## B3. Prospects

The demand for petrochemical industries products are influenced by the market economic conditions. As a supplier of pumps and compressors to both upstream as well as downstream of petrochemical industries, the demand for our products and services will inevitably be affected as well.

Notwithstanding recent improvement in crude oil prices, the Group does not experience any increase in operating expenditure and capital expenditure of our oil and gas clients, as such the pressure on the Group would continue. The Company will stay focus on maintenance and services and will stay relevant to the industry.
