2. Changes in accounting policies (cont'd.)

2.1 Adoption of New MFRS and Amendments to MFRSs (cont'd.)

MFRS 17 *Insurance Contracts* and Amendments to MFRS 17

The Group has applied MFRS 17, including any consequential amendments to the other standards, from 1 January 2023. This standard has brought significant changes to the accounting for insurance and reinsurance contracts. As a result, the Group has restated certain comparative amounts and presented a third statement of financial position as at 1 January 2022.

The nature and effects of the key changes in the Group's accounting policies resulting from its adoption of MFRS 17 are summarised below:

Changes to recognition, classification and measurement

The adoption of MFRS 17 did not change the classification of the Group's insurance contract.

MFRS 17 establishes specific principles for the recognition and measurement of insurance contracts issued and reinsurance contracts held by the Group. The key principles of MFRS 17 are that the Group:

- identifies insurance contracts as those under which the Group accepts significant insurance risk from another party (the policyholder) by agreeing to compensate the policyholder if a specified uncertain future event (the insured event) adversely affects the policyholder;
- Separates specified embedded derivatives, distinct investment components and distinct goods or services other than insurance contract services from insurance contracts and accounts for them in accordance with other standards;
- Divides the insurance and reinsurance contracts into groups it will recognise and measure;
- Recognises and measures groups of insurance contracts at:
 - A risk-adjusted present value of the future cash flows (the fulfilment cash flows) that incorporates all available information about the fulfilment cash flows in a way that is consistent with observable market information;

Plus

- An amount representing the unearned profit in the group of contracts (the contractual service margin or CSM);

2. Changes in accounting policies (cont'd.)

2.1 Adoption of New MFRS and Amendments to MFRSs (cont'd.)

MFRS 17 *Insurance Contracts* and Amendments to MFRS 17 (cont'd.)

Changes to recognition, classification and measurement (cont'd.)

- Recognises profit from a group of insurance contracts over each period the Group provides insurance contract services, as the Group is released from risk. If a group of contracts is expected to be onerous (i.e., loss-making) over the remaining coverage period, the Group recognises the loss immediately;
- Recognises an asset for insurance acquisition cash flows in respect of acquisition cash flows paid, or incurred, before the related group of insurance contracts is recognised. Such an asset is derecognised when the insurance acquisition cash flows are included in the measurement of the related group of insurance contracts.

MFRS 17 introduces different measurement models in calculating re(insurance) contract liabilities where the core is General Measurement Model (“GMM”) based on the building blocks of discounted, probability-weighted cash flows, a risk adjustment and a contractual service margin (“CSM”), supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach) which is not applicable to the Group's insurance contracts; and
- A simplified approach, Premium Allocation Approach (“PAA”) mainly for re(insurance) contracts with a coverage period of 12 months or less, or for which such simplification would produce a measurement of the LRC that would not differ materially from the one that would be produced applying the GMM. However, the liability for incurred claims (“LIC”) will need to be measured based on GMM.

The Group applies PAA for its non-life segment, of which such simplification would produce a measurement of the LRC that would not differ materially from the one that would be produced applying the GMM. However, the liability for incurred claims (“LIC”) will need to be measured based on GMM.

The measurement principles of the PAA differ from the ‘earned premium approach’ used by the Group under MFRS 4 in the following key areas:

- The liability for remaining coverage reflects premiums received less deferred insurance acquisition cash flows and less amounts recognised in revenue for insurance services provided;

2. Changes in accounting policies (cont'd.)

2.1 Adoption of New MFRS and Amendments to MFRSs (cont'd.)

MFRS 17 *Insurance Contracts* and Amendments to MFRS 17 (cont'd.)

Changes to recognition, classification and measurement (cont'd.)

