# PART B - EXPLANATORY NOTES PURSUANT TO APPENDIX 9B OF THE LISTING REQUIREMENTS FOR THE ACE MARKET

#### **B1.** Review of Performance

The Group recorded revenue of RM15.2 million for the current quarter ("Q1FY2022"), a decrease of RM0.9 million as compared to revenue of RM16.0 million in previous year's corresponding quarter ("Q1FY2021"). The decrease in revenue was mainly because of revenue shrinkage by the China segment due to China government implementation of the property industry control measures and Covid-19 lock down in Shanghai and other various cities. This has led to a slowdown in the local economy activities as well as the project deliveries.

In tandem with the reduced top-line and increase in operating expenses especially in the investment in the X-series software, the Group reported a loss before tax of RM1.9 million in Q1FY2022 as compared to a profit before tax of RM0.8 million in Q1FY2021. As a result, the Group registered loss attributable to equity holders of the parent company of RM2.3 million as compared to profit attributable to equity holders of the parent company of RM200K for Q1FY2021.

#### B2. Comparison with Immediate Preceding Quarter's Results

	Current Quarter Ended 31.03.2022 RM '000	Preceding Quarter Ended 31.12.2021 RM '000
Revenue	15,184	23,764
Gross Profits	14,883	22,782
Gross Margin	98.0%	96.0%
(Loss)/Profit Before Tax	(1,986)	5,737

The Group posted a revenue of RM15.2 million for current quarter ("Q1FY2022") as compared to RM23.8 million in immediate preceding quarter ("Q4FY2021"), representing a decrease of 37.1% or RM8.6 million. This is largely due to lesser business days in Quarter 1 which has been a trend with IFCA's revenue growing progressively through the financial quarters in a calendar year.

Thus, the Group recorded a loss before tax of RM1.9 million for Q1FY2022 which represents a decrease of RM7.7 million as compared to profit before tax of RM5.7 million in Q4FY2021.

#### **B3.** Business Prospects

As a direct result of China's zero-COVID policy, which resulted in prolonged strict lockdowns in Shanghai and a partial lockdown in Beijing during the first quarter and extending to second quarter of the financial year, the Group's business in China has been severely impacted. Consequently, the Group has diversified its focus on other segments, such as Malaysia and Indonesia, which are both transitioning into endemicity. It is anticipated that the overall economic circumstances will begin to improve and grow at a faster and more consistent rate throughout the rest of the ongoing financial year.

Despite the ongoing COVID-19 pandemic, demand for cloud-based solutions has continued to benefit from increased investment driven by digital transformation and e-mobility. This level of agility can provide businesses using cloud computing with a significant competitive advantage. The Group emphasised the importance of cloud-based solutions in risk mitigation for businesses. It has not only ensured service continuity but also enabled remote working capabilities for organisations, removing the need for employees to be physically present in an office workplace. Our cloud-based solutions are changing the way businesses operate by improving employee communication, increasing efficiency and productivity, and assisting businesses in solving daily challenges with scalable solutions.

Therefore, the Group will continue to focus on developing and improving existing mobile internet solutions, as well as on upskilling its workforce. Mobile internet solutions enable businesses to save time and money by facilitating easy access to relevant data and synchronising data storage and retrieval with complete access control over all systems. Digitalisation is the future of the workplace since it allows businesses to operate more efficiently. The Group focuses on mobile internet solutions that assist organisations to improve their efficiency and productivity.

As at 31 March 2022, the Group has un-billed orders in hand amounting to RM26.8 million.
