UNAUDITED INTERIM FINANCIAL REPORT FOR THE YEAR ENDED 31 DECEMBER 2014

PART A: EXPLANATORY NOTES PURSUANT TO MFRS 134

A1. BASIS OF PREPARATION

The unaudited interim financial report has been prepared in accordance with the reporting requirements as set out in Malaysian Financial Reporting Standards No.134 – "Interim Financial Reporting" and paragraph 9.22 of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad.

The unaudited interim financial report should be read in conjunction with the audited financial statements for the financial year ended 31 December 2013 and the attached explanatory notes. These explanatory notes provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the financial year ended 31 December 2013. The results of the associates are based on unaudited management accounts. The power generating facility operated by Cambodia Utilities Pte. Ltd. ("CUPL") under a build, operate and transfer agreement with Electricite Du Cambodge expires in May 2015. Upon its expiration, the balance of the investment in CUPL will be represented by liquid assets.

The significant accounting policies and methods of computation applied in the unaudited interim financial report are consistent with those adopted in the most recent annual financial statements for the financial year ended 31 December 2013, except for a change in the Group's accounting policy on inventory valuation. On 1 January 2014, the Group adopted the weighted average cost method for inventory valuation across the Group, which is more appropriate to the Group's businesses. The adoption of this new policy had no material effect on the amounts reported by the Group for the current or prior financial years. The amendments to published standards effective for financial year beginning on 1 January 2014 that are applicable and adopted by the Group as follows:

Amendment to MFRS 132 Financial Instruments: Presentation - Offsetting Financial Assets

and Financial Liabilities

Amendment to MFRS 139 Financial Instruments: Recognition and Measurement -

Novation of Derivatives and Continuation of Hedge Accounting

The adoption of the above Amendments to MFRS has no material impact to the Group.

The Group has not early adopted the following accounting standards and amendments to published standards that have been issued by the Malaysian Accounting Standards Board ("MASB") as these are effective for the financial period beginning on or after 1 January 2015.

Annual improvements to MFRSs 2010 – 2012 cycle (effective 1 July 2014) Annual improvements to MFRSs 2011 – 2013 cycle (effective 1 July 2014)

The adoption of the above Annual improvements does not have a material impact to the Group for the financial year ending 31 December 2015.

MFRS 15	Revenue from Contracts with Customers (effective 1 January
	2017)
MFRS 9	Financial instruments (effective 1 January 2018)

The Group is in the process of assessing the impact on initial adoption of the above mentioned accounting standards and amendments to published standards.

The initial application of the abovementioned accounting standards and amendments to published standards are not expected to have any material impact to the financial statements of the Group except as mentioned below:

MFRS 15, Revenue from Contracts with Customers

MFRS 15 deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity's contracts with customers. Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard replaces MFRS 118 Revenue and MFRS 111 Construction contracts and related interpretations.

The adoption of MFRS 15 will result in a change in accounting policy. The Group is currently assessing the financial impact of adopting MFRS 15.

(A) Performance of the current quarter against the corresponding quarter

		Restated		
Revenue	RM'000	RM'000	RM'000	%
Power and Machinery	143,677	143,000	677	0.5

Maintenance, Repair and Overhaul	8,731	9,572	(841)	(8.8)
	205,797	173,451	32,346	18.6

Group revenue in the current quarter expanded by RM32.3 million compared with the corresponding quarter. The prime contributor to the increase was Oilfield Services segment.

On the segment basis, revenue of the **Power and Machinery** segment recorded an increase of RM0.7 million against the corresponding quarter mainly attributable to higher revenue contribution from parts and repairs of RM30.9 million. This was then partially offset by lower revenue from retrofit projects of RM27.2 million with deferment of certain Gas Turbine Integrity and Rehabilitation ("GATIR") projects to 2015 and the completion of most Turbine Enclosure Integrity Restoration ("TEIR") projects during the corresponding quarter, lower field service representatives activities of RM2.6 million and lower revenue derived from fleet management services and training of RM3.1 million.

The **Oilfield Services** segment experienced a revenue increase of RM32.5 million in the current quarter largely due to improvement from slickline activities of RM20.3 million on account of the Pan Malaysia Slickline Contracts secured in the third quarter of 2013 and higher level of oilfield chemicals activities of RM12.8 million.

The revenue contribution from the **Maintenance**, **Repair and Overhaul** segment decreased by RM0.8 million compared to the corresponding quarter with a reduction in revenue by the Rotary division of RM2.5 million with lower level of contract works secured for repairs and maintenance of motors and generators, offset by higher revenue derived from integrated corrosion maintenance activities of RM1.7 million.

	•	•	<u> </u>	

Profit before tax increased by RM3.5 million over the corresponding quarter due to higher contributions from the Oilfield Services segment.

The results of the **Power and Machinery** segment, were lower by RM2.9 million and was mainly attributable to higher margin earned for field service representatives activities in the corresponding quarter, marketing fees in connection with the provision of an offshore facility received in the corresponding quarter of RM1.6 million and higher operating expenses by RM0.9 million which were mainly staff related.