- Measurement of the liability for remaining coverage includes an adjustment for the time value of money and the effect of financial risk where the premium due date and the related period of services are more than 12 months apart;
- Measurement of the liability for incurred claims (previously claims outstanding and incurred-but-not reported ("IBNR") claims) is determined on a discounted probability-weighted expected value basis, and includes an explicit risk adjustment for non-financial risk. The liability includes the Group's obligation to pay other incurred insurance expenses.
- Measurement of the asset for remaining coverage (reflecting reinsurance premiums paid for reinsurance held) is adjusted to include a loss-recovery component to reflect the expected recovery of onerous contract losses where such contracts reinsure onerous direct contracts.

For insurance acquisition cash flows, the Group allocates the acquisition cash flows to groups of insurance contracts issued or expected to be issued using a systematic and rational basis. Insurance acquisition cash flows include those that are directly attributable to a group and to future groups that are expected to arise from renewals of contracts in that group. Where such insurance acquisition cash flows are paid (or where a liability has been recognised applying another MFRS standard) before the related group of insurance contracts is recognised, an asset for insurance acquisition cash flows is recognised. When insurance contracts are recognised, the related portion of the asset for insurance acquisition cash flows is derecognised and subsumed into the measurement at initial recognition of the insurance liability for remaining coverage of the related group.

Changes to presentation and disclosures

For presentation in the statement of financial position, the Group aggregates insurance and reinsurance contracts issued and reinsurance contracts held, respectively and presents separately:

- Portfolios of insurance and reinsurance contracts issued that are assets;
- Portfolios of insurance and reinsurance contracts issued that are liabilities
- Portfolios of reinsurance contracts held that are assets;
- Portfolios of reinsurance contracts held that are liabilities.

MFRS 17 *Insurance Contracts* and Amendments to MFRS 17 (cont'd.)

Changes to recognition, classification and measurement (cont'd.)

The portfolios referred to above are those established at initial recognition in accordance with the MFRS 17 requirements.

Portfolios of insurance contracts issued include any assets for insurance acquisition cash flows.

The line item descriptions in the statement of profit or loss and other comprehensive income have been changed significantly compared with last year. Previously, the Group reported the following line items:

- Gross written premiums;
- Net written premiums;
- Changes in premium reserves;
- Gross insurance claims; and
- Net insurance claims.

Instead, IFRS 17 requires separate presentation of:

- Insurance revenue;
- Insurance service expenses;
- Insurance finance income or expenses; and
- Income or expenses from reinsurance contracts held.

The Group provides disaggregated qualitative and quantitative information in the notes to the financial statements about:

- Amounts recognised in its financial statements from insurance contracts; and
- Significant judgements, and changes in those judgements, when applying the standard.

Transition

On transition to IFRS 17, the Group has applied the full retrospective approach unless impracticable. The Group has applied the full retrospective approach on transition to all contracts issued on or after 1 January 2018.

On transition date, 1 January 2022, the Group:

- Has identified, recognised and measured each group of insurance contracts as if MFRS 17 had always applied;
- Has identified, recognised and measured assets for insurance acquisition cash flows as if MFRS 17 has always applied. However no recoverability assessment was performed before the transition date. At transition date, a recoverability assessment was performed and no impairment loss was identified;
- Derecognised any existing balances that would not exist had IFRS 17 always applied;
- Recognised any resulting net difference in equity.

The Group has applied the transition provisions in MFRS 17 and has not disclosed the impact of the adoption of MFRS 17 on each financial statement line item and EPS. The effects of adopting MFRS 17 on the consolidated financial statements at 1 January 2022 are presented in the statement of changes in equity.

The Group's low effective tax rates in prior periods is mainly due to the share of loss from an associate.

14. Fair value measurement

The carrying values of financial assets and liabilities which are not carried at fair value approximate fair values due to their short-term maturity.

The Group uses the following hierarchy for determining and disclosing the fair values of financial instruments by valuation techniques:

- Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities
- Level 2: Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly
- Level 3: Techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The following table provides an analysis of assets measured and/or disclosed at fair value on a recurring basis in accordance with the fair value hierarchy:

		<-- Valuation technique using -->

20. Commentary on prospects

The Group is optimistic about its growth opportunities in the three business pillars of the Group, namely Lifestyle, Health and Small & Medium Enterprises (“SME”).

