Fair Value Changes of Financial Liabilities

The Group does not remeasure its financial liabilities at fair value after the initial recognition.

Fair Value

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. The valuation techniques used include the following or a combination thereof:-

- (i) Market approach - which uses prices and other relevant information generated by market transactions involving identical or comparable (i.e. similar) assets, liabilities or a group of assets and liabilities.
- (ii) Cost approach - which reflects the amount that would be required currently to replace the service capacity of an asset.
- (iii) Income approach - which converts future amounts (e.g. cash flows or income and expenses) to a single current (i.e. discounted) amount.

The inputs to valuation techniques used to measure fair value are categorised into the following levels of fair value hierarchy:-

- (i) Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- (iii) Level 3 - unobservable inputs for the asset or liability.

Non-financial Assets

The fair values of buildings are measured using the market comparison approach. Under this approach, the fair values are derived from observable market data such as prices per square foot for comparable properties in similar locations (i.e. Level 2).

Financial Assets and Financial Liabilities

The carrying amounts of receivables, cash and cash equivalents and payables which are short-term in nature or repayable on demand are reasonable approximations of fair values.

There were no transfers between levels of fair value hierarchy during the current quarter under review.

Current Period vs Corresponding Preceding Period

For the current quarter, the Group recorded revenue of RM12.496 million and profit before tax ("PBT") of RM3.630 million respectively.

Increase in revenue from RM12.415 million recorded in the corresponding preceding quarter ended 30 June 2020 ("Corresponding Preceding Quarter") to RM12.496 million recorded in the current quarter; representing a marginal increase by RM0.081 million or 0.65%.

The export sales remained the main contributor to our Group's total revenue for the current quarter, which accounted for RM10.011 million or 80.11% of our Group's total revenue for the current quarter. Export sales recorded in the current quarter is lower by RM0.229 million or 2.24% as compared to RM10.240 million recorded in the Corresponding Preceding Quarter. This was mainly due to decrease in revenue generated from our customers in Europe by RM1.025 million and other Asian countries by RM0.561 million and partially offset against increase in revenue contributed by our customers in North America by RM1.189 million.

Our Group recorded lower PBT at RM3.630 million for the current quarter, representing a decrease by RM1.128 million or 23.71% as compared to PBT of RM4.758 million recorded in the Corresponding Preceding Quarter. Decrease in PBT despite surge in revenue was mainly due to sales mix impact while fixed costs remained.

Current Cumulative Period vs Corresponding Preceding Cumulative Period

For the current financial period-to-date, the Group recorded total revenue of RM48.990 million and total PBT of RM14.631 million respectively.

The lower revenue for the current financial year-to-date, which representing a decrease of RM2.062 million or 4.04% as compared to revenue of RM51.052 million recorded in the corresponding preceding cumulative year ended 30 June 2020 ("Corresponding Preceding Cumulative Period"), was mainly attributable to the lower revenue contribution from both precision engineering and laser stencils segments.

Our Group recorded PBT of RM14.631 million for the current financial year-to-date, representing a decrease of RM6.663 million or 31.29% as compared to PBT of RM21.294 million recorded in Corresponding Preceding Cumulative Period. The decrease in PBT was mainly due to lower revenue contribution by both segments.

There was no unusual or material one-off gain/loss affecting the revenue or profit for the current quarter.

The Group is experiencing momentum of recovering in sales order from North America and Europe since beginning of 2021. Despite challenging results attained in the first half of the financial year, the market outlook in the months to come is expected to recover progressively based on the current macro-economic situation following the roll-out of COVID-19 vaccination. Nevertheless, the Board remains cautiously optimistic on the Group's business prospects in coming year.
