reported in the previous corresponding quarter ("PCQ4"). The improve in revenue of 78.99% as compared with PCQ4 was due to higher revenue recognised from its property development activities and the increase in rental income derived from the new tenants. Higher revenue has translated to lower loss before tax of RM0.85 million recorded for Q4 as compared to a loss before tax of RM2.06 million in PCQ4.

For the 12 months ended 31 December 2020, the Group recorded a revenue of RM4.19 million from the property development segment and RM2.32 million from the investment property segment which brings the Group's total revenue to RM6.51 million, an increase of 29.87% as compared to a revenue of RM5.01 million recorded in the previous year. The increase in revenue was attributed to higher revenue recognition in respect of property development activities and the increase in rental income derived from the new tenants in the investment property segment.

Other income of RM0.91 million for the 12 months is mainly derived from the interest income earned from short-term cash deposits and placements in fixed deposit with the licensed bank. The decline in other income by 32.66% was mainly due to lower interest income earned resulted from the decrease in cash deposits placed with licensed banks as compared with last year.

For the 12 months, the Group recorded a loss before tax of RM3.81 million, representing a decline of 6.81% as compared with RM4.09 million reported in the same period last year. The property development segment recorded a loss before tax of RM3.37 million whilst the investment property segment posted a loss before tax of RM0.44 million. Lower loss recorded in the 12 months under review was mainly due to the improvement in contribution from the property segment with higher revenue recognised in its property development activities.

B2 Material Changes in the Group Quarterly Results Compared to the Results of the Preceding Quarter

The Group posted a lower pre-tax loss of RM 0.85 million in Q4 as compared to a pre-tax loss of RM1.44 million in Q3. The decrease in pre-tax loss reported in Q4 was mainly due to higher revenue recognised from its property development activities in the current quarter.

B3 Prospect For The Next Financial Year

The Group's prospects for the next financial year remain challenging with the continuous high number of Covid-19 cases and the implementation of Movement Control Order Two ("MCO2"). The Group foresee that the property sale and construction progress will move at a slower pace. Nevertheless, the Group is anticipated

for the availability of the vaccines to bring recovery in economy and pandemic by end of 2021. In the meantime, the long-term rental income from the investment property segment shall continue to provide a sustainable income stream to the Group.