Under the Lifestyle pillar, the Group is optimistic that with year-end travel peak season approaching, the Group is well positioned to achieve higher growth in the travel segment. In the Motor segment, the Group is also optimistic that the existing growth momentum achieved in the recent quarters, shall continue to deliver growth to the Group in the coming quarters.

The growth in the PA premium will however be affected with the discontinuation of Tenang PA programme. The Group is in discussion with the relevant authorities for the Tenang PA premium payment. The anticipated recovery in travel and Motor growth are expected to offset the impact from the discontinuation of Tenang PA under our Lifestyle pillar.

The recent change in the Group investment strategy emphasises stable investment returns and expected to continue delivering favourable investment returns in the coming quarters.

The Group remains confident that its business strategies and capital strength will continue to fuel the growth of the Group over the medium to longer term.

(a) Update to the Malaysian Competition Commission ("MyCC")'s Proposed Decision against PIAM and its 22 members

On 22 February 2017, the general insurance subsidiary, TIMB received a notice from the Malaysia Competition Commission ("MyCC") concerning a proposed decision ("proposed decision") which found that TIMB and 21 other general insurance companies in Malaysia who are all members of the General Insurance Association of Malaysia ("PIAM") had infringed one of the prohibitions under the Competitions Act 2010 ("CA") in Malaysia, pursuant to its investigation outcome in respect of the agreement entered into between PIAM and the Federation of Automobile Workshop Owners' Association of Malaysia ("FAWOAM") concerning the cap on the parts trade discount rates and minimum agreed labour rates payable by the insurers to the PIAM Approved Repairer's Scheme workshops. These rates were subsequently approved and adopted by PIAM members, including TIMB.

Subsequent to MyCC's issuance of its proposed decision, PIAM and its 22 members, including TIMB, were given the opportunity to make written representations in their defence and TIMB had on 5 April 2017 filed in its written representations with MyCC. TIMB's oral representations were presented before MyCC on 29 January 2018.

Subsequently, TIMB received a notice from MyCC informing TIMB of its decision dated 14 September 2020, wherein they have found that TIMB and 21 other members of PIAM had infringed Section 4 of the CA ("Decision").

The MyCC in its Decision, had imposed a financial penalty of RM2,571,078 only on the part of TIMB and a consolidated amount of RM130,241,475 on all 22 members of PIAM, net of a 25% reduction granted on the final penalties after taking into consideration the economic impact arising from the Covid-19 pandemic. The MyCC had also granted the parties a moratorium period of six (6) months up to 24 March 2021 to pay the financial penalty imposed. The MyCC had also allowed the parties, including TIMB, to pay the financial penalty imposed by way of up to six (6) equal monthly instalments.

The MyCC had also directed TIMB to cease implementing the agreed parts trade discount and the hourly labour rate previously agreed upon with the workshops with immediate effect ("Cease and Desist Order"). All future parts trade discount rate and future hourly labour rates with the workshops would be negotiated independently.

For the period ended 30 September 2023

23. Material litigation (cont'd.)

(a) Update to the Malaysian Competition Commission ("MyCC")'s Proposed Decision against PIAM and its 22 members (cont'd.)

TIMB, in consultation with their legal counsel, is of the view that TIMB has not infringed Section 4 of the CA and has taken all necessary and appropriate actions to defend its position. Accordingly, TIMB has not made any provision, and has continued to disclose the matter as an on-going litigation until further development.

TIMB had filed its Notice of Appeal with the Competition Appeal Tribunal ("CAT") pursuant to Section 51 of the CA and had filed an application for a stay of the financial penalty with the CAT pursuant to Section 53 of the CA on 13 October 2020 and 14 October 2020 respectively.

On 23 March 2021, the CAT allowed TIMB's application for a stay of the financial penalty. The CAT has also stayed the Cease and Desist Order.

