B. ADDITIONAL INFORMATION REQUIRED BY THE MAIN MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

B1. Review of performance

The Group recorded revenue of approximately RM37.74 million for the current quarter, an increase of approximately RM3.85 million compared to the revenue of approximately RM33.89 million in the preceding year's corresponding quarter. Revenue from animal health products and equipment increased by approximately RM5.25 million from approximately RM24.20 million in the preceding year's corresponding quarter to approximately RM29.45 million in the current quarter with approximately RM3.70 million being contributed by the newly acquired subsidiaries, OLSB and NLN, which became part of the Group upon completion of the acquisitions on 1 July 2020. Revenue from food ingredients decreased by approximately RM2.93 million from approximately RM8.98 million in the preceding year's corresponding quarter to approximately RM6.05 million in the current quarter, but the decrease was compensated by revenue from dairy farming which is segmented under others, of approximately RM1.56 million contributed by another newly acquired subsidiary, NLF.

In line with the increase in revenue, the Group's profit before tax for the current quarter of approximately RM4.14 million was approximately RM0.90 million higher compared to the profit before tax of approximately RM3.24 million reported for the preceding year's corresponding quarter. The increase in total distribution costs and administration expenses of approximately RM1.14 million during the current quarter was due to the inclusion of such expenses of the newly acquired subsidiaries.

B2. Material changes in the quarterly results compared to the immediate preceding quarter

The Group's revenue of approximately RM37.74 million for the current quarter was approximately RM4.26 million lower compared to the revenue of approximately RM42.00 million reported for the preceding quarter. Revenue from animal health products and equipment decreased by approximately RM4.23 million from approximately RM33.68 million in the preceding quarter to approximately RM29.45 million in the current quarter. Revenue from food ingredients also decreased by approximately RM1.47 million from approximately RM7.52 million in the preceding quarter to approximately RM6.05 million in the current quarter. Meanwhile, revenue from dairy farming which is segmented under others, increased by approximately RM1.32 million from approximately RM0.24 million in the preceding quarter to approximately RM1.56 million in the current quarter.

Consistent with the decrease in revenue as compared to the immediate preceding quarter, the Group's profit before tax for the current quarter of approximately RM4.14 million was approximately RM0.35 million lower compared to the profit before tax of approximately RM4.49 million reported for the preceding quarter.

B3. Prospects

The continued expansion of our capacity and operations through our future plans would provide a platform to grow and sustain our business. The Group will continue to focus on strengthening its production capabilities, product competitiveness and market position, while constantly seeking ways to mitigate the risks associated with its business. The Group will also continue to improve its internal controls and processes based on prudent management practices. In addition to improving on current operations, the Group is vigilant in identifying new business opportunities that has the potential for continuous growth and expansion.

In line with the projected growth of the Malaysian economy, the livestock industry is also anticipated to grow due to the corresponding growing Malaysian population resulting in the demand for meat as a source of protein to soar. The estimated increase in livestock in

Malaysia is expected to result in correlating increase in demand for animal pharmaceutical and veterinary products, including animal feed to meet the rising needs. This is expected to augur well for the Group to ride on the growth trajectory in line with the government's endeavour to develop a sustainable livestock industry in the country for national food security.

We are also anticipating growth in our dairy production business segment due to the projected uptrend in the local market. The production of milk in Malaysia was expected to increase in line with the government's aim to increase the country's fresh milk self-sufficiency level to 100% within five years and this will create abundant opportunities for the Group to capitalise on.

The Covid-19 pandemic that has been sweeping the globe in recent times has been anticipated to have a negative impact on the Malaysian macro-economy as well as on the economic welfare of its population. After months of containment measures to curb the spreading of the Covid-19 virus, Malaysia's economy has reopened and continues to be in recovery in 2021. The Group which is actively involved in the animal health and nutrition market, is within the ambit of the food industry's supply chain and the Board is cautiously optimistic of the impact that the recovery will have on our operations.

B4. Profit forecast

The Group has not issued any profit forecast in any form of public documentation and announcement.
