#### **B3.** Prospects and outlook

The Group has put in place a series of future plans as follows:

#### (a) Expansion of our electronic payment network

Our Group is continuously looking to expand our electronic payment network in Malaysia and will continue to purchase and deploy additional new digital payment terminals with the capability to accept payment cards and Quick Response ("QR") Payment. The Group is currently working with our partner banks on the development, testing and certification on the new digital payment terminals, which will be rolled out and deployed to the market in various stages. Besides that, the Group is also working closely with different e-wallet issuers to bring the payment acceptance into digital payment terminals.

#### (b) Regional expansion

Our businesses are predominantly concentrated in Malaysia. As part of our future business expansion, the Group initially intend to expand to ASEAN market and we have identified two (2) potential countries for our regional expansion, namely Myanmar and Cambodia.

However, due to the outbreak of Corona Virus Disease 2019 ("COVID-19"), the intended business plan was halted due to the lockdown of borders which impede the Group from travelling to Myanmar and Cambodia to set up its infrastructure and operations team. The Group has decided to temporary halt all regional business expansion until and upon the improvement of the pandemic. As the regional countries are slowly opening up the borders and receiving visitors, the Group will re-visit the regional expansion plan.

#### (c) Enhancement of revPAY and expansion of IT team

As IT forms the backbone and is an integral part of our business operations, it is crucial for our Group to continuously enhance, upgrade and maintain the scalability of our revPAY platform and its related software and systems to support our business expansion and technology advancement. The Group is continuously on the lookout for IT talent to expand our IT personnel.

#### (d) Value-added solutions and services

The acquisition of Wannapay Sdn Bhd (formerly known as Scanpay Sdn Bhd) ("WannaPay"), Wannatalk Malaysia Sdn Bhd ("Wannatalk"), as well as Vsure will enable the Group to provide additional value-added solutions and services to our customers which will complement the Group's existing business and provide a more robust Business-to-Business-Consumer ("B2B2C") solution.

### (e) Research & Development ("R&D")

Our Group continuously researching and developing more electronic solutions to be integrated with our revPAY. Such solutions will enable our customers to digitalise loyalty programme, rewards redemption, discount coupons and gift cards, bill payment, purchase of on-demand insurance, goods pick up via our digital payment terminals and via our WannaPay e-wallet. Our Group is also researching and developing issuing technology encompassing issuing payment security by leveraging on artificial intelligence to enhance the payment security features.

#### B3. Prospects and outlook (Cont'd)

Two (2) years had passed since the outbreak of the COVID-19 virus in early January 2020 and the Government had gradually and progressively eased the restriction and businesses were allowed to operate under strict Standard Operating Procedures and the economy is showing a sign of recovery as the outlook seems brighter after the implementation of National Immunisation Programme in 2021 to transition the nation back to normal social behaviours and activities, with the Gross Domestic Product ("GDP") expanded by 3.1% in 2021 and Bank Negara Malaysia ("BNM") is expecting the economy to remain on the recovery path.

The COVID-19 pandemic has hastened the digital adoption and cashless payment in Malaysia which was evident by the data provided by BNM where 233.6 million electronic money transactions worth a total of RM5 billion was recorded in November 2021 and the Government is taking the lead by setting the target to create cashless transactions for all government services by 2022 and has tasked BNM to take the lead to promote cashless and boost easy and secure digital transactions under the Malaysia Digital Economy Blueprint ("MyDigital") and the electronic payment ("e-payment") is projected to increase to 400 e-payment transactions per capita by 2022.

Whilst the country achieved a high level of vaccination rate and with the implementation of the third "booster" vaccine dose, the risk of COVID-19 virus infection is still lurking around and will continue to threaten the lives and the economy. With the global and local economy constantly lingering in uncertainty due to on-going battle to bring the COVID-19 pandemic under control, the financial performance for the financial year ending 2022 will remain challenging.

Premised on the above, the Group has embarked on a series of business strategies and future plans, however, the Board is cautious on the potential impact of the COVID-19 pandemic and will continue to manage the Group's business with vigilance during this uncertain period.