On 2 September 2022, TIMB and the other general insurance companies succeeded in their appeal to the CAT ("Appeal Decision").

MyCC applied for leave to apply for judicial review of the Kuala Lumpur High Court Decision ("Application"). TIMB and the other general insurance companies filed their affidavits on 3 January 2023 to oppose the Application. Hearing date of the Application is fixed on 30 November 2023 at the Kuala Lumpur High Court.

(b) Tax dispute with the Lembaga Hasil Dalam Negeri ("LHDN")

On 20 December 2018, TIMB received Notice of Additional Assessment (Form JA) from the Lembaga Hasil Dalam Negeri ("LHDN") in respect of Years of Assessment ("YA") 2013 to 2015, wherein a sum of RM11.1 million of additional taxes and penalties was sought by the LHDN.

TIMB is of the view given legal advice received that out of the RM11.1 million of additional taxes and penalties levied by the LHDN, RM10.7 million, being the disputed additional tax and penalties, is open to challenge and has hence, engaged tax solicitors to assist in challenging the said disputed additional tax and penalties imposed by the LHDN.

On 11 January 2019, TIMB filed an Affidavit to the High Court of Malaya ("High Court") to apply for a judicial review against LHDN's assessments. On 23 May 2019, the High Court granted TIMB's application for judicial review with cost of RM5,000. The High Court ordered for the Notice of Assessment from LHDN to be amended to allow the deduction of PRAD expenses and dismissed the penalty imposed in relation to this issue. The High Court also ordered a stay of proceedings against the payment of taxes on the other additional taxes and penalties levied by LHDN until the determination of the appeal before the Special Commissioners of Income Tax ("SCIT").

For the period ended 30 September 2023

23. Material litigation (cont'd.)

(b) Tax dispute with the Lembaga Hasil Dalam Negeri ("LHDN") (cont'd.)

On 11 June 2019, LHDN file a Notice of Appeal against the decision of the High Court. The appeal was subsequently withdrawn and a consent order was entered at the Court of Appeal on 13 November 2020 stating:

- (a) the PRAD expenses are allowed for deduction for income tax purposes;
- (b) LHDN will issue the Notices of Reduced Assessment for the Years of Assessment 2013, 2014 and 2015 within 90 days of the date of the order;
- (c) the consent order applies only to this case;
- (d) the High Court order dated 23 May 2019 is affirmed; and
- (e) no order as to cost.

With this, the total amount currently on appeal before the SCIT is RM3.8 million.

The matter is fixed for mention on 2 January 2024 for parties to update on the settlement negotiation. In the event no settlement is achieved, hearing dates will be fixed.

TIMB has made an additional tax provision of RM1.2million in relation to the disputed tax and penalties. This provision has been established while awaiting further developments in the appeal before the SCIT. TIMB believes that the provision is adequate based on legal advice received.

(c) Litigation between TIPCL with a foreign reinsurance broker (the "Broker")

On 25 November 2022, TIPCL, a 49% owned associate company of the Company, commenced legal proceedings against the Broker and its director in the courts of Thailand.

On 14 August 2020, the Broker issued a reinsurance slip wherein three foreign insurers ("Three Reinsurers") would provide reinsurance to TIPCL to allow TIPCL to facilitate an insurance policy. Subsequently, TIPCL was informed that the sole reinsurer of this insurance arrangement was in fact another reinsurer which was not aligned with TIPCL's internal guidelines.

On 9 March 2023, the Broker filed its Defence and Counterclaim to the court of Thailand. On 11 April 2023, TIPCL filed its Reply to Defence and Defence to the Counterclaim accordingly.

The matter was fixed for Trial from 17 to 20 October 2023. The Thailand Court will deliver its Judgment on this matter on 20 December 2023.

As at 30 September 2023, net impairment impact to the Group's 49% equity interest in TIPCL was RM8.3 million (as at 31 December 2022: RM7.9 million).
