The Group recorded revenue of RM22.51 million for the current quarter and cumulative financial quarter ended 31 March 2020.

Overall, the Group registered profit before tax of RM3.97 million in the current and cumulative financial quarter under review.

B2. Comparison with Immediate Preceding Quarter's Results

There are no comparative figures for the preceding quarter available as this is the first Interim Financial Report for the first quarter ended 31 March 2020 announcement in compliance with the Listing Requirements.

B3. Commentary on Prospects

The Covid-19 pandemic impacted many industries including the oil and gas industry. In an effort to curb the spread of the pandemic, unprecedented measures such as mobility and travel restrictions were taken by many countries. This has resulted in massive decline of economic activities leading to significant decline in demand for energy consumption and consequently the drastic drop in oil prices. As a result of economic uncertainties and the low oil prices, many of the global oil majors are pressured to cut back on their capital expenditure and operating expenses.

In Malaysia, Movement Control Order (MCO) was implemented on 18 March 2020. Although the oil and gas industry is deemed an essential service, we face operational issue due to the 14 days quarantine requirement for works at certain locations in addition to the reduced flight frequency between East and West Malaysia as a result of the travel restriction. Petronas had announced in May 2020 that it planned to reduce its capital expenditure by 21% and operating expenditure by 12% compared to what it had previously budgeted for 2020. Against these backdrops, a reduction in spending could reduce demand for the services provided by our Group and consequently may have an adverse effect on our financial performance.

In Mauritania, in order to contain the Covid-19 pandemic, the Government of Mauritania closed its borders to travel into and out of the country effective from 17 March 2020 rendering crew change not possible to be carried out. Consequently, our client, PC Mauritania 1 Pty Ltd (PCM1PL), declared force majeure on our contract on 29 March 2020 followed by the suspension of the contract from 28 April 2020 until further notice. The contract was approximately 20% completed at the time of suspension. This suspension will adversely affect our business activities and financial performance in Mauritania in the current financial year as we do not have any indication as to when travel restrictions will be lifted by the authority.

B3. Commentary on Prospects (Cont'd)

The adverse impact of the suspension was mitigated by the following factors:

1. As part of the suspension, PCM1PL agreed to pay us the following:
 - (a) an upfront payment of USD2.27 million which is 40% of the remaining value of one (1) of the subsisting work order (excluding manpower) and we have received this payment in May 2020.
 - (b) A sum of USD10,000 per month as rental payment for a warehouse and explosive bunker that we are renting in Mauritania to store our inventories for the contract, for the duration of the suspension period. Furthermore, this amount is sufficient to cover all the rental expenses for these premises.
2. As at 31 December 2019, we had received the mobilisation fees of RM19.86 million which is to be recognised as revenue progressively against work done. As at the currently reporting quarter, we have recognised RM3.51 million as revenue and the balance of RM16.35 million will be recognised progressively against the remaining work, which we expect to resume after PC Mauritania 1 Pty Ltd lifts its suspension of the contract.

On contract front, we had managed to secure 4 new call out contracts for the first 5 months of the current financial year up to May 2020 as follow:

1. 2 call out contracts for well perforation from Vestigo Petroleum Sdn Bhd (Vestigo) and Repsol Oil and Gas Malaysia Limited (Repsol). The contract from Vestigo is valid until September 2023 while the Repsol's contract duration is 2 years from May 2020 with an option to extend for another year.
2. 1 call out contract for wireline services from Vestigo in February for the provision of slickline equipment and services for a period of 4 months.
3. 1 call out contract for well leak repair from Japan Vietnam Petroleum Company Ltd in April for 1 year with an option to extend for another year.

During the same 5 months period, we had also secured extension for 3 call-out contracts. The well leak repair contracts from ExxonMobil Exploration & Production Malaysia Inc. and Repsol were extended for 2 years and 1 year to expire in April 2022 and May 2021 respectively. Our well perforation contract with Roc Oil (Sarawak) Sdn Bhd was extended for another year and will expire in August 2021.

Nevertheless, the aforesaid call out contracts do not provide any assurance of future revenue as we are only called to provide the services as and when they are required by the customers and there is no guarantee that the customers will issue work orders to us during the contract duration period.

Although we were not materially affected in this reporting quarter, we are cautious of the challenges ahead posed by the Covid-19 pandemic. The Group is committed to take proactive and appropriate measures to remain resilient during this unprecedented time and at the same time implementing our business strategies cautiously to sustain our growth.

B4. Profit Forecast

The Group does not issue any profit forecast during the current financial quarter under review.

B5. Income Tax Expenses

Notes:

- (1) Income tax is calculated at the Malaysian statutory tax rate of 24% of the estimated assessable profit for the current period.
- (2) The Effective tax rate ("ETR") is computed by dividing tax expense by profit before tax for the financial period. The ETR of the Group for the current period were lower than the statutory tax rate mainly due to tax effects from the utilisation of capital allowances and tax losses enjoyed by its subsidiaries.
- (3) No comparative figures for the preceding year's corresponding quarter and period-to-date is available as this is the first interim financial report announced in compliance with the Listing Requirements.
