For the 6 months ended 30 June 2022, the group achieved revenue of RM15.7 million, a 15% decrease compared to corresponding period last year.

This was due to lower average daily trading volume and value at Bursa Malaysia, resulted in 31% reduction in ASP revenue segment contribution to the group. The higher AS revenue segment from system enhancements and technology refreshment projects partially offset the decline in ASP.

Profit Before Tax (PBT) and Profit After Tax (PAT) were at RM6.6 million and RM4.9 million, lower by 26% and 30% respectively, mainly due to lower revenue.

Profit Attributable to Ordinary	2.016	2.021	/1 O1E\	220/
Equity Holders of the Parent	2,016	3,031	(1,015)	-33%

The Group's revenue for current quarter was 21% or RM1.8 million lower compared to immediate preceding quarter. The decrease was mainly attributed to lower ASP as a result from lower average trading volume and value at Bursa Malaysia, and lower AS billing in quarter 2.

PBT and PAT recorded lower by RM1.3 million and RM1 million respectively due to lower revenue.

B3. Prospects for 2022

Geopolitical tensions, inflationary pressure, rising commodity prices and interest rate increase drove market sentiment in global equity exchanges. Share trading activities, as measured by Bursa Malaysia's Average Daily Trading Volume and Value, had decreased significantly compared to the performance in 2020 and 2021. This is expected to dampen our customers' business volume.

Our customers are closely monitoring their spend and seek to accelerate time to market for their new product and service offering. We are actively supporting them through developing new solutions to help them improve and digitalise their internal processes to reduce operational costs and increase work efficiency. We are also enhancing existing system capability and renewed focus to develop new product offering to meet their current and trending trading needs.

To manage our own cost base, we continuously monitor our operating expenditure, review current processes and procedures in order to improve productivity and efficiency.

Given the above and barring any unforeseen circumstances, the Group is positive on the performance of our future business.
