The profit before tax for the current quarter was RM1.88 million as compared to a loss before tax of RM2.77 million in the preceding year corresponding quarter.

The increase in revenue was mainly contributed from higher work progress for Duta Park project. The profit before tax in current quarter was mainly due to the reversal of Provision of Liquidated Ascertained Damages of RM4.45 million for Shaw Parade project, which was accrued in the prior financial years as a result of settlement of dispute.

Logging and Timber Trading Segment

The Logging and Timber Trading segment recorded a revenue of RM2.35 million for the current quarter in comparison to a revenue of RM6.00 million in the preceding year corresponding quarter. The profit before tax in the current quarter was RM0.05 million as compared to RM3.10 million in the preceding year corresponding quarter.

The decrease in revenue for the current quarter was mainly due to the end of the logging activities that leads to lesser production and sales on existing approved block, and the Group is in the midst of obtaining permit for a new working block. Property Development Segment

The Property Development segment recorded a higher revenue of RM3.80 million in the current quarter as compared to a revenue of RM3.64 million in the preceding year corresponding quarter. The profit before tax was RM2.11 million in the current quarter as compared to a profit before tax of RM1.29 million in the preceding year corresponding quarter, an increase of RM0.83 million.

The marginal increase in revenue for the current quarter was due to our new development, Vierra Residence @ Kinrara, has started to contribute revenue to the segment. The segment recorded a higher loss before tax of RM0.15 million in the current quarter as compared to a loss before tax of RM0.07 million in the preceding year corresponding quarter. The lower revenue was mainly due to lesser contribution from the Construction segment and the end of the logging activities that lead to lesser production and sales on existing approved block in the Logging and Timber Trading segment. In addition to that, the lower profit before tax was due to lesser contribution of profit from the Group's associated company as resulted by the distribution of dividend during the current quarter.