The **Oilfield Services** segment recorded a profit improvement of RM8.4 million on the back of the higher revenues earned primarily benefitting from the full impact of the slickline contracts secured in the third quarter 2013 and higher chemicals activities.

Whilst revenue decreased marginally by RM0.8 million, the **Maintenance**, **Repair and Overhaul** segment recorded a loss of RM3.0 million compared with a profit of RM0.2 million in the corresponding quarter. The negative result was largely due to weaker margins earned in the current quarter and higher operating expenses of RM0.8 million to support the business activities.

Share of associates' results decreased from RM3.9 million in the corresponding quarter to RM3.1 million for the current quarter and was mainly attributable to lower throughput from Malaysian Mud And Chemicals Sdn. Bhd. ("MMC") by RM0.8 million.

Group revenue to date lifted by RM179.3 million with revenue improvements posted by the three main business segments.

Revenue from the **Power and Machinery** segment improved by RM101.5 million compared to the corresponding year. The favorable performance was attributable to higher revenue from retrofit projects of RM66.0 million, exchange engines of RM15.5 million, field service representatives of RM14.4 million and repair and maintenance of valves and flow regulators of RM10.7 million.

The **Oilfield Services** segment experienced an increase in revenue from RM75.2 million in the corresponding year to RM146.5 million in the current year and was largely driven by slickline activities on the back of the Pan Malaysia slickline contracts secured in the third quarter of 2013 amounting to RM55.7 million and an increase in the level of oilfield chemicals activities of RM11.7 million mainly during the second half of the year.

The revenue contribution from the **Maintenance**, **Repair and Overhaul** segment increased from RM27.3 million in the corresponding year to RM33.9 million in the current year and was mainly attributable to improved contributions from both motor and generator maintenance and corrosion treatment related services of RM3.8 million and RM2.8 million respectively.

The Group recorded a profit before tax of RM92.0 million for the current year compared to RM73.3 million in the corresponding year. The increase for the current year was largely due to higher segment results from the Power and Machinery and Oilfield Services segments.

Whilst the segment recorded increased revenue of RM101.5 million, the results of the **Power and Machinery** segment for the current year to date was higher by RM6.1 million as the previous year's results benefited from a one-time marketing fee of RM9.4 million received in connection with the provision of an offshore facility.

Oilfield Services segment registered a result of RM28.3 million for the current year compared to RM7.3 million in the corresponding year. The better result was in line with increased slickline and oilfield chemicals activities.

Maintenance, Repair and Overhaul segment recorded a loss of RM5.3 million for the current year compared to a profit of RM1.9 million in the corresponding year mainly attributable to less favorable margins and higher operating expenses to support the expansion of the business activities.

Share of associates' results decreased by RM2.2 million attributable mainly to lower throughput from MMC. Contribution from CUPL remained consistent with that of the corresponding year at RM6.9 million.

The segments posted a lower result by RM11.2 million for the current quarter over the preceding quarter mainly due to less favorable performance by the Power and Machinery and the Maintenance, Repair and Overhaul segments.

Power and Machinery segment recorded a result of RM16.0 million for the current quarter compared with RM26.5 million in the preceding quarter. The less than favorable variance was attributable to lower revenue derived from retrofit projects and lower margin earned from field service representatives.

Oilfield Services segment registered a slightly higher result for the current quarter of RM7.2 million compared with RM6.0 million in the preceding quarter. Whilst the level of revenue increased by RM19.6 million during the current quarter attributable mainly to higher slickline and oilfield chemicals activities, however the margin earned thereon were largely offset by higher finance cost of RM0.3 million and foreign exchange losses of RM2.0 million on foreign currency denominated payables.

Maintenance, **Repair and Overhaul** segment recorded a higher loss by RM1.9 million for the current quarter and was mainly attributable to lower margins earned and higher operating expenses of RM0.8 million.

Share of associates' results increased by RM0.5 million attributable to higher contribution from CUPL of RM0.4 million and MMC of RM0.1 million.

B3. PROSPECTS

Global oil prices reached new lows in January 2015, and oil prices are expected to stay depressed compared with the recent past. In Malaysia, PETRONAS as announced would be making capital expenditure deferments and reductions in operational expenditure which in turn would affect the level of the oil and gas activities in the country. However, existing development and production activities are expected to continue thus ensuring an ongoing need for products and services for operations and maintenance. Whilst, the Group has a diversified portfolio of products and services to meet those requirements, there will be downward pressure on activities and margins.

B4. PROFIT FORECAST

The Group has not issued any profit forecast for the current financial year and therefore no comparison is available.

B5. INCOME TAX EXPENSE

Current income tax is calculated at the statutory rate of 25% of the assessable profit for the year. The statutory tax rate will be reduced to 24% from the current year's statutory rate of 25% effective year of assessment 2016. The computation of the deferred tax as at 31 December 2014 has reflected this change.
