The protracted Covid-19 situation and the surge in the Covid-19 infections in Quarter 3 has further affected the economy in Malaysia and generally most businesses.

As the Group relies heavily on its vast distribution network, it has embarked on the route of digital transformation and using e-commerce as a platform to promote the sales of its products. Efforts have been made to develop greater online presence, focusing on the automotive products that end-users can fit themselves. Over the years, the Group's house brand "HANSA" has gained recognition amongst its conventional business network. Thus, the Group takes a great effort to promote it through the e-commerce platform. In addition, the Group will invest to create more awareness of its house brand. The Group is also taking steps to collaborate with other key players in Malaysia to boost its sales.

With the significant increase in shipping cost and expenses, the Group has strategically re-allocated its resources to reduce the operational and administrative costs. It has brought a positive impact to the Group's performance.

Despite the uncertain economic scenario posed by Covid-19 pandemic, the Group will continue its efforts to foster new customers' relationships, enhance its supply chain management, productivity and cost management to mitigate the increase in shipping cost and expenses.
